**The Couple and Family Technology Framework** Katherine M. Hertlein, Markie L. C. Blumer, 2013-07-18 Couples and families worldwide have a constant electronic connection to others a fact that is influencing the concerns and issues they bring to therapy The authors of this resource help mental health practitioners to better deal with concerns such as online infidelity online dating internet addictions cyber bullying and many more by introducing the Couple and Family Technology CFT framework a multi theoretical approach that doesn't require clinicians to change their preferred clinical approach The CFT framework acknowledges the ways in which couples navigate their relationship with technology and a partner simultaneously and it attends to and in some cases incorporates the role of technology in therapeutic ways Included in the authors discussion of how different technologies affect relationships is a survey of what individuals motivations of usage are an examination of the specific issues that emerge in treatment a study of the risks particularly relevant to intimate relationships and an introduction of the first ever technology based genogram They also examine technological usage across different developmental points in a couple's lifespan with attention given throughout to people from various cultural backgrounds Along with the CFT framework the authors also introduce a new discipline of family research Couple and Family Technology This discipline integrates three broad perspectives in family science and helps therapists maintain a systemic focus in assessing and treating couples where issues of the Internet and new media are problematic Online resources can be accessed by purchasers of the book and include videos additional case studies glossary and forms

**The Ethics of Everyday Life** Michael Banner, 2014-10-23 The moments in Christ's human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested In other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies or body parts post mortem plainly indicate Thus the following questions arise how do the instances in Christ's life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life How does the Christian imagination of human life which dwells on and draws from the life of Christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human Michael Banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology Drawing from social anthropology and Christian thought and practice from many periods and influenced especially by his

engagement in public policy matters including as a member of the UK's Human Tissue Authority Banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the grave

**The Mobile Connection** Rich Ling, 2004-06-25 Has the cell phone forever changed the way people communicate The mobile phone is used for real time coordination while on the run adolescents use it to manage their freedom and teens text to each other day and night The mobile phone is more than a simple technical innovation or social fad more than just an intrusion on polite society This book based on world wide research involving tens of thousands of interviews and contextual observations looks into the impact of the phone on our daily lives The mobile phone has fundamentally affected our accessibility safety and security coordination of social and business activities and use of public places Based on research conducted in dozens of countries this insightful and entertaining book examines the once unexpected interaction between humans and cell phones and between humans period The compelling discussion and projections about the future of the telephone should give designers everywhere a more informed practice and process and provide researchers with new ideas to last years Rich Ling an American working in Norway is a prominent researcher interviewed in the new technology article in the November 9 issue of the New York Times Magazine A particularly good read this book will be important to the designers information designers social psychologists and others who will have an impact on the development of the new third generation of mobile telephones Carefully and wittily written by a senior research scientist at Telenor Norway's largest telecommunications company and developer of the first mobile telephone system that allowed for international roaming
