## **Competition Policy And Price Fixing:**

*Competition Policy and Price Fixing* Louis Kaplow, 2013-06-30 Throughout the world the rule against price fixing is competition law's most important and least controversial prohibition. Yet there is far less consensus than meets the eye on what constitutes price fixing and prevalent understandings conflict with the teachings of oligopoly theory that supposedly underlie modern competition policy. *Competition Policy and Price Fixing* provides the needed analytical foundation. It offers a fresh in-depth exploration of competition law's horizontal agreement requirement, presents a systematic analysis of how best to address the problem of coordinated oligopolistic price elevation, and compares the resulting direct approach to the orthodox prohibition. In doing so, Louis Kaplow elaborates the relevant benefits and costs of potential solutions, investigates how coordinated price elevation is best detected in light of the error costs associated with different types of proof, and examines appropriate sanctions. Existing literature devotes remarkably little attention to these key subjects and instead concerns itself with limiting penalties to certain sorts of interfirm communications. Challenging conventional wisdom, Kaplow shows how this circumscribed view is less well grounded in the statutes, principles, and precedents of competition law than is a more direct functional proscription. More important, by comparison to the communications-based prohibition, he explains how the direct approach targets situations that involve both greater social harm and less risk of chilling desirable behavior and is also easier to apply.

**Bye Bye Bargains?** United States. Congress. House. Committee on the Judiciary. Subcommittee on Courts and Competition Policy, 2010 The Consistent Application of EU Competition Law Adriana Almășan, Peter Whelan, 2017-01-04 In recent years there has been a decentralisation of the enforcement of the EU competition law provisions Articles 101 and 102 of the Treaty on the Functioning of the European Union TFEU Consequently the national application of these provisions has become increasingly more common across the European Union This national application poses various challenges for those concerned about the consistent application of EU competition law This edited collection provides an in depth analysis of the most important limitations of and the challenges concerning the applicability of Articles 101 and 102 TFEU at national level Divided into five parts the book starts out by examining how the consistent enforcement of Articles 101 and 102 TFEU operates as a general EU competition policy It then discusses several recent landmark cases of the European Court of Justice on Articles 101 and 102 TFEU before proceeding to analyse certain additional unique jurisdictional challenges to the uniform application of the EU competition law provisions Subsequently it focuses on one of the most important instruments that can help to achieve the uniform application of EU competition law in cases handled by the national courts preliminary rulings Finally it provides selective examples of how Articles 101 and 102 TFEU are effectively applied at national level thereby providing additional input into how problematic the issue of consistent application of EU competition law is in practice

**Federal Antitrust and EC Competition Law Analysis** Femi Alese, 2016-12-14 This book provides the reader with a comprehensive analysis of US Federal Antitrust and EC Competition Law It is encyclopaedic in coverage examining every constituent element of the law and landmark decisions from the perspectives of economics and policy goals explaining their implications for commercial operations and advocating policy reforms where necessary Global Competition Policy Edward Montgomery Graham, J. David Richardson, 1997 There is growing consensus among international trade negotiators and policymakers that a prime area for future multilateral discussion is competition policy Competition policy includes antitrust policy including merger regulation and control but is often extended to include international trade measures and other policies that affect the

structure conduct and performance of individual industries This study includes country studies of competition policy in Western Europe North America and the Far East with a focus on Japan in the light of increasingly globalized activities of business firms Areas where there are major differences in philosophy policy or practice are identified with emphasis on those differences that could lead to economic costs and international friction Alternatives for eliminating these costs and frictions are discussed including unilateral policy changes bilateral or multilateral harmonization of policies and creation of new international regimes to supplement or replace national or regional regimes

**Competition Policy in America** Rudolph J. R. Peritz, 2001-04-05 Americans have long appealed to images of free competition in calling for free enterprise freedom of contract free labor free trade and free speech This imagery has retained its appeal in myriad aspects of public policy for example Senator Sherman's Anti Trust Act of 1890 Justice Holmes's metaphorical marketplace of ideas and President Reagan's rhetoric of deregulation In Competition Policy in America 1888 1992 Rudolph Peritz explores the durability of free competition imagery by tracing its influences on public policy Looking at

congressional debates and hearings administrative agency activities court opinions arguments of counsel and economic legal and political scholarship he finds that free competition has actually evoked two different visions freedom not only from oppressive government but also from private economic power He shows how the discourse of free competition has mediated between commitments to individual liberty and rough equality themselves unstable over time This rhetorical approach allows us to understand for example that the Reagan and Carter programs of deregulation both inspired by the rhetoric of free competition were driven by fundamentally different visions of political economy Peritz's historical inquiry into competition policy as a series of government directives inspired by two complex yet distinct and sometimes contradictory visions of free competition provides an indispensable framework for understanding modern political economy whether political campaign finance reform corporate takeover regulation or current attitudes toward the New Deal Legacy Competition Policy in America will be of great interest to lawyers historians economists sociologists and policy makers in both government and business

**Competition Policy** Massimo Motta, 2004-01-12 This is the first book to provide a systematic treatment of the economics of antitrust or competition policy in a global context It draws on the literature of industrial organisation and on original analyses to deal with such important issues as cartels joint ventures mergers vertical contracts predatory pricing exclusionary practices and price discrimination and to formulate policy implications on these issues The interaction between theory and practice is one of the main features of the book which contains frequent references to competition policy cases and a few fully developed case studies The treatment is written to appeal to practitioners and students to lawyers and economists It is not only a textbook in economics for first year graduate or advanced undergraduate courses but also a book for all those who wish to understand competition issues in a clear and rigorous way Exercises and some solved problems are provided
