Prayers of a Young Poet Rainer Maria Rilke, 2012-10-01 This volume marks the first translation of these prayer poems into English Originally written in 1899 Rilke wrote them upon returning to Germany from his first trip to Russia His experience of the East shaped him profoundly He found himself entranced by Orthodox churches and monasteries above all by the icons that seemed to him like flames glowing in dark spaces He intended these poems as icons of sorts gestures that could illumine a way for seekers in the darkness As Rilke here writes I love the dark hours of my being for they deepen my senses Translated by Mark S Burrows

Sonnets to Orpheus Rainer Maria Rilke, 2024-06-18 Rilke's voice from the last tumultuous young century reaches tenderly into ours But his lush German is a language of its own Mark Burrows has a rare gift to coax it faithfully into English I am delighted and so very grateful for this book Kirsta Tippet host of On Being On the centennial of the first appearance

1923 of Rilke's Sonnets to Orpheus award winning translator Mark Burrows reveals their depth and meaning with a brilliant new introduction and translation This new translation captures the lyric beauty of Rilke's poems honoring their syntactic peculiarities and grammatical complexities as few translators have dared to do Burrows versions maintain the essential strangeness of language and abruptness of metaphor by which the sonnets attain their distinctive character in German Burrows approach replicates what one reviewer describes as the poems dazzling obscurity refusing to resolve the deliberate difficulties Rilke's formulations present The effect invites readers to linger with these sonnets allowing themselves to be shaped in their encounter with them *The Metaphysics of Night* Matthew Del Nevo, 2017-09-08 *The Metaphysics of Night* acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture

Seeking the Sacred Stephanie Dowrick, 2011-06-09 For readers of Thomas Moore James Hillman and Pema Chodron a timely handbook for these troubled times that shows how to bring depth and meaning to our lives through cultivating our connection with something greater than ourselves Can changing our view of ourselves and others affect the world Bestselling author Stephanie Dowrick's major new book is a compelling look at how we can transform the world by seeing the extraordinary everywhere we look both without and within Through her intimate beautiful and encouraging writing Dowrick shows that it is only in altering our perception seeing all of life as sacred that we will challenge the usual stories about who we are and what we are capable of being At a time when religion is increasingly seen as a cause of prejudice and division or as irrelevant to our most pressing concerns the eternal truths of a genuinely inclusive spiritual wisdom have never been more urgently needed or sought In *Seeking the Sacred* Stephanie Dowrick invites us to go beyond cultural divisions and religious dogma and to discover what makes our lives sacred satisfying and meaningful Weaving personal stories including her own with an inspired vision of life's most healing possibilities she reveals how the sacred can transform the way we understand

and value life changing forever how we interact with others and care for ourselves Seeking the Sacred is a provocative and accessible read for those contemplating God faith spirituality and the nature of belief in twenty first century life This is a book for the spiritually curios as well as those already engaged in the deeper questions Richly hopeful and uplifting Seeking the Sacred unravels some of our most complex contemporary dilemmas and speaks to the heart of our deepest yearnings

The Work of Enchantment Matthew Del Nevo,2017-09-08 The Work of Enchantment suggests that it is a lack of enchantment in rich developed countries that causes soul starved Westerners to experience mental and sometimes physical illness Del Nevo argues that this enchantment is most often experienced in childhood but can also be found in adulthood particularly through art However adults must cultivate within themselves the ability to appreciate art by reading listening and gazing activities often misconceived in advanced industrial societies Del Nevo describes the framework of enchantment and its philosophical and historical roots He then concentrates on the work of enchantment within literature considering what enchantment might entail taking the works of Proust Rilke and Goethe as examples Del Nevo shows how a sense of enchantment forms within and between art works using his literary examples as well as between the work and the audience The reader will learn along the way that enchantment may be found in the power of words as an expression of the desire of the soul a compliment of melancholy and in art that points to something beyond itself Enchantment may be found in many places ranging from philosophy religion and psychology to sociology and culture but here Del Nevo focuses on literature His audience is people who are searching for something beyond money or glamour perhaps the meaning of art and culture His focus on literary masterpieces such as the Duino Elegies Remembrance of Things Past Wilhelm Meister s Journeyman Years and others will make it of interest to those in cultural studies Well written and engaging and accessible to non specialist readers this unusual work in philosophy and aesthetics is free of jargon and complicated verbiage Inspiring and enlivening it is in the author s words a stirring call to idleness *Rilke's Sonnets to Orpheus* Hannah Vandegrift Eldridge,Luke Fischer,2019-05-10 Written in three weeks of creative inspiration Rainer Maria Rilke s Sonnets to Orpheus 1923 is well known for its enigmatic power and lyrical intensity The essays in this volume forge a new path in illuminating the philosophical significance of this late masterpiece Contributions illustrate the unique character and importance of the Sonnets their philosophical import as well as their significant connections to the Duino Elegies completed in the same period The volume features eight essays by philosophers literary critics and Rilke scholars which approach a number of the central themes and motifs of the Sonnets as well as the significance of their formal and technical qualities An introductory essay co authored by the editors situates the book in the context of philosophical poetics the reception of Rilke as a philosophical poet and the place of the Sonnets in Rilke s oeuvre Above all this volume s premise is that an interdisciplinary approach to poetry and more specifically to Rilke s Sonnets can facilitate crucial insights with the potential to expand the horizons of philosophy and criticism Essays elucidate the relevance of the Sonnets to such wide ranging topics as phenomenology and existentialism

hermeneutics and philosophy of language philosophy of mythology metaphysics Modernist aesthetics feminism ecocriticism animal ethics and the philosophy of technology

Art Music Matthew Del Nevo, 2017-07-28 Listening to music is not merely something one does but something central to a way of living Listening has the power to transport one into another way of being It is a mode of feeling and forms the bedrock of deep emotion Written from the viewpoint of a philosophy of sensibility Matthew Del Nevo notes that this perspective may not be in fashion but it follows a long tradition Del Nevo emphasizes the aesthetic experience of listening to art music as it has developed and disintegrated in Western civilization He recognizes a deep psychological element to what he calls soul or more accurately sensibility He addresses music in a non technical way taking up the powerful art theory of Charles Baudelaire the music philosophy of Schopenhauer and Richard Wagner and takes a strong critical stand against modernist intellectual art music The importance of this book for the musically literate reader is its insight into the metaphysics of nostalgia This comprehension is missing from nearly all musical instruction because we have lost sight of it Del Nevo asserts that this understanding must be brought back into our culture And since this is a book about listening to art music it is no less about sensibility and its cultivation which in its object form we call culture An engaging book Art Music will appeal to those interested in music culture and philosophy

Why Hope? John Zerzan, 2015-10-19 The infamous eco anarchist John Zerzan whose books have resulted in recent interviews by Vice and Believer magazines checks in with further provocative articles about the chaotic results of civilization and technology Says novelist Lang Gore in his introduction The present collection of essays continues the overarching thrust of John's scholarship unveiling the post apocalyptic nature of our times by noting the apocalypse was yesterday several thousand years ago to be precise and that nothing produced by civilization can ever redeem the systematic attempt it has undertaken these very few millennia to destroy or alienate any human connection with the earth In fact when civilized Europeans imposed themselves everywhere on Earth they created a terminal crisis for themselves by their very contact with indigenous societies Suddenly those with eyes to see and ears to hear could recognize that patriarchy property and authority and certainly slavery were neither necessary nor desirable let alone determined by human nature
