Contesting Democracy Political Ideas In Twentieth Century Europe:

Contesting Democracy Jan-Werner Müller, 2011-09-20 DIV This book is the first major account of political thought in twentieth century Europe both West and East to appear since the end of the Cold War Skillfully blending intellectual political and cultural history Jan Werner Müller elucidates the ideas that shaped the period of ideological extremes before 1945 and the liberalization of West European politics after the Second World War He also offers vivid portraits of famous as well as unjustly forgotten political thinkers and the movements and institutions they inspired Müller pays particular attention to ideas advanced to justify fascism and how they relate to the special kind of liberal democracy that was created in postwar Western Europe He also explains the impact of the 1960s and neoliberalism ending with a critical assessment of today's self consciously post ideological age div *Contesting Democracy* Jan-Werner Müller, 2011-07-01 **Transatlantic**

Democracy in the Twentieth Century Paul Nolte, 2016-10-10 Transatlantic democracy in the 20th century this concept goes beyond the idea of an American civilizing mission in Europe after two World Wars and certainly beyond the notion of re educating Germans and making them fit for Western institutions after Nazism As democracy is being contested anew in the beginning of the 21st century a much more complicated landscape of democracy since 1900 emerges Transfer was not a one way street and patterns of conflict and transformation affected both American and European political societies American democracy may not be reduced to a resilient defense of original traditions while the narrative of German democracy is more than redemption from catastrophe The essays in this volume contribute to a new history of transatlantic democracy that accounts for its manifold experiences and constant renegotiations up to the current challenges of American and European populism **Maurice Dobb** T. Shenk, 2013-12-17 This book explores the life of the man whom even his critics acknowledged was one of the world's most significant Communist economists From his outpost at the University of Cambridge where he was a protégé of John Maynard Keynes and mentor to students Dobb made himself into one of British communism's premier intellectuals *The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century* Peter E. Gordon, Warren Breckman, 2019-08-29 The Cambridge History of Modern European Thought is an authoritative and comprehensive exploration of the themes thinkers and movements that shaped our intellectual world in the late eighteenth and nineteenth century Representing both individual figures and the contexts within which they developed their ideas each essay is written in a clear accessible style by leading scholars in the field and offers both originality and interpretive insight This second volume surveys twentieth century European intellectual history conceived as a crisis in modernity Comprised of twenty one chapters it focuses on figures such as Freud Heidegger Adorno and Arendt surveys major schools of thought including Phenomenology Existentialism and Conservatism and discusses critical movements such as Postcolonialism Structuralism and Post structuralism Renouncing a single master narrative of European thought across the period Peter E Gordon and Warren Breckman establish a formidable new multi faceted vision of European intellectual history for the global

modern age **European Constitutional Imaginaries** Jan Komárek, 2023-02-07 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations How can the EU be made legitimate and sustainable through constitutional law and what is the role of constitutional lawyers and their ideas in creating this sense of legitimacy This book seeks to answer these questions through the concept of the constitutional imaginary sets of ideas and beliefs that motivate and justify the practice of government and collective self rule Constitutional imaginaries are as important as institutions and office holders as they provide political action with an overarching sense and purpose recognized as legitimate by those governed Constitutional imaginaries are necessary fictions that make political rule possible and at the same time they are ideologies which hide from view various forms of domination European Constitutional Imaginaries deals with a variety of questions and is split into four parts to address the first part explores in more detail various meanings of European constitutional imaginary as seen by different disciplines legal sociology political and constitutional theory and philosophy The second part revisits the contribution of some key authors to the creation of European constitutional imaginaries and the third part offers various new ways of thinking about European constitutionalism The fourth and final part examines political economy behind various constitutional imaginaries Written by a balanced mix of well established authors and newer talent European Constitutional Imaginaries promises to open debates on European constitutionalism that are necessary to understanding Europe's present predicament and its various crises all navigated through the medium of law

The Politics of Moderation in Modern European History Ido de Haan, Matthijs Lok, 2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century *Juste Milieu* and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view

German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran

aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West *The European Union* Simona Piattoni, 2015 This volume seeks to answer the question Which institutional architecture for which kind of democracy for the EU and discusses a series of institutional architectures in light of the democratic quality of the processes and decisions generated by them *Europe's Utopias of Peace* Bo Stråth, 2016-01-28 Europe's Utopias of Peace explores attempts to create a lasting European peace in the aftermath of the Napoleonic wars and the two world wars The book charts the 250 year cycle of violent European conflicts followed by new utopian formulations for peace The utopian illusion was that future was predictable and rules could prescribe behaviour in conflicts to come Bo Stråth examines the reiterative bicentenary cycle since 1815 where each new postwar period built on a design for a project for European unification He sets out the key historical events and the continuous struggle with nationalism linking them to legal political and economic thought Biographical sketches of the most prominent thinkers and actors provide the human element to this narrative Europe's Utopias of Peace presents a new perspective on the ideological legal economic and intellectual conditions that shaped Europe since the 19th century and presents this in a global context It challenges the conventional narrative on Europe's past as a progressive enlightenment heritage highlighting the ambiguities of the legacies that pervade the institutional structures of contemporary Europe Its long term historical perspective will be invaluable for students of contemporary Europe or modern European history **Unelected Power** Paul Tucker, 2019-09-10 How central banks and independent regulators can support rather than challenge constitutional democracy Unelected Power lays out the principles needed to ensure that central bankers and other independent regulators act as stewards of the common good Blending economics political theory and public law this critically important book explores the necessary conditions for delegated but politically insulated power to be legitimate in the eyes of constitutional democracy and the rule of law It explains why the solution must fit with how real world government is structured and why technocrats and their political overseers need incentives to make the system work as intended Now with a new preface by Paul Tucker Unelected Power explains how the regulatory state need not be a fourth branch of government free to steer by its own lights and how central bankers can emulate the best of judicial self restraint **Europe's Functional Constitution** Turkuler Isiksel, 2016-05-26 Constitutionalism has become a byword for legitimate government but is it fated to lose its relevance as constitutional states relinquish power to international institutions This book evaluates the extent to which constitutionalism as an empirical idea and normative ideal can be adapted to institutions beyond the state by surveying the sophisticated legal and political system of the European Union Having originated in a series of agreements between states the EU has acquired important constitutional features like judicial review protections for individual rights and a hierarchy of norms Nonetheless it confounds

traditional models of constitutional rule to the extent that its claim to authority rests on the promise of economic prosperity and technocratic competence rather than on the democratic will of citizens. Critically appraising the European Union and its legal system, this book proposes the idea of functional constitutionalism to describe this distinctive configuration of public power. Although the EU is the most advanced instance of functional constitutionalism to date, understanding this pragmatic mode of constitutional authority is essential for assessing contemporary international economic governance. **The Practice of Socialist Internationalism** Talbot Imlay, 2017-12-08. The Practice of Socialist Internationalism examines the efforts of the British, French, and German socialist parties to cooperate with one another on concrete international issues. Drawing on archival research from twelve countries, it spans the years from the First World War to the early 1960s, paying particular attention to the two post-war periods during which national and international politics were recast. In addition to highlighting a neglected dimension of twentieth-century European socialism, the volume provides novel perspectives on the history of internationalism and the history of international politics. By practicing internationalism, European socialists sought to forge a new practice of international relations, one that would emerge from their collective efforts to work out socialist approaches to pressing issues of international politics, such as post-war reconstruction, European integration, and decolonization. **Global Catholicism** Bryan T. Froehle, Massimo Faggioli, 2024-10-02. Global Catholicism: Between Disruption and Encounter opens the Studies in Global Catholicism series with an examination of a worldwide religious institution that up to now has been more globally extensive than truly globalized. It explores the world historical and theological meaning of de-Europeanization with church data by world region. Readers get an in-depth look at the institutional and theological capacity and limits of the cosmopolitan reality of today's Catholic Church. Its integrated perspective, grounded in cultural and political history together with an ecclesiology of post-Vatican II Catholicism, offers a new way to approach today's emerging post-colonial intercultural. Global Catholicism, as centuries-old trajectories are disrupted and pressing new realities demand original responses.

Constitutionalism beyond Liberalism Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26. Explores the possibilities of constitutionalism from diverse theoretical and comparative perspectives, particularly those from outside liberal and Anglo-European paradigms. **European Modernity** Bo Stråth, Peter Wagner, 2017-07-27. It is often taken for granted that modernity emerged in Europe and diffused from there across the world. This book questions that assumption and re-examines the question of European modernity in the light of world history. Bo Stråth and Peter Wagner re-position Europe in the global context of the 19th and 20th centuries. They show that Europe is less modern than has been assumed and modernity less European, and thus decentre Europe in a way that makes room for a wider historical perspective. Adopting a thematic structure, the authors reconceive the idea of European modernity in relation to key topics such as democracy, capitalism, and market society, individual autonomy, religion, and politics. *European Modernity* is an important addition to the literature that will be of interest to all students and scholars of modern European history. *The European Union in Search of Narratives*

François Foret, 2024-12-31 This book examines the legitimization of the European Union through the development and rapid rotation of narratives aiming to convey its identity and purpose Utilizing literature and data across a wide range of interdisciplinary areas rarely studied together the book argues that three narratives have been dominant over the last 20 years Europe of rights Europe of values and a European way of life It presents both theoretical and empirical research on the transformation of political domination collective identities and EU legitimization and analyses various crises linked to socio economic security identity and normative issues such as terrorism and radicalization pandemics and morality politics It finds that European narratives express lower ambitions on charismatic community building are constantly expanding to new domains and are increasingly framed as being in a situation of existential threat which may increase democratic tensions and give rise to a populist backlash This book will be of interest to students and scholars of European integration European Parliament legitimization studies political communication and to comparative politics and political sociology

Russia, the Former Soviet Republics, and Europe Since 1989 Katherine Graney, 2019-08-09 Nearly three decades after the fall of the Berlin Wall early hopes for the integration of the post Soviet states into a Europe whole and free seem to have been decisively dashed Europe itself is in the midst of a multifaceted crisis that threatens the considerable gains of the post war liberal European experiment In Russia the Former Soviet Republics and Europe Since 1989 Katherine Graney provides a panoramic and historically rooted overview of the process of Europeanization in Russia and all fourteen of the former Soviet republics since 1989 Graney argues that deeply rooted ideas about Europe s cultural civilizational primacy and concerns about both ideological and institutional alignment with Europe continue to influence both internal politics in contemporary Europe and the processes of Europeanization in the post Soviet world By comparing the effect of the phenomenon across Russia and the ex republics Graney provides a theoretically grounded and empirically rich window into how we should study politics in the former USSR

Russia, the Former Soviet Republics, and Europe Since 1989 Katherine E. Graney, 2019 Nearly three decades after the fall of the Berlin Wall early hopes for the integration of the post Soviet states into a Europe whole and free seem to have been decisively dashed Europe itself is in the midst of a multifaceted crisis that threatens the considerable gains of the post war liberal European experiment In Russia the Former Soviet Republics and Europe Since 1989 Katherine Graney provides a panoramic and historically rooted overview of the process of Europeanization in Russia and all fourteen of the former Soviet republics since 1989 Graney argues that deeply rooted ideas about Europe s cultural civilizational primacy and concerns about both ideological and institutional alignment with Europe continue to influence both internal politics in contemporary Europe and the processes of Europeanization in the post Soviet world By comparing the effect of the phenomenon across Russia and the ex republics Graney provides a theoretically grounded and empirically rich window into how we should study politics in the former USSR

Rhetoric and Bricolage in European Politics and Beyond Niilo Kauppi, Kari Palonen, 2022-06-16 This book seeks to develop Rhetoric as a field of knowledge in an important new

direction European Union politics The authors analyse what could be called a European style of politics textual strategies and rhetorical styles evolving within and around the EU s supranational and national institutions By fusing rhetorical and sociological approaches political thought and culture the book contributes to the analysis of the political as a way of thinking and judging the political aspect of any phenomena
