Compagnonnage Histoire Coutumes Rglements Rites:

The Rites of Labor Cynthia Maria Truant, 1994 The Rites of Labor is the only full account of the brotherhoods of compagnonnage secret associations of French journeymen formed in the late medieval era and surviving into the nineteenth century In this major contribution to French social history and the anthropology of work culture Truant re creates the compagnons economic activities their often violent clashes with one another and the myths and rituals that sustained their bonds Heritage Regimes and the State Bendix, Regina, Eggert, Aditya, Peselmann, Arnika, 2013-07-02 What happens when UNESCO heritage conventions are ratified by a state How do UNESCO s global efforts interact with preexisting local regional and state efforts to conserve or promote culture What new institutions emerge to address the mandate The contributors to this volume focus on the work of translation and interpretation that ensues once heritage conventions are ratified and implemented With seventeen case studies from Europe Africa the Caribbean and China the volume provides comparative evidence for the divergent heritage regimes generated in states that differ in history and political organization The cases illustrate how UNESCO s aspiration to honor and celebrate cultural diversity diversifies itself The very effort to adopt a global heritage regime forces myriad adaptations to particular state and interstate modalities of building and managing heritage French Connections Andrew N. Wegmann, Robert Englebert, 2020-11-04 French Connections examines how the movement of people ideas and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875 Engaging a wide range of topics from religious and diplomatic performance to labor migration racialization and both imagined and real conceptualizations of Frenchness and Frenchification this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed Cases of cultural formation and dislocation in places as diverse as Quebec the Illinois Country Detroit Haiti Acadia New England and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space Nevertheless these communities shared the same cultural root in the midst of socially and politically fluid landscapes where cultural mobility came to define and indeed sustain communal and individual identities in French North America and the Atlantic World Drawing on innovative new scholarship on Louisiana and New Orleans the editors and contributors to French Connections look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture from this perspective separate spheres of French colonial culture merge to reveal a broader more cohesive cultural world The comprehensive scope of this collection will attract scholars of French North America early American history Atlantic World history Caribbean studies Canadian studies and frontier studies With essays from established award winning scholars such as Brett Rushforth Leslie Choquette Jay Gitlin and Christopher Hodson as well as from new progressive thinkers such as Mairi Cowan William Brown Karen L Marrero and Robert D Taber French

Connections promises to generate interest and value across an extensive and diverse range of concentrations *Crafting the Culture and History of French Chocolate* Susan J. Terrio, 2000-09-28 This book on the crafting of chocolate in contemporary France is itself delicious It will be a classic of French ethnography and contribute in important ways to the ongoing debate about the role of national identity in the European Union Carole L. Crumley University of North Carolina Chapel Hill A real pathbreaker The intensity of Terrio's engagement with her respondents shines from almost every page The work contributes to our understanding of the politics of heritage It is a thoroughly researched and descriptively rich analysis of how anthropologists can approach weighty problems of identity national local relations and the ideology of self and other Michael Herzfeld author of *Portrait of a Greek Imagination* *Families and Frontiers* Kathryn Edwards, 2021-10-01 The frontier of the Early Modern Burgundies In this book Edwards applies in reverse the American frontier concept in order to understand the local changes in family and community in a Burgundy torn in two after the death of Charles the Bold in 1477 During the late fifteenth and early sixteenth centuries residents of the eastern duchy and the western county of Burgundy were in a place and time of transition and transformation a veritable frontier While France and the Holy Roman Empire vied for political control of the region residents struggled to define their social cultural political and economic relationships to each other In the region of the Saône River valley detailed case studies and family reconstruction of specific elites from the cities of Dijon Dole and Besançon are discussed The river ironically acted as a roadway not a barrier and facilitated the fluidity of the residents' relationships Thus the Burgundian frontier was marked by a tacit acceptance of permeable boundaries and the ensuing choices interchanges negotiations and flexibility inherent to the region Edwards successfully argues that a frontier develops when a previously united region is divided and offers a provocative alternative interpretation to contrast with the national historiography most frequently used by scholars This book enhances our understanding of how pre-modern societies created regional identities **The History of the Book in the West: 1455-1700** Ian Gadd, 2017-03-02 Beginning with one of the crucial technological breakthroughs of Western history the development of moveable type by Johann Gutenberg *The History of the Book in the West 1455-1700* covers the period that saw the growth and consolidation of the printed book as a significant feature of Western European culture and society The volume collects together seventeen key articles written by leading scholars during the past five decades that together survey a wide range of topics such as typography economics regulation bookselling and reading practices Books whether printed or in manuscript played a major role in the religious political and intellectual upheavals of the period and understanding how books were made distributed and encountered provides valuable new insights into the history of Western Europe in the fifteenth sixteenth and seventeenth centuries **Histoire corporative de l'horlogerie, de l'orfèvrerie et des industries annexes** Antony Babel, 1916 *Les Compagnonnages en France au XXe siècle : Histoire, mémoire, représentations* François Icher, 1998-12-31 T23:00:00+01:00 Ce livre dresse le bilan du compagnonnage au XXe siècle Fortement stabilisé par les cons

Brière, Pierre Caron, Henri Maître, Robert Burnand, Marcel Bouteron, Jacques Lépine, 1903 *Le Serpent compatissant*
Jean-Michel Mathonière, 2001-11-15 Ce livre rassemble plusieurs études consacrées à l'exploration des racines historiques des
compagnonnages français de tailleurs de pierre à travers l'iconographie et la symbolique de leurs emblèmes. Si les sources
documentaires les concernant ne remontent guère avant le début du XVIIIe siècle, cette analyse permet cependant d'entrevoir
que les Compagnons tailleurs de pierre sont bien les héritiers directs des bâtisseurs des cathédrales du XIIIe siècle et peut-être
même comme le prétendent certaines légendes d'un passé plus lointain encore. Cette quête historique pleine de suspens permet
de mieux comprendre la dimension spirituelle du Saint Devoir des Compagnons véritable chevalerie artisanale selon la belle
expression de George Sand. Le rôle prédominant de la géométrie technique fondamentale pour les opératifs mais aussi support
symbolique et spéculatif est mis clairement en évidence par l'analyse de l'entrecroisement de la queue de la règle et du compas
formant la base de l'emblème commun aux compagnonnages et la franc-maçonnerie.
