Continental Divide Wildlife People And The Border Wall:

Continental Divide Krista Schlyer, 2012 The topic of the border wall between the United States and Mexico continues to be broadly and hotly debated on national news media by local and state governments and even over the dinner table By now broad segments of the population have heard widely varying opinions about the wall s effect on illegal immigration international politics and the drug war But what about the wall s effect on animals Krista Schlyer vividly shows us that this largely isolated natural area stretching from the Pacific Ocean to the Gulf of Mexico is also host to a number of rare ecosystems

Borderwall as Architecture Ronald Rael, 2017-04-04 Borderwall as public space Teddy Cruz Ronald Rael Pilgrims at the wall Marcello Di Cintio Borderwall as architecture Ronald rael Transborderisms Norma Iglesias Prieto Recuerdos Ronald Rael Why walls don t work Michael Dear Afterwards Ronald Rael The Border Wall with Mexico Martin Gitlin, 2017-07-15 To some the idea of a border wall with Mexico represents a necessary and practical barrier to illegal immigration and the perceived host of ills that are associated with it To others it is both an unrealistic and inhumane effort that demonizes desperate individuals and families who are only seeking a better life The debate is fierce and is bound up with competing notions of crime ethnicity opportunity fairness justice and what America promises offers stands for and represents All sides of the debate are presented here and each is given a fair and respectful hearing allowing readers to sift through fact and opinion evaluate the strength of arguments and form an educated opinion on the issue

Like an Animal: Critical Animal Studies Approaches to Borders, Displacement, and Othering, 2021-06-17 The contributors of *Like an Animal* challenge most fundamental concepts in the fields of racism dehumanization borders displacement and refugees that rest on the assumption of humanism They show how we can bend the arc of the moral universe toward justice at the border The goal of this interdisciplinary collection is twofold First to invite border migration studies to consider a broader social justice perspective that includes nonhuman animals Second to start a discussion if nonhumans maybe refugees of a kind and how humans can address nonhumans interests and needs from the perspective of addressing refugee issues As capitalism and the climate crisis are taking a catastrophic toll on the planet this timely volume exposes the alternative origins of violence that lie at the heart of the planet s destruction

American Jaguar Elizabeth Webb, 2021-11-02 In the borderlands between the United States and Mexico America s largest cat the jaguar is fighting to regain its kingdom Added to the endangered species list in 1997 the jaguar has declined in population mainly due to habitat fragmentation created by roads farms mines and most controversially the border wall Such human made barriers prevent free movement of many wild animals for predation and mating thereby threatening their reproduction DNA transfer and overall survival Author and wildlife biologist Elizabeth Webb examines the jaguar s predicament and highlights the work of field scientists who are searching for solutions Conservation Connection features throughout the book underscore the importance of protecting this keystone species of the Americas

Theory of the Border Thomas Nail, 2016-08-02 Despite and perhaps because of increasing global mobility

there are more types of borders today than ever before in history Borders of all kinds define every aspect of social life in the twenty first century From the biometric data that divides the smallest aspects of our bodies to the aerial drones that patrol the immense expanse of our domestic and international airspace we are defined by borders They can no longer simply be understood as the geographical divisions between nation states Today their form and function has become too complex too hybrid What we need now is a theory of the border that can make sense of this hybridity across multiple domains of social life Rather than viewing borders as the result or outcome of pre established social entities like states Thomas Nail reinterprets social history from the perspective of the continual and constitutive movement of the borders that organize and divide society in the first place Societies and states are the products of bordering Nail argues not the other way around Applying his original movement oriented theoretical framework kinopolitics to several major historical border regimes fences walls cells and checkpoints Theory of the Border pioneers a new methodology of critical limology that provides fresh tools for the analysis of contemporary border politics

Walling, Boundaries and Liminality Agnes Horvath, Marius Ion Bența, Joan Davison, 2018-08-06 Contemporary challenges related to walls borders and encirclement such as migration integration and endemic historical conflicts can only be understood properly from a long term perspective This book seeks to go beyond conventional definitions of the long dur e by locating the social practice of walling and encirclement in the broadest context of human history integrating insights from archaeology and anthropology Such an approach far from being simply academic has crucial contemporary relevance as its focus on origins helps to locate the essential dynamics of this practice and provides a rare external position from which to view the phenomenon as a transformative exercise with the area walled serving as an artificial womb or matrix The modern world with its ingrained ideas of borders nation states and other entities often makes it is very difficult to gain a critical distance and detachment to see beyond conventional perspectives The unique approach of this book offers an antidote to this problem Cases discussed in the book range from Palaeolithic caves the ancient walls of G bekli Tepe Jericho and Babylon to the foundation of Rome the Chinese Empire medieval Europe and the Berlin Wall The book also looks at contemporary developments such as the Palestinian wall Eastern and Southern European examples Trump s proposed Mexican wall the use of Greece as a bulwark containing migration flows and the transformative experience of voluntary work in a Calcutta hospice In doing so the book offers a political anthropology of one of the most fundamental yet perennially problematic human practices the constructing of walls As such it will appeal to scholars of sociology anthropology and political theory

Building Sustainable Couples in International Relations B. Vassort-Rousset, 2014-11-24 The contributors investigate processes of international conflict transformation and peaceful cooperation They highlight how critical intermediary level components have proved more conducive to promoting rapprochement between rival states than interstate diplomatic engagement through incremental identity change

Feminist Technoecologies Dagmar Lorenz-Meyer, Pat Treusch, Xin Liu, 2020-06-29 This book develops the concept of feminist technoecologies as a theoretical and methodological tool for examining the co constitutive relation between technology and ecology which have typically been considered as distinct objects of studies In underscoring how their dynamic relationality troubles the location of agency this book challenges the idea that technology as the marker of the innovative capacity of the human either corrupts or saves ecology The contributions to the volume present feminist approaches that contextualise and historicize such issues as multi species survival border control regimes solar power bioart artificial intelligence and air pollution They insist on the centrality of corporeality affects ethics and vulnerability in the materialisation of technoecological relations and call into question the exceptional status of the figure of hu Man Together they offer critical and creative tools or modes of inquiry for imagining alternative modalities of practicing care and thinking environmental sustainability As a creative contribution to the growing literature on new configurations of bodies technologies and environments against the backdrop of ecological degradation digital technologization and precarity in late capitalism Feminist Technoecologies extends the interchanges between feminist materialisms environmental humanities and feminist technosciences studies and will be a resource for all those interested in these fields This book was originally published as a special issue of Australian Feminist Studies

The Texas Landscape Project David A. Todd, Jonathan Ogren, 2016-06-14 The Texas Landscape Project explores conservation and ecology in Texas by presenting a highly visual and deeply researched

view of the widespread changes that have affected the state as its population and economy have boomed and as Texans have worked ever harder to safeguard its bountiful but limited natural resources Covering the entire state from Pineywoods bottomlands and Panhandle playas to Hill Country springs and Big Bend canyons the project examines a host of familiar and not so familiar environmental issues A companion volume to The Texas Legacy Project this book tracks specific environmental changes that have occurred in Texas using more than 300 color maps expertly crafted by cartographer Jonathan Ogren and over 100 photographs that coalesce to fashion a broad portrait of the modern Texas landscape The rich data compiled by author David Todd are presented in clearly written yet marvelously detailed text that gives historical context and contemporary statistics for environmental trends connected to the land water air energy and built world of the second largest and second most populated state in the nation An engaging read for any environmentalist or conscientious citizen The Texas Landscape Project provides a true sense of the grand scope of the Lone Star State and the high stakes of protecting it To learn more about The Meadows Center for Water and the Environment sponsors of this book s series please [click here](#)

Unstable Ground Alex Alvarez,2017-07-25 Unstable Ground looks at the human impact of climate change and its potential to provoke some of the most troubling crimes against humanity ethnic conflict war and genocide Alex Alvarez provides an essential overview of what science has shown to be true about climate change and examines how our warming world will challenge and stress societies and heighten the risk of mass violence Drawing on a number of recent and historic examples including Darfur Syria and the current migration crisis this book illustrates the thorny intersections of climate change and violence The author doesn t claim causation but makes a compelling case that changing environmental circumstances can be a critical factor in facilitating violent conflict As research suggests climate change will continue and accelerate understanding how it might contribute to violence is essential in understanding how to prevent it **Almost**

Anywhere Krista Schlyer,2015-10-06 What do you do when your world ends At twenty eight years old Krista Schlyer sold almost everything she owned and packed the rest of it in a station wagon bound for the American wild Her two best friends joined her one a grumpy grieving introvert the other a feisty dog and together they sought out every national park historic site forest and wilderness they could get to before their money ran out or their minds gave in The journey began as a desperate escape from urban isolation heartbreak and despair but became an adventure beyond imagining Chronicling their colorful escapade Almost Anywhere explores the courage cowardice and heroics that live in all of us as well as the life of nature and the nature of life This eloquent and accessible memoir is at once an immersion in the pain of losing someone particularly close and especially young and a healing journey of a broken life given over to the whimsy and humor of living on the road

Facing It M.
