Contingent Lives Contingent Lives:

Contingent Lives Caroline H. Bledsoe, 2010-11-15 Most women in the West use contraceptives in order to avoid having children But in rural Gambia and other parts of sub Saharan Africa many women use contraceptives for the opposite reason to have as many children as possible Using ethnographic and demographic data from a three year study in rural Gambia *Contingent Lives* explains this seemingly counterintuitive fact by juxtaposing two very different understandings of the life course one is a linear Western model that equates aging and the ability to reproduce with the passage of time the other a Gambian model that views aging as contingent on the cumulative physical social and spiritual hardships of personal history especially obstetric trauma Viewing each of these two models from the perspective of the other Caroline Bledsoe produces fresh understandings of the classical anthropological subjects of reproduction time and aging as culturally shaped within women s conjugal lives Her insights will be welcomed by scholars of anthropology and demography as well as by those working in public health development studies gerontology and the history of medicine *The Handbook of Variable Income Annuities* Jeffrey K. Dellinger, 2006-08-28 In depth coverage of variable income annuities With trillions of dollars in retirement savings assets the tens of millions of Americans on the precipice of retirement need to convert these savings into retirement income The fact that variable income annuities VIAs generate maximum lifetime income with zero probability of outliving it has spurred the need for more information about VIAs *The Handbook of Variable Income Annuities* is by far the most comprehensive source of information on this topic This book thoroughly describes the most important principles of optimal asset liquidation and demystifies VIA mechanics so readers can gain a high comfort level with this important financial instrument Interestingly and clearly *The Handbook of Variable Income Annuities* explains the mathematical pricing of variable income annuities expected rates of return taxation product distribution legal aspects and much more Jeffrey K Dellinger Fort Wayne IN a Fellow of the Society of Actuaries and a member of the American Academy of Actuaries has over 25 years experience in the financial services sector He advises institutions on retirement income optimization products and markets ***The Origin and Development of Religious Belief*** Sabine Baring-Gould, 1870 *Inventing Herself* Elaine Showalter, 2001-03-20 Sure to take its place alongside the literary landmarks of modern feminism Elaine Showalter s brilliant provocative work chronicles the roles of feminist intellectuals from the eighteenth century to the present With sources as diverse as *A Vindication of the Rights of Woman* and *Scream 2* *Inventing Herself* is an expansive and timely exploration of women who possess a boundless determination to alter the world by boldly experiencing love achievement and fame on a grand scale These women tried to work travel think love and even die in ways that were ahead of their time In doing so they forged an epic history that each generation of adventurous women has rediscovered Focusing on paradigmatic figures ranging from Mary Wollstonecraft and Margaret Fuller to Germaine Greer and Susan Sontag preeminent scholar Elaine Showalter uncovers common themes and patterns of these women s lives across the centuries and discovers the feminist

intellectual tradition they embodied The author brilliantly illuminates the contributions of Eleanor Marx Zora Neale Hurston Simone de Beauvoir Margaret Mead and many more Showalter a highly regarded critic known for her provocative and strongly held opinions has here established a compelling new Who's Who of women's thought Certain to spark controversy the omission of such feminist perennials as Susan B Anthony Eleanor Roosevelt and Virginia Woolf will surprise and shock the conventional wisdom This is not a history of perfect women but rather of real women whose mistakes and even tragedies are instructive and inspiring for women today who are still trying to invent themselves *Multicultural Dynamics and the Ends of History* Real Fillion, 2008-02-28 *Multicultural Dynamics and the Ends of History* provides a strikingly original reading of key texts in the philosophy of history by Kant Hegel and Marx as well as strong arguments for why these texts are still relevant to understanding history today R al Fillion offers a critical exposition of the theses of these three authors on the dynamics and the ends of history in order to provide an answer to the question Where are we headed Grounding his answer in the twin observations that the world is becoming increasingly multicultural and increasingly unified Fillion reasserts the task of the speculative philosophy of history as it had been understood by German philosophy the articulation and understanding the historical process as a developmental whole Fillion's interpretation engages many recent strands of social and political thought in order to provide a new understanding of current events and possible futures grounded in the understanding of the dynamics of the past and the present provided by Kant Hegel and Marx The result is a rich and timely answer to the question of where our world is headed today **Public Laws of the State of Illinois** Illinois, 1903 The Place of Judas Iscariot in Christology Anthony Cane, 2017-07-05 Exploring the significance of Judas Iscariot for Christian theology and the difficult issues surrounding Judas Anthony Cane shows that focusing on the tension between providential and tragic interpretations of Judas in the New Testament and in subsequent writing about Judas is the key to understanding his significance Building on the work of Karl Barth and Donald MacKinnon Cane's argument sheds light not simply on the way Judas is understood but on the way Jesus and the whole economy of salvation are understood This book also highlights implications for the way in which issues relating to anti-Semitism and evil and suffering are most effectively explored

Making Sense of 'Food' Animals Paula Arcari, 2019-09-04 This book addresses the persistence of meat consumption and the use of animals as food in spite of significant challenges to their environmental and ethical legitimacy Drawing on Foucault's regime of power knowledge pleasure and theorizations of the gaze it identifies what contributes to the persistent edibility of food animals even and particularly as this edibility is increasingly critiqued Beginning with the question of how animals and their bodies are variously mapped by humans according to their use value it gradually unpacks the roots of our domination of food animals a domination distinguished by the literal embodiment of the other The logics of this embodied domination are approached in three inter-related parts that explore respectively how knowledge sensory and emotional associations and visibility work together to render animal's bodies as edible flesh The book concludes by exploring how to

more effectively challenge the entitled gaze that maintains food animals as persistently edible *How Ideal Worker Norms Shape Work-Life for Different Constituent Groups in Higher Education* Lisa Wolf-Wendel, Kelly Ward, Amanda M.

Kulp, 2017-01-10 Work and family concerns are increasingly on the radar of colleges and universities. These concerns emerge out of workplace norms suggesting that for employees and students to be successful they must be ideal workers. This volume explores work norms in higher education focusing on the ways that employees and students interpret and experience ideal worker expectations in light of family responsibilities. Chapters address how the ideal worker norms vary for tenured and non-tenure track faculty, administrators, undergraduate and graduate students, and offers recommendations for modifying work norms to promote work-family balance for all constituents. This is the 176th volume of the Jossey-Bass quarterly report series *New Directions for Higher Education*. Addressed to presidents, vice presidents, deans, and other higher education decision makers on all kinds of campuses, it provides timely information and authoritative advice about major issues and administrative problems confronting every institution.

This is a print-on-demand book and is therefore non-returnable. Perhaps no other theologian of the second half of this century has shaped theology so profoundly as Jürgen Moltmann. He appeared on the world theological scene with his *Theology of Hope* (1964) and took most of its capitals by storm. His subsequent works have kept him at the forefront of the modern theological enterprise, and the power of his vision and the originality of his method have inspired a host of new theologians. In

terms of fecundity Moltmann's opus remains unmatched among his generation of theologians More than 130 dissertations written so far on his thought most of them in the past decade testify eloquently to its continued attractiveness In honor of Moltmann's 70th birthday twenty six of the world's leading theologians his friends colleagues interlocutors and former students have contributed to this volume on the future of theology Moltmann himself has always sought to be both contemporary and future oriented his theology can be viewed as an exercise not only from the perspective of God's future but also toward a new human future Thus a book on the future of theology takes up an aspect of his theme and his concern Yet this volume also makes a significant contribution to theology in its own right seeking as it does to address the present crisis of theology As Miroslav Volf writes in his introduction On the threshold of the third millennium the presumed queen of sciences has grown old and feeble unable to see that what she thinks is her throne is just an ordinary chair uncertain about what her territories are and confused about how to rule in the realms she thinks are hers seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king and ending up with a divided even schizophrenic mind The essays in this volume attempt to revitalize theology as it confronts a difficult future Despite the formidable obstacles that threaten the very survival of theology in the next century religious and cultural plurality the marginalization of theology in public discourse increasing abstraction in the practice of theology pressing issues of gender race poverty and ecology the seemingly archaic voice of theology in post Christian societies the contributors to this volume all believe in the future of theology as a vibrant discipline The Future of Theology is organized in three parts Challenges deals with the external or internal problems that theology is facing Perspectives offers proposals on how to meet the challenges Themes concentrates on various issues that need special attention today Together these essays succeed in setting the theological agenda for the future of theology and thereby serve as a fitting tribute to this volume's esteemed honoree Contributors Stanley Hauerwas Elisabeth Moltmann-Wendel John B Cobb Jr James H Cone D Lyle Dabney Ingolf U Dalferth Gustavo Guti rrez Douglas John Hall Ellen T Charry M Douglas Meeks Johann Baptist Metz Konrad Raiser Wolfhart Pannenberg Paul Ricoeur John Howard Yoder Dietrich Ritschl Dorothy S le Jon Sobrino Elsa Tamez Geoffrey Wainwright Rosemary Radford Ruether Miroslav Volf Michael Welker Nicholas Wolterstorff Catherine Keller Huns K ng

Character, Virtue Theories, and the Vices Christine McKinnon, 1999-08-26 This book argues that the question posed by virtue theories namely what kind of person should I be provides a more promising approach to moral questions than do either deontological or consequentialist moral theories where the concern is with what actions are morally required or permissible It does so both by arguing that there are firmer theoretical foundations for virtue theories and by persuasively suggesting the superiority of virtue theories over deontological and consequentialist theories on the question of explaining morally bad behavior Virtue theories can give a richer account by appealing to the kinds of dispositions that make certain bad choices appear attractive This richer account also exposes a further advantage of virtue theories they provide the best kinds of

motivations for agents to become better persons **Reports of Cases Upon Appeals and Writs of Error Determined in the High Court of Parliament** Great Britain. Parliament. House of Lords, Josiah Brown, 1803 **Wasted Wombs** Erica van der Sijpt, 2018-03-27 Central to this book are Gbighil women's experiences with different reproductive interruptions: miscarriages, stillbirths, child deaths, induced abortions, and infertility. Rather than consider these events as inherently dissimilar as women do in Western countries, the Gbighil women of eastern Cameroon see them all as instances of wasted wombs that leave their reproductive trajectories hanging in the balance. The women must navigate this uncertainty while negotiating their social positions, aspirations for the future, and the current workings of their bodies. Providing an intimate look into these processes, *Wasted Wombs* shows how Gbighil women constantly shift their interpretations of when a pregnancy starts, what it contains, and what is lost in case of a reproductive interruption, in contrast to Western conceptions of fertility and loss. Depending on the context and on their life aspirations, be it marriage and motherhood or an educational trajectory and employment or profitable sexual affairs, with so-called big fish women negotiate and manipulate the meanings and effects of reproductive interruptions. Paradoxically, they often do so while portraying themselves as powerless. *Wasted Wombs* carefully analyzes such tactics in relation to the various social predicaments that emerge around reproductive interruptions, as well as the capricious workings of women's physical bodies. Rereading Heterosexuality Rachel Carroll, 2012-04-04 Presents new perspectives on representations of female heterosexuality in selected contemporary British and American novels. *Fertility, Conjuncture, Difference* Philip Kreager, Astrid Bochow, 2017-09-01 In the last forty years, anthropologists have made major contributions to understanding the heterogeneity of reproductive trends and processes underlying them. Fertility transition, rather than the story of the triumphant spread of Western birth control, reveals a diversity of reproductive means and ends, continuing before, during, and after transition. This collection brings together anthropological case studies, placing them in a comparative framework of compositional demography and conjunctural action. The volume addresses major issues of inequality and distribution which shape population and social structures and in which fertility trends and the formation and size of families are not decided solely or primarily by reproduction. *The Ashgate Research Companion to Dutch Art of the Seventeenth Century* Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so, and the strong contemporary market for works by Dutch masters of the period, as well as the public's ongoing fascination with some of its most beloved painters, until now there has been no comprehensive study assessing the state of research in the field. As the first study of its kind, this book is a useful resource for scholars and advanced students of seventeenth-century Dutch art and also serves as a springboard for further research. Its 19 chapters, divided into three sections and written by a team of internationally renowned art historians, address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently. **Veiling in Africa** Elisha P. Renne, 2013-06-04 This volume examines the

complex histories politics and experiences of wearing Islamic dress in sub Saharan Africa Heather Marie Akou Indiana University Bloomington The tradition of the veil which refers to various cloth coverings of the head face and body has been little studied in Africa where Islam has been present for more than a thousand years These lively essays raise questions about what is distinctive about veiling in Africa what religious histories or practices are reflected in particular uses of the veil and how styles of veils have changed in response to contemporary events Together they explore the diversity of meanings and experiences with the veil revealing it as both an object of Muslim piety and an expression of glamorous fashion This is an exciting and strong collection of original research on women s and men s veiling practices in a range of African Muslim settings and the social and religious discourses that accompany changes in dress over time Taken as a whole it offers a fascinating overview of African Muslim interpretations of theological debates about the veil and gender relations in Muslim societies while illustrating some of the particular accommodations adopted by African women International Journal of African Historical Studies Explores the many meanings and uses of veiling which is so often treated as a monolithic phenomenon emblematic of Islam in different African and African diaspora contexts Emma Tarlo Goldsmiths University of London
