Classics Revisited Wegbereiter Forschungen Sprachwissenschaft:

Speakers and Structures in Language Contact Barbara Hans-Bianchi, Chiara Truppi, Barbara Vogt, 2024-07-22 This book is a collection of innovative studies on language contact. It contains novel works on unexplored issues related to language contact in different settings and aims to contribute multi-perspective insights to the current state of the art on language contact. Novel approaches to contact-related change, variation, attrition, and emergence of new varieties are explored from the lens of sociolinguistic, typological, synchronic and diachronic perspectives. The contact settings vary from official and majority languages to minority endangered and/or non-official varieties in different parts of the world. *Stability and Divergence in Language Contact* Kurt Braunmüller, Steffen Höder, Karoline Kühl, 2014-11-15 Convergence, i.e. the increase of inter-systemic similarities, is usually considered the default development in language contact situations. This volume focuses on the other logical possibilities of diachronic development, namely stability and divergence, two well-attested but under-researched phenomena. The contributions investigate the sociolinguistic and structural factors and mechanisms that lead to or at least reinforce both types of non-convergence despite of language contact. The contributions cover a wide range of language contact situations including standard and non-standard varieties. **Classics revisited** Alastair G. H. Walker, 2015 Der Band bietet eine Analyse der Bedeutung von acht Linguistinnen und Linguisten vom 18. Jahrhundert bis in die Gegenwart, deren Arbeiten für die Entwicklung der heutigen Linguistik als wegweisend gelten können. Die Themen umfassen u.a. Grammatiktheorie, Phonetik und Soziolinguistik sowie die Entwicklung der Linguistik in Großbritannien. **Akten des XIII. Internationalen Germanistenkongresses Shanghai 2015** Jianhua Zhu, Jin Zhao, Michael Szurawitzki, 2018 Der Band dokumentiert die Plenarvorträge und Podien auf dem IVG Kongress Shanghai 2015. Constructions in Contact Hans C. Boas, Steffen Höder, 2018-12-15 The last three decades have seen the emergence of Construction Grammar as a major research paradigm in linguistics. At the same time, very few researchers have taken a constructionist perspective on language contact phenomena. This volume brings together for the first time a broad range of original contributions providing insights into language contact phenomena from a constructionist perspective. Focusing primarily on Germanic languages, the papers in this volume demonstrate how the notion of construction can be fruitfully applied to investigate how a range of different language contact phenomena can be systematically analyzed from the perspectives of both form and meaning.
