Being-Time Shinshu Roberts, 2018-03-20 A tour de force guide to Zen Master Dogen s most subtle and sophisticated philosophical premises that being and time are inseparable Impermanence is time itself being itself yet time and being are not at all as we imagine them to be To really understand and fully embrace this point is to live in a radically different world a world of awakening inclusion and love Zen Master Dogen frames the teaching on impermanence explicitly as a teaching about time and all of Dogen s profoundly poetic teachings flow from his seminal understanding of time as expressed in Uji Being Time the famous and famously difficult essay in his masterwork Shobogenzo In Uji Dogen teaches that time itself being itself is luminous awakening It is all inclusive all elusive ultimately healing and eternal In this book Shinshu Roberts does full justice as does no other book I know of to Dogen s words She offers interpretation of Uji only after careful consideration and marshaling of many sources and offers simple everyday examples to illustrate points that seem at first abstruse If this text causes you to doubt your most cherished concepts about your life it will have done its work from the Foreword by Norman Fischer Being Time thoroughly explores Dogen s teaching on how we practice as Buddhas by understanding the relationship between being and time as it is and as we perceive it to be Using Dogen s Shobogenzo Uji The True Dharma Eye Being Time Shinshu Roberts offers a twofold analysis of this teaching the meaning of the text and practice with the text giving examples how we apply Dogen s complex teaching to our daily lives

Birkat Kohanim

David Birnbaum, Martin S. Cohen, 2016-04-03 Given the prominence of prayer in traditional Jewish life it is surprising to note how few prayers the Torah actually ordains be recited by the pious as part of their ongoing effort to foster a relationship with the Divine. Indeed some of the most famous of all Jewish prayers that do have their origin in Scripture are not presented as liturgical texts in that context at all. The Shema for example the confession of faith par excellence which rabbinic tradition ordains be recited twice daily appears in the Bible as part of a larger literary unit with no indication that it is intended to be featured prominently in the prayer lives of the faithful. Other prayer texts are presented in situ as features of an ongoing narrative for example the prayer of Damesek Eliezer that he find a wife for his master's son Genesis 24:12-14 or Moses' prayer that Miriam be healed of her skin disease Numbers 12:13. These have not come to be a part of the fixed Jewish liturgical tradition. And still others like the prayer ordained for recitation by farmers presenting their first fruits at the sanctuary Deuteronomy 26:3-10 are presented as liturgical texts to be recited on a specific occasion but with no hint that they may licitly be recited in circumstances other than the ones specifically ordained by Scripture.

Cleary, 2001 This volume contains teachings predominantly from the Chinese Zen Chan tradition including the writings of revered Chinese masters such as Pai Chang founder of the Chan monastic tradition Huang Po one of the forefathers of the Lin Chi or Rinzai school Foyan the great master of the twelfth century Chinese Zen renaissance and many others.

Zen Koans Steven Heine, 2014-09-30 What is the sound of one hand clapping? Does a dog have Buddha nature? These cryptic expressions are among the best known examples of koans the confusing often contradictory sayings that form the centerpiece of Zen Buddhist learning and training. Viewed as an ideal method for attaining and transmitting an unimpeded experience of enlightenment they became the main object of study in Zen meditation where their contemplation was meant to exhaust the capacity of the rational mind and the expressiveness of speech. Koan compilations which include elegant poetic and eloquent prose commentaries on cryptic dialogues are part of a great literary tradition in China Japan and Korea that appealed to intellectuals who sought spiritual fulfillment through interpreting elaborate rhetoric related to mysterious metaphysical exchanges. In this compact volume Steven Heine who has written extensively on Zen Buddhism and koans introduces and analyzes the classic background of texts and rites and explores the contemporary significance of koans to illuminate the full implications of this ongoing tradition. He delves deeply into the inner structure of koan literature to uncover and interpret profound levels of metaphorical significance. At the same time he takes the reader beyond the veil of vagueness and inscrutability to an understanding of how koan writings have been used in pre-modern East Asia and are coming to be evoked and implemented in modern American practice of Zen. By focusing on two main facets of the religious themes expressed in koan records individual religious attainment and the role dialogues play in maintaining order in the monastic system Zen Koans reveals the distinct yet interlocking levels of meaning reflected in different koan case records.

and helps make sense of the seemingly nonsensical. It is a book for anyone interested in untangling the web of words used in Zen exchanges and exploring their important place in the vast creative wellspring of East Asian religion and culture.

Awakenings Gregory P. A. Levine, Yukio Lippit, 2007. Transmitted from China to Japan in the 13th century, Zen Buddhism not only introduced religious practices but also literature, calligraphy, philosophy, and ink painting to Japanese disciples. This elegant book discusses these fields as they combined to encompass the evocative practice of figure painting within Zen Buddhism in medieval Japan. Focusing on forty-seven exceptional Japanese and Chinese paintings from the 12th to the 16th centuries, which together illustrate the story of the awakening of Zen art, the book features essays by distinguished scholars that discuss the life and art within Zen monastic and lay communities. The authors explore the ideology underlying the development of Zen's own pantheon of characters created to imagine the Buddha's wisdom and offer fresh insights into the role of the visual arts within Zen practice as it developed in Japan in close dialogue with the Asian continent.

Forthcoming Books Rose Arny, 2002-02. *American Book Publishing Record*, 2002. [Merleau-Ponty and Buddhism](#) Gereon Kopf, Jin Y. Park, 2009-08-13. *Merleau-Ponty and Buddhism* explores a new mode of philosophizing through a comparative study of Maurice Merleau-Ponty's phenomenology and philosophies of major Buddhist thinkers such as Nagarjuna, Chinul, Dogen, Shinran, and Nishida Kitaro. Challenging the dualistic paradigm of existing philosophical traditions, Merleau-Ponty proposes a philosophy in which the traditional opposites are encountered through mutual penetration. Likewise, a Buddhist worldview is articulated in the theory of dependent co-arising or the middle path, which comprehends the world and beings in the third space where the subject and the object, or eternalism and annihilation, exist independent of one another. The thirteen essays in this volume explore this third space in their discussions of Merleau-Ponty's concepts of the intentional arc, the flesh of the world, and the chiasm of visibility in connection with the Buddhist doctrine of no-self and the five aggregates, the Tiantai Buddhist concept of threefold truth, Zen Buddhist huatou meditation, the invocation of the Amida Buddha in True Pure Land Buddhism, and Nishida's concept of basho. In his philosophical project, Merleau-Ponty makes vigorous efforts to challenge the boundaries that divide philosophy and non-philosophy, the East and the West, experience and concepts, the subject and the object, and body and mind. Combining the Eastern philosophical tradition of Buddhism with Merleau-Ponty's phenomenology, *Merleau-Ponty and Buddhism* offers an intercultural philosophy in which opposites intermingle in a chiasmic relationship and which brings new understanding regarding the self and the self's relation with others in a globalized and multicultural world.

The Place of Silence Mark Dorrian, Christos Kakalis, 2020-02-06. *The Place of Silence* explores the poetics and politics of silence in architecture. Bringing together contributions by internationally recognized scholars in architecture and the humanities, it explores the diverse practices, affects, politics, and cultural meanings of silence in silent places and silent buildings in historical and contemporary contexts. What counts as silence in specific situations is highly relative, and the term itself

carries complex and varied significations which make it a revealing field of study Chapters explore a range of themes from the apparent loss of silence in the contemporary urban world through designed silent spaces to the forced silences of oppression catastrophe or technological breakdown The book unfolds a rich and complementary array of perspectives which address through the lens of architecture and place questions of sound atmosphere and attunement together building a volume which will form the key scholarly resource on architecture and silence
