Classroom Organization and Control Jesse Brundage Sears, 1918      **Classroom Organization and Control (Classic Reprint)** Jesse Brundage Sears, 2017-09-17 Excerpt from Classroom Organization and Control The management of a school is a many sided problem lying roughly speaking between the intimate details of teaching method at the one extreme and the coarser adjustments of administration and supervision at the other As the term implies the task is essentially an executive one the manager that is the teacher or the principal being a director of the activities of children in their pursuit of an education The functions of this teacher executive are not only to direct she must also formulate much of the policy she is to execute To do this she must have some knowledge of the essential working principles upon which organization and management rest These principles have been set forth in this book not so much as a theoretical treatise but rather by showing as concretely as possible how such principles are to operate among the plain practical facts which are to be dealt with in actual school situations It is assumed that in managing a school the first step is a clear aim the second carefully formulated plans the third execution the fourth evaluation of results Thus by implication it is demanded of school managers that they shall take a critical attitude toward their work and dismiss the idea that experience is all that counts in preparation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Classroom Management** William Chandler Bagley, 1907      *Classroom Management* William Chandler Bagley, 2015-07-09 Excerpt from Classroom Management Its Principles and Technique This book is intended primarily for students of education in universities training schools and normal schools who are preparing for classroom teaching especially in the elementary grades It aims first to furnish the prospective teacher with a compendium of precepts that will aid him in the mastery of technique secondly to interpret these precepts in the light of accepted psychological principles and thirdly to unite both precepts and principles into a coherent and fairly comprehensive system The data have been gathered from four sources first and chiefly from observing the work of efficient and successful classroom teachers secondly from textbooks and treatises upon the subject of school management and classroom practice numerous references to which will be found in the footnotes and at the close of the chapters thirdly from the writer's own experience and fourthly from general psychological principles Data of the last named class have in every case been subjected to actual test before being included in this volume The writer is convinced that a successful science of education can never be produced by working backward from highly wrought theory to concrete practice About the Publisher Forgotten Books

Yissakhar Baer ca 1580 ca 1629 of Prague sheds light on the literary strategies pedagogic concerns and religious motivations of secondary elites a new cadre of authors empowered by the opportunities that printing opened up Andrea Gondos highlights shifting intellectual and cultural boundaries in the early modern period when the transmission of Kabbalah became a meeting point connecting various strata of Jewish society as well as Jewish and Christian intellectuals *Critical Voices in Teacher Education* Barry Down, John Smyth, 2012-04-28 We live in dangerous times when educational policies and practices are debated largely in terms of how they fit with the needs of the free market This volume is a collection of writing by teacher educators that draws on their unique biographies experiences and perspectives to denounce these misguided norms It explores what it means practically and intellectually to teach for social justice in conservative times In a globalised world where the power of capital holds sway the purposes of social institutions such as universities and schools is being refashioned in ways that are markedly instrumental and technicist in nature The consequence is that teachers work is increasingly constrained by regimes of control such as standardised testing accountability transparency and national curricula In the meantime large numbers of students and teachers are disengaging physically emotionally and intellectually from learning The contributors to this edited volume present both a powerful critique of these developments and a counter hegemonic vision of teacher education founded on the principles and values of social justice democracy and critical inquiry Teacher education they argue involves a commitment to critical intellectual work that subjects some deeply entrenched assumptions beliefs habits routines and practices to closer scrutiny The contributing authors expose how ideology and power operate in seemingly blameless rational ways to perpetuate social hierarchies based on class gender sexuality race and culture Essential Readings in Wildlife Management and Conservation Paul R.
