**The Teacher's Guide to Media Literacy** Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it, why is it important, how can you teach it across a wide range of curriculum areas and grade levels, and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas.

**Restorative Assessment** Laura M. Greenstein, 2017-09-07 Encourage achievement with assessments that promote growth for every student. Imagine a classroom where students can't wait to take tests. A dream. Maybe. But when you make restorative assessment part of your classroom culture, your students are more likely to feel safe, ready for challenges, and eager to showcase their knowledge whenever they have the chance. Unlike ordinary testing, restorative assessments offer students multiple ways to demonstrate their learning, promoting equity and reducing conflict in the classroom. Since assessments happen regularly, you have more opportunities to check student progress and tailor your teaching accordingly. In this guide, you'll find real-world examples of restorative assessment in practice, cutting-edge research on personalized learning and assessment, practical strategies for implementation, action points, and reflection questions. In today's diverse classrooms, one size fits all learning is a thing of the past. Empower your teaching and your students by mastering restorative assessment and helping every student grow. Restorative Assessment provides excellent information and training for teachers and an in-depth understanding of students of today. The practices recommended in this book will transform schools and create challenging, healthy learning environments for all children. Sister Camille Anne Campbell, President, Mount Carmel Academy. Why waste time on assessment for just more data when you can have assessment that is restorative and intentionally creates more learning opportunities for all students? This book offers the structure for a purpose-driven assessment system that uses student-centered formative assessments as a means to respond to learning, re-engage students, and immediately deliver specific, appropriate instruction to allow all students to succeed. Renee Peoples, Teaching and Learning Coach, Swain West Elementary.
