Start Export-Import Business CA Shiva Chaudhari, International trade is one of the favourite industries today International trade exists because one country has a supply of some commodity or merchandise that is in demand by another country As the world becomes more and more technologically advanced international trade becomes more and more rewarding In recent times we have seen a major growth in the export and import of goods in India Seeing this change more and more entrepreneurs or startups are venturing into this area to reap the opportunities Practical Guide on How to Start Export Import Business covers everything about starting export or import business It describes procedure from business idea to establish and operate an export import house This book serves as a consultant to entrepreneurs who are thinking to start export import business This book covers all general legal and specific rules regulations applicable to export import in India This book will help exporters importers Custom House Agents students who want to know about export import It will also serve as checklist while doing actual business Book focuses more on practical aspects rather than just theory knowledge The book is written in very simple and lucid language so that even a layman can understand easily about export import Book is divided into three parts for easy reference Where first part covers export second part covers import and last part covers rules regulations governing export import At the end of book a summary is provided to understand quickly Special features include Written in Simple language to understand easily Covers from business idea to establish successful export import house Explains practical procedure to establish and operate business Specific guidance is provided to save your money from fraud Covers all aspects of custom procedure and selection of product supplier *U.S. Customs Foreign-trade Zones Manual* U.S. Customs Service,1991 Bonded Warehouse Manual for Proprietors, Importers, Customs Officers ,1990 **Technical Manual** United States. War Department,1963 Labor Relations Reference Manual ,1986 *Efficient Logistics* Luis C. Blancas,John Isbell,Monica Isbell,Hua Joo Tan,Wendy Tao,2014-01-02 Vietnam has attained a strong record of economic growth and poverty reduction since the adoption of market based economic reforms and pro poor policies starting in the mid 1980s Much of this achievement was driven by an untapped rapidly growing labor force and the enablement of greater labor participation in higher productivity sectors of the economy Yet as Vietnam has restructured its economic activity towards manufacturing more mechanized primary sector production and increasingly services and as the labor force is projected to expand at a markedly lower rate than before finding new sources of productivity improvements has become the key to sustaining economic growth going forward Improvements in freight logistics can unlock productivity gains across the Vietnamese economy for years to come The shippers and carriers that operate the supply chains that connect Vietnam to the global economy generally perceive that logistics costs in Vietnam those incurred when moving storing and inspecting goods are more onerous than in peer economies like China Malaysia and Thailand even as they are also perceived to be more competitive than those in other developing Asian countries While many factors may contribute to costly logistics the main source of underperformance in Vietnam s logistics sector appears to be the inventory carrying implications of unreliable

freight itineraries unpredictable inspection and clearance procedures and an uncertain planning legal and regulatory framework By making commerce more predictable particularly for regional and inter continental trade more efficient logistics can lower the cost of doing business boost competitiveness attract investment and generate employment In short efficient logistics can become a driver of lasting growth Directed at industry practitioners and policy makers alike this report highlights five key initiatives to improve the reliability and cost effectiveness of transportation and logistics in Vietnam s domestic and international supply chains These include i modernizing the customs system more broadly to enable goods clearance in a consistently timely manner ii enhancing regulatory transparency to minimize discretion in the regulation of commerce iii promoting multimodal transport corridor planning iv enhancing competition and professionalism in the trucking industry and v deploying capacity more strategically at major gateways particularly at Cai Map Thi Vai
