Contracts, Cases & Commentaries Stephanie Ben-Isha, 2022 *Cases and Comment on Contracts* John Philip Dawson, William Burnett Harvey, Stanley D. Henderson, 1982 *Aspiration and Reality in Legal Education* David Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education *Aspiration and Reality in Legal Education* reveals a widespread desire among law teachers to integrate both theory and practice into the education of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform **Contracts** John Philip Dawson, William Burnett Harvey, Stanley D. Henderson, Douglas G. Baird, 2013 *Case and Comment* ,1906 **The Choice Theory of Contracts** Hanoch Dagan, Michael Heller, 2017-04-17 This concise landmark in law and jurisprudence offers the first coherent liberal account of contract law The Choice Theory of Contracts answers the field's most pressing questions what is the freedom in freedom of contract What core values animate contract law and how do those values interrelate How must the state act when it shapes contract law Hanoch Dagan and Michael Heller two of the world's leading private law theorists show exactly why and how freedom matters to contract law They start with the most appealing tenets of modern liberalism and end with their implications for contract law This readable engaging book gives contract scholars teachers and students a powerful normative vocabulary for understanding canonical cases refining key doctrines and solving long standing puzzles in the law *Contracts* John Philip Dawson, William Burnett Harvey, Stanley D. Henderson, 2008 This statutory supplement updates the main casebook *Commentaries on the Law of Contracts* William Frederick Elliott, 1913 *Teaching the World* Merrill Distad, University of Alberta. Office of the Vice-President (Research and External Affairs), 1996-04 This book catalogues an exhibition of textbooks by authors from the University of Alberta Each finished textbook contains its own story of challenges and victories And each has its own power as a record of knowledge a teaching tool and an object of permanence and beauty **Ideology and Community in the First Wave of Critical Legal Studies** Richard W. Bauman, 2002-01-01 Bauman examines several major themes and arguments in the first decade of critical legal

scholarship predominantly in the U S in the period dating roughly from the mid 1970s to the mid 1980s

The CISG and its Impact on National Legal Systems Franco Ferrari, 2009-04-27 In force in 70 countries around the world and covering more than two thirds of world trade the 1980 United Nations Convention on Contracts for the International Sale of Goods CISG is considered to be the most successful convention promoting international trade According to many commentators this success is due among others to the fact that the Convention does not directly impact on the domestic law of the various legal systems as it applies only to international as opposed to purely domestic contracts The Convention in other words does not impose changes in the domestic law which makes it easier for States to adopt the Convention This does not mean however that the Convention does not have any impact on the domestic law at all This book analyzes through 24 country reports as well as a general report submitted to the 1st Intermediate Congress of the International Academy of Comparative Law held in November 2008 in Mexico City to what extent the Convention de facto influences domestic legal systems In particular the book examines the Convention s impact on the practice of law the style of court decisions as well as the domestic legislation in the area of contract law

Contracts John Philip Dawson, William Burnett Harvey, Stanley D. Henderson, 2003 Setting the standard of excellence with its teachability this classic casebook provides a focused and self contained course on contract law It covers the evolution of modern contract law and its history and remedies the customary distinction between rules and standards as devices for legal governance and the ongoing competition between the reliance idea and contract law s formal doctrines The forward thinking eighth edition gives greater attention to such subjects as arbitration as a substitute for litigation contract formation problems arising from new technology and the Uniform Commercial Code s Article 2 whose innovations are increasingly seen by courts as a source of general contract law This edition also more closely tracks the increasing relevance of contract law to at will employment the relationship of contract and tort and the expanding technique of the implied contract

Commentaries on European Contract Laws Nils Jansen, Reinhard Zimmermann, 2018-07-12 The book provides rule by rule commentaries on European contract law general contract law consumer contract law the law of sale and related services dealing with its modern manifestations as well as its historical and comparative foundations After the collapse of the European Commission s plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades and for an assessment of the current situation In particular the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law The present book adopts a broad perspective and an integrative approach All relevant reference texts from the CISG to the Draft Common European Sales Law are critically examined and compared with each other As far as the *acquis commun* ie the traditional private law as laid down in the national codifications is concerned the Principles of European Contract Law have been chosen as a point of departure The rules contained in that document have however been complemented with some chapters sections and individual provisions drawn from other sources primarily in order to account

for the quickly growing *acquis communautaire* in the field of consumer contract law In addition the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background and it thus investigates whether and to what extent these texts can be taken to be genuinely European in nature ie to constitute a manifestation of a common core of European contract law Where this is not the case the question is asked whether and for what reasons they should be seen as points of departure for the further development of European contract law
