**New Perspectives on Supply and Distribution Chain Financing:**

**Case Studies from China and Europe** Georg Baltes, 2015-02-16 Globalization no longer means simply finding low cost countries for sourcing but has involved to include the opportunity for growth in Asia's emerging domestic markets specifically China. This development results in extended truly global supply chains and thus places a higher pressure on working capital. Therefore several definitions of Supply Chain Management already encompass financial aspects and demand a more integrated consideration of material information and financial flows within supply chains. However, more precise theory on Supply Chain Financing is understudied and initial implementation of related solutions in industry has only gained momentum during and after the economic and financial crises of 2008 and 2009. In contrast to traditional financial instruments for supply chains, for instance trade finance products which have been around for more than a century, Supply Chain Financing leverages larger and influential members of supply chains. These firms might, for instance, provide easier and cheaper access to financing for smaller supply chain members, supporting their profitability through renegotiated and reduced purchasing prices. Echoing recent research results on supply chain risk management, other firms may prefer to take on a supply chain perspective and work on creating agile and resilient supply chains. In this context, Supply Chain Financing can be employed to ensure liquidity for crucial upstream and downstream supply chain partners, thereby allowing a firm to effectively control risk while making the most of remaining growth opportunities in emerging markets like China.

*Contemporary Approaches and Strategies for Applied Logistics* Wood, Lincoln C., 2018-01-30 Evaluating the role of logistics and supply chain management skills or applications is necessary for the success of any organization or business. As market competition becomes more aggressive, it is crucial to evaluate ways in which a business can maintain a strategic edge over competitors. *Contemporary Approaches and Strategies for Applied Logistics* is a critical scholarly resource that examines applied research and development in logistics and supply chain management. Featuring coverage on a broad range of topics such as computational logistics, inventory management, and partnership formation, this book is geared towards academicians, researchers, and practitioners seeking current research on enabling an efficient and sustainable economy.

Global Value Chains and Global Production Networks Jeffrey Neilson, Bill Pritchard, Henry Yeung Wai-Chung, 2017-10-02 The global economic system is experiencing a profound period of rapid change. The emergence of globalised production and distribution systems which bring together diverse constellations of economic actors through a complex regime of global corporate governance, state regulation, and new international divisions of labour, demands corresponding and innovative explanatory models. Global value chains (GVCs) and global production networks (GPNs) have been particularly useful as conceptual frameworks for understanding the global market engagement of firms, regions, and nations. This book examines the rise of GVCs and GPNs as dominant features of the international political economy. It brings together leading thinkers in the field and sets out new directions for future scholarship in understanding the contemporary global economic system. In doing so, this book makes a significant contribution to our understanding of the international political economy and the global

economic system in the post Washington Consensus era of contemporary capitalism This book was published as a special issue of the Review of International Political Economy      Contemporary Logistics in China Zhi-lun Jiao, Shao-ju Lee, Ling Wang, Bing-lian Liu, 2017-04-26 This book is the seventh volume in a series entitled Contemporary Logistics in China authored by researchers from the Logistics Center at Nankai University In the spirit of the six preceding annual volumes this book carries on the ideal of providing a systematic exposition on the logistics development in China for the English speaking community at large Specially this volume captures China's logistics development at a crucial turning point On the one hand it reflects the new horizon advocated by the Government's One Belt One Road Initiative global cooperation strategy on the other it explores the Internet revolution which has had major impacts on e-commerce and urban logistics in China Subjects covered in this volume encompass the macro factors pertaining to logistics development region specific plans industry wide transformation globally oriented moves and current hot topics The expositions on and analyses of these subjects are based on the latest available sources and statistical data As with the previous volumes the ultimate aim of this book is to present a timely portrait of the rapid growth of China's logistics market and the status quo of its logistics industry In so doing the book offers an in depth analysis of critical issues involved in the ongoing dynamic and multi faceted development and provides a valuable reference resource for interested readers in the academic and professional fields      **Contemporary Logistics**

James C. Johnson, Donald F. Wood, 1990      Artistic and Intellectual Practices in Contemporary China Carol Yinghua Lu, 2025-01-20 This edited volume is the first internationally available English translation of key lectures and essays delivered at Beijing's Inside Out Art Museum over the past decade The book elevates a chorus of voices from domestic and international intellectuals artists curators and historians in a dialogue that reframes Chinese art from 1949 to the present Part I offers critical academic complications of the story of Chinese art from the 1950s to the present as one singularly defined and stifled by political revolution It traces important continuities and early examples of contemporary art practice to the Party's birth and consolidation of power from the 1920s onwards It relates the formation of contemporary art to the historical course of intellectual practice in China from 1949 Part II proposes China as an issue requiring historical interrogation rather than an inviolable entity It questions the efficacy of Asia as a term presents case studies of independent publishers that challenged tightly crafted historical narratives and wraps up with incisive reflections on the challenges confronting creatives and historians in China today With chapters ranging from peer reviewed scholarship to cuttngly humorous personal anecdotes its contributing authors give rare first hand accounts of navigating pertinent historical and current situations including censorship China's ill liberalism and COVID 19 This book offers readers an ear to heretofore closed door conversations in leading modern and contemporary art spaces      *Contemporary Logistics in China* Zhilun Jiao, Xiaofan Wu, Bing-lian Liu, Shao-ju Lee, Zhijuan Chen, 2022-10-22 This book encompasses the macro factors pertaining to the overall development in logistics technologies and facilities region specific policies and plans industry wide
