Contesting Global Values Transnational Social Movements Confront The Neoliberal Order:

Contesting Global Values Mahmoud Nimir Musa, 2011 How should the world be organized And how should values be prioritized There is an ongoing struggle between two visions one advocating a world economic system and the other a global society On the one hand are the transnational corporations and the politicians supporting them who are continuously working to gain access to cheap labor natural resources markets and the promotion of a culture of consumerism On the other hand are workers and citizens who seek to place human rights norms the well being of the individual and environmental sustainability at the center of policy While the global Neoliberal network is rich in resources densely organized and rather clear in its goals its rival is resource poor and faces many challenges Can human rights peace and international law women's and workers rights networks coalesce into a global justice movement Can the global North South gap be bridged And what organizational forms should be employed What contributed to the growth of transnational social movements during the last two decades and how does this episode of contention differ from others in history The book first develops a conceptual framework for understanding the two competing networks and the world political system in which they operate This is followed by elaborating five of the major social movements human rights environmental justice women's rights labor solidarity and development The third part discusses the opportunities and challenges facing the global justice movement

Transnational Agrarian Movements Confronting Globalization Saturnino M. Borras, Jr., Marc Edelman, Cristóbal Kay, 2009-02-23 Readers of this book will encounter peasants and farmers who struggle at home and traverse national borders to challenge the World Trade Organization and other powerful global institutions Studies the activists in Brazil who uproot plots of genetically modified soybeans forest dwellers in Indonesia who chop down rubber plantations to cultivate rice to feed their families runaway villages in China that take up arms to resist corrupt officials and Mexican migrants who having exited in desperation return from abroad to transform their communities Little known transnational agrarian movements of the early twentieth century share the stage with more recent high profile global alliances such as Vía Campesina Celebrates a dynamic sector of international civil society and tackles the thorny questions of successes and failures ethical and political dilemmas troubled alliances with NGOs protest repertoires and representation claims Analyzes contemporary collective action in all its complexity acknowledging ambiguities and contradictions posing challenging questions and providing concrete strategies for scholars and activists

Contesting Global Order James H. Mittelman, 2011-02-25 Few authors have sought to explain the links among development global governance and globalization *Contesting Global Order* traces dominant values and patterns on a world level over the last half century Including a framing introduction written for the volume this book brings together for the first time James H. Mittelman's most influential works offering cross regional analysis and including fieldwork in nine countries in Africa and Asia

Contesting World Order? Joe Wills, 2017-04-13 What do equality dignity and rights mean in a world where eight men own as much wealth as half the world's population *Contesting World*

Order Socioeconomic Rights and Global Justice Movements examines how global justice movements have engaged the language of socioeconomic rights to contest global institutional structures and rules responsible for contributing to the persistence of severe poverty Drawing upon perspectives from critical international relations studies and the activities of global justice movements this book evaluates the counter hegemonic potential of socioeconomic rights discourse and its capacity to contribute towards an alternative to the prevailing neo liberal common sense of global governance

Gender Orders Unbound? Ilse Lenz,Charlotte Ullrich,Barbara Fersch,2007-05-24 The book shows the new gender orders emerging on private and public levels as the old patterns of the industrial era are left behind

Globalization and Social Movements Valentine M. Moghadam,2008-10-17 This clear and concise book examines the crucial relationship between globalization and social movements Deftly combining nuanced theory with rich empirical examples leading scholar Valentine M Moghadam focuses especially on three transnational social movements Islamism feminism and global justice Defining globalization as a complex process in which the mobility of capital peoples organizations movements and ideas takes on an increasingly transnational form the author shows how both physical and electronic mobility has helped to create dynamic global social movements Globalization has engendered the spread of neoliberal capitalism across the world but it also has engendered opposition and collective action

International Institutions and Power Politics Anders Wivel,T.V. Paul,2019-10-01 This book moves scholarly debates beyond the old question of whether or not international institutions matter in order to examine how they matter even in a world of power politics Power politics and international institutions are often studied as two separate domains but this is in need of rethinking because today most states strategically use institutions to further their interests Anders Wivel T V Paul and the international group of contributing authors update our understanding of how institutions are viewed among the major theoretical paradigms in international relations and they seek to bridge the divides Empirical chapters examine specific institutions in practice including the United Nations International Atomic Energy Agency and the European Union The book also points the way to future research International Institutions and Power Politics provides insights for both international relations theory and practical matters of foreign affairs and it will be essential reading for all international relations scholars and advanced students

Yearbook of International Organizations 2004/2005 Union of International Associations,2004

The Gender Order of Neoliberalism Smitha Radhakrishnan,Cinzia D. Solari,2023-08-09 What do mompreneurs angry working class men and migrant domestic workers all have in common They are all gendered subjects responding to the economic political and cultural realities of neoliberalism s global gender order In this ambitious book Radhakrishnan and Solari map the varied gendered pathways of a global hegemonic regime Focusing on the US the former Soviet Union and South and Southeast Asia they argue that the interconnected histories of imperialism socialism and postcolonialism have converged in a new way since the fall of the Soviet Union transforming the post war international order that preceded it Today the ideal of the empowered woman a

striving entrepreneurial subject who overcomes adversity and has many choices symbolizes modernity for diverse countries competing for status in the global hierarchy This ideal bridges the painful gap between aspiration and lived reality but also spurs widespread discontent Blending social theory rich empirical evidence and a multi sited understanding of neoliberalism this book invites all of us to question taken for granted knowledge about gender and capitalism and to look to grassroots international movements of the past to chart the path to a fairer future

Creating a Better World Rupert Taylor, 2004 Takes an interdisciplinary approach to interpreting global civil society Contributors are some of the leading theoreticians in the field A sound handbook for activism The term global civil society has become a catchphrase of our times But efforts to define and interpret what global civil society actually is have led to ambiguity and dispute This major work of scholarship and advocacy pierces through the generalizations and debates It presents cogent examples of groups within civil society from the Seattle and Genoa protesters to transnational grassroots movements such as Slum Shack Dwellers International that are creatively meeting the challenges and opportunities of an increasingly interconnected world The contributors offer clarity and the hope that another world is possible one in which civil society s global networks can effectively create a free fair and just global order Scholars students and anyone interested in understanding new forces influencing contemporary world politics will want to have this book on their shelves

Transnational Legal Activism in Global Value Chains Miriam Saage-Maaß, Peer Zumbansen, Michael Bader, Palvasha Shahab, 2021-08-01 This open access book documents and analyses the various interventions legal political and even artistic that followed the Ali Enterprises factory fire in Karachi Pakistan in 2012 It illuminates the different substantive and procedural aspects of the legal proceedings and negotiations between the various local and transnational actors implicated in the Ali Enterprises fire as well as the legal and policy reforms sparked by the incident This endeavour serves to embed these legal cases and reform efforts in the larger context of human and labour rights protection and global value chain governance It also offers a concrete case study relevant for ongoing debates around the role of transnational approaches in making human rights litigation advocacy and law reform more effective In this regard the book interrogates and critically reflects on such legal campaigns and local and transnational reform work with a view to future transformative legal and social activism

Gendering Globalization on the Ground Gay Young, 2014-11-13 How has globalization worked for women working on the frontlines of neoliberalism on the Mexico US border This border divides US from Others and produces social inequalities that form a site where marginalized border women encounter the othering power of neoliberalism and confront inequalities of gender and class Within this context a critical comparison of socially similar women working either in export production industries or in small scale commerce and low level services in Ciudad Ju rez reveals how export factory work constrains women s empowerment at home as well as the wages they earn and the well being of their households This volume challenges the neoliberal rationale of empowering women to support market growth and argues instead for understanding women s empowerment as a process of transformation from disempowerment by

gender power relations to challenging masculinist domination in households and ultimately the economy and society Because structures of gender and globalization are mutually constituted women s empowerment as gender democracy is integral to producing alternative democratic globalization Using a feminist methodology that gives attention to the standpoint of women located on the downside of social hierarchies and takes into account strategically diverse points of view this study develops analysis to counter neoliberal globalization as it touches down in the lives of ordinary women and men on the border and beyond

Beyond Civil Society Sonia E. Alvarez,Jeffrey W. Rubin,Millie Thayer,Gianpaolo Baiocchi,Agustín Laó-Montes,2017-05-18 The contributors to Beyond Civil Society argue that the conventional distinction between civic and uncivic protest and between activism in institutions and in the streets does not accurately describe the complex interactions of forms and locations of activism characteristic of twenty first century Latin America They show that most contemporary political activism in the region relies upon both confrontational collective action and civic participation at different moments Operating within fluid dynamic and heterogeneous fields of contestation activists have not been contained by governments or conventional political categories but rather have overflowed their boundaries opening new democratic spaces or extending existing ones in the process These

essays offer fresh insight into how the politics of activism participation and protest are manifest in Latin America today while providing a new conceptual language and an interpretive framework for examining issues that are critical for the future of the region and beyond Contributors Sonia E Alvarez Kiran Asher Leonardo Avritzer Gianpaolo Baiocchi Andrea Cornwall Graciela DiMarco Arturo Escobar Raphael Hoetmer Benjamin Junge Luis E Lander Agust n La Montes Margarita L pez Maya Jos Antonio Lucero Graciela Monteagudo Amalia Pallares Jeffrey W Rubin Ana Claudia Teixeira Millie Thayer **Global Authoritarianism** International Research Group,2022-11-07 We are witnessing a worldwide resurgence of reactionary ideologies and movements combined with an escalating assault on democratic institutions and structures Nevertheless most studies of these phenomena remain anchored in a methodological nationalism while comparative research is almost entirely limited to the Global North Yet authoritarian transformations in the South and the struggles against them have not only been just as dramatic as those in the North but also preceded them and consequently have been studied by Southern scholars for many years This volume brings together the work of more than 15 scholar activists from across the Global South combining in depth studies of regional processes of authoritarian transformation with a global perspective on authoritarian capitalism With a foreword by Ver nica Gago **Historical Dictionary of Socialism** Peter Lamb,2024-02-20 Socialism has been an influential force for social change for almost two centuries Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism **Women, Entrepreneurship and Development in the Middle East** Beverly Dawn Metcalfe,Bettina Lynda Bastian,Haya Al-Dajani,2021-12-20 The Middle East was the region least impacted in the 2008 crisis has investment systems markedly different to the West is largely governed by Islamic Shari a and has varying forms of governance and institutional organization which are not understood by many nor how these systems shape entrepreneurial and industrial development While the Middle East as a region has seen a small growth in entrepreneurship for women and business scholarship on the Middle East has grown there is no text in English that has brought critical insights from the Middle East together in a single volume In examining women s entrepreneurship in the Middle East this book aims to challenge Global North assumptions

about the disempowering impacts of Islamic Shari'a and governance Referring to the constraints of Islam on women's subjectivity and agency greatly misunderstands religious identity of both men and women and the way in which public administration and private sector institutions are organized in very different ways to Western regions This timely text expands and adds new insights to the theorizations of women's entrepreneurship in the Middle East through unravelling spatialized themes and incorporates contemporary themes including an Islamic science reading of women work and venturing changing families and entrepreneurship development women managing social crises Islamization governance and women Islamic feminist activisms and entrepreneurship representations of women's entrepreneurship on social media and women's collectives leading entrepreneurship via Facebook entrepreneurship It will be of interest to researchers academics and students in the fields of entrepreneurship gender work and organizations

Permutations of Order Thomas G. Kirsch, 2016-05-13

Permutations of Order makes an innovative and important contribution to current discussions about the relationship between religion and law bringing together theoretically informed case studies from different parts of the world relating to various types of politico legal settings and religions This volume also deals with contemporary legal religious transfigurations that involve permutations meaning that elements of legal and religious acts of ordering are at times repositioned within each realm and from one realm to the other These permutations of order in part result from the fact that in ethnographic settings like those examined here legal and religious realms are relational to and in certain cases even constitutive of each other and they result in categoric transpositions and new social positionalities through which among other things the legal and the religious are blended **Permutations of Order** is a work that transcends convention identifies new and theoretically overarching themes and will be of strong interest to researchers and policy makers seeking a comparative focus on the intersections and disjunctions of religion and law
