Anxious Eaters Janet Chrzan, Kima Cargill, 2022-08-30

What makes fad diets so appealing to so many people How did there get to be so many different ones often with eerily similar prescriptions Why do people cycle on and off diets perpetually searching for that one simple trick that will solve everything And how did these fads become so central to conversations about food and nutrition

Anxious Eaters shows that fad diets are popular because they fulfill crucial social and psychological needs which is also why they tend to fail

Janet Chrzan and Kima Cargill bring together anthropology psychology and nutrition to explore what these programs promise yet rarely fulfill for dieters

They demonstrate how fad diets help people cope with widespread anxieties and offer tantalizing glimpses of attainable self transformation

Chrzan and Cargill emphasize the social contexts of diets arguing that beliefs about nutrition are deeply rooted in pervasive cultural narratives

Although people choose to adopt new eating habits for individual reasons broader forces shape why fad diets seem to make sense

Considering dietary beliefs and practices in terms of culture nutrition and individual psychological needs *Anxious Eaters* refrains from moralizing or promoting a right way to eat

Instead it offers new ways of understanding the popularity of a wide range of eating trends including the Atkins Diet and other low or no carb diets

beliefs that ingredients like wheat products and sugars are toxic allergenic or addictive food avoidance and Clean Eating practices and paleo or primal diets

Anxious Eaters sheds new light on why people adopt such diets and why these diets remain so attractive even though they often fail
