Beyond the World of Titans, and the Remaking of World Order Peter Baofu,2009-03-26 Contrary to the conventional wisdom held by many not only the dominance of the U S in the post Cold War era is much exaggerated but also its days as a hyper power are ending Instead the world is slowly but steadily evolving towards what Dr Baofu originally calls the dawn of the post post Cold War era in the world of titans for a tremendous remaking of world order to be governed by different types of empires crossing regional borders This has important implications for understanding the logic of empire building be it in the past present or future to the extent that the current theoretical debate on international relations among different paradigms is as much misleading as obsolete The current debate also obscures something more tremendous in the long run in relation to the emergence of what Dr Baofu proposes as the union of the unions in the farther future that humans have never known both here on earth and later in deep space

comparative study this work begins with the assumption that students should examine a variety of perspectives and explore alternative possibilities as a means of arousing curiosity stimulating creativity building interest and self motivation and enhancing understanding of complex issues in politics and political economy The book provides the student with the foundations for comparative inquiry Its purpose is threefold to sketch an overview of the major theories and concepts to expose issues and summarize arguments and counter arguments and to encourage the beginning student to pursue critical thinking in the recognition that mainstream ideas deserve scrutiny that many essential questions remain unsettled and that the outcome may result in the formulation and reinforcement of a personal perspective premised on one's individual learning

Presidential Institutions and Democratic Politics Kurt von Mettenheim, 1997 While many comparative analysts see parliamentary government as essential for stable democracy this volume argues that the American presidential system that separates and diffuses power can provide new perspectives for those building democratic institutions in Latin America Eastern Europe and the new republics of the former Soviet Union The authors recognize risks of rigidity gridlock and excessive centralization in presidential institutions But they also emphasize the unexpected levels of legislative productivity during periods of divided government the dramatic reversal of declining popularity by Presidents Reagan and Clinton and the importance of direct appeals by presidents to the nation After examining the American presidential system the authors focus on the de facto separation of powers in European parliaments and presidentialism in France Latin America and Eastern Europe Both trends in European parliamentary systems and the dramatic changes within French presidential institutions suggest that scholars should temper broad generalizations about presidential or parliamentary government

Ethnic Peacemaking Joldon Kutmanaliev, 2023-05-08 With increasing urban population density conflicts in cities erupt more frequently and violently Cities have become hotspots for armed combat highlighting the urgency of understanding the impact of local communities and urban factors on the development of violent conflict Joldon Kutmanaliev presents a novel approach to analyzing communal violence and armed conflicts in urban zones Drawing from fieldwork in cities of southern Kyrgyzstan

he explains local level variations in violence across neighbourhoods during the most intense and violent episode of urban communal violence in Central Asia the clashes between Kyrgyz and Uzbeks in June 2010 Kutmanaliev explains why armed violence affects some urban neighbourhoods but not others why local communities react differently to the same existential threat how they deal with a deteriorating security environment and interethnic fears and how different types of urban planning and urban landscapes influence the spread of violence Importantly the book identifies key factors that help local communities and their leaders to negotiate non aggression pacts and control local constituencies and therefore successfully prevent violence *Intercommunal Warfare and Ethnic Peacemaking* explains communal war and ethnic peacemaking on the level of neighbourhood communities a perspective that is largely absent in previous studies *European Politics in Transition* ,2008
