Fabricating Homeland Security Rhys Machold, 2024-09-24 Homeland security is rarely just a matter of the homeland it involves the circulation and multiplication of policing practices across borders Though the term homeland security is closely associated with the United States Israel is credited with first developing this all encompassing approach to domestic surveillance and territorial control Today it is a central node in the sprawling global homeland security industry worth hundreds of billions of dollars And in the wake of the 2008 Mumbai terrorist attacks India emerged as a major growth market Known as India s 9 11 or simply 26 11 the attacks

sparked significant public pressure to adopt modern homeland security approaches Since 2008 India has become not only the single largest buyer of Israeli conventional weapons but also a range of other surveillance technology police training and security expertise Pairing insights from science and technology studies with those from decolonial and postcolonial theory Fabricating Homeland Security traces 26 11 s political and policy fallout concentrating on the efforts of Israel s homeland security industry to advise and equip Indian city and state governments Through a focus on the often unseen and overlooked political struggles at work in the making of homeland security Rhys Machold details how homeland security is a universalizing project which seeks to remake the world in its image and tells the story of how claims to global authority are fabricated and put to work

notch contributions that uniquely highlight the role of risk analysis for informing homeland security policy decisions. Featuring discussions on various challenges faced in homeland security risk analysis, the book seamlessly divides the subject of risk analysis for homeland security into manageable chapters which are organized by the concept of risk informed decisions methodology for applying risk analysis and relevant examples and case studies. *Applied Risk Analysis for Guiding Homeland Security Policy and Decisions* offers an enlightening overview of risk analysis methods for homeland security. For instance, it presents readers with an exploration of radiological and nuclear risk assessment along with analysis of uncertainties in radiological and nuclear pathways. It covers the advances in risk analysis for border security as well as for cyber security. Other topics covered include strengthening points of entry systems, modeling for rapid containment and casualty mitigation, and disaster preparedness and critical infrastructure resilience. Highlights how risk analysis helps in the decision making process for homeland security policy. Presents specific examples that detail how various risk analysis methods provide decision support for homeland security policy makers and risk analysts. Describes numerous case studies from academic, government, and industrial perspectives that apply risk analysis methods for addressing challenges within the U.S. Department of Homeland Security (DHS). Offers detailed information regarding each of the five DHS missions: prevent terrorism and enhance security, secure and manage our borders, enforce and administer our immigration laws, safeguard and secure cyberspace, and strengthen national preparedness and resilience. Discusses the various approaches and challenges faced in homeland risk analysis and identifies improvements and methodological advances that influenced DHS to adopt an increasingly risk informed basis for decision making. Written by top educators and professionals who clearly illustrate the link between risk science and homeland security policy making. *Applied Risk Analysis for Guiding Homeland Security Policy and Decisions* is an excellent textbook and/or supplement for upper undergraduate and graduate level courses related to homeland security risk analysis. It will also be an extremely beneficial resource and reference for homeland security policy analysts, risk analysts, and policymakers from private and public sectors as well as researchers, academics, and practitioners who utilize security risk analysis methods. 08-11-2016, 00:00:00 2008 00:00:00 00:00:00 00:00:00 00:00:00

Smart Power 2017 **India's Middle Class** Christiane Brosius, 2012-06-12. This book examines the complexities of lifestyles of the upwardly mobile middle classes in India in the context of economic liberalisation in the new millennium by analysing new social formations and aspirations, modes of consumption and ways of being in contemporary urban India. Rich in ethnographic material, the work is based on empirical case studies, research material, and illustrations. Offering a model of how urban cosmopolitan India might be studied and understood in a transnational and transcultural context, the book takes the reader through three panoramic landscapes: new world class real estate advertising, a unique religious leisure site, the Akshardham Cultural Complex, and the world of themed weddings and beauty/wellness. All responses to India's new middle classes tryst with cosmopolitanism. The work will be of particular interest to scholars and researchers in sociology, South
