## **Climate Change Across Curriculum Fretz:**

Climate Change across the Curriculum Eric J. Fretz, 2015-12-24 Climate Change across the Curriculum examines ways of thinking and conveying information about climate change across university curricula and within academic disciplines The contributors provide methods strategies rationales and theoretical justifications for teaching climate issues at the university level The content of this book aims to introduce climate change to classes outside of the sciences as it will take a wide range of disciplines broader institutional thinking and experimentation to fully engage university resources and knowledge toward the mitigation of fossil fuel consumption and adaptation to the negative consequences of climate change Climate Change across the Curriculum encourages professors to engage salient aspects of their academic disciplines to the study of climate issues in the classroom as well as sample theories practices and resources from a wide range of academic disciplines outside of their own areas of specialization The contributors ask what role will higher education play in addressing environmental challenges and producing students who become professionals who accomplish work that solves these problems *Educating for Radical Social Transformation in the Climate Crisis* Stuart Tannock, 2021-09-21 This book asks how education can be developed to facilitate the radical social cultural and economic transformations needed to deal with the ongoing climate emergency The author illuminates important links between the work currently being done in climate change and education and the broader and older theories of radical education an area of education theory and practice that has long grappled with the question of how to use education to create a more just society Highlighting both current work and long traditions that include popular progressive feminist anti racist and anti colonial education the author draws on interdisciplinary research to make the case for how radical education can help tackle the climate change crisis It will have direct relevance for scholars of environmental education and radical education as well as activists and practitioners *Sustainable Universities and Colleges* Mark Starik, Paul Shrivastava, 2024-06-06 This book provides a set of decision and organizational models for the advancement of sustainability in higher education International authors present how universities and colleges have attempted to advance sustainability both within and outside of their institutions and how institutions of higher education can continue to upgrade those efforts to help lead societies toward greater sustainability in the future **Climate Change Across the Curriculum** Eric J. Fretz, 2016 Climate Change across the Curriculum examines ways of thinking and conveying information about climate change across university curricula and within academic disciplines The contributors provide methods strategies rationales and theoretical justifications for teaching climate issues at the university level The content of this book aims to introduce climate change to classes outside of the sciences as it will take a wide range of disciplines broader institutional thinking and experimentation to fully engage university resources and knowledge toward the mitigation of fossil fuel consumption and adaptation to the negative consequences of climate change Climate Change across the Curriculum encourages professors to engage salient aspects of their academic disciplines to the study of climate issues in the

classroom as well as sample theories practices and resources from a wide range of academic disciplines outside of their own areas of specialization The contributors ask what role will higher education play in addressing environmental challenges and producing students who become professionals who accomplish work that solves these problems     **Engaging Civic**

**Engagement** Chad Woolard,2017-08-15 Civic education in higher education is housed in various types of institutions i e community colleges four year universities public and private institutions institutional offices academic departments and larger cross campus initiatives and organizations Civic education programs promote numerous activities to foster student engagement both inside and outside the classroom Many in higher education have embraced the civic education movement however as with other social movements the civic education movement is still a contested area Defining civic education i e civic engagement service learning political engagement community engagement etc becomes problematic because there seems to be as many terms for civic education as there are civic education scholars Engaging Civic Engagement Framing the Civic Education Movement in Higher Education provides a comparative analysis of major approaches to civic education in the civic education moment including implications for higher education     Resources in Education ,1982     **Daisaku Ikeda,**

**Language and Education** Jason Goulah,2016-04-08 Daisaku Ikeda b 1928 is an international Buddhist leader peacebuilder prolific author and the founder of the secular Soka kindergartens elementary and secondary schools women s college and universities in seven countries across Asia and the Americas He has emerged as an important educational philosopher and practitioner whose perspectives on dialogue value creation soka global citizenship and the deep inner transformation he calls human revolution have informed the curriculum and instruction of thousands of teachers not only at the Soka schools but also at numerous non Soka schools and universities around the world This volume brings together for the first time in English international scholars empirical and theoretical analyses of Ikeda s contributions to language and education in a global context This book was awarded the Critics Choice Book Award by the American Educational Studies Association in 2015 This book was originally published as a special issue of Critical Inquiry in Language Studies     **Regional Perspectives on**

**Learning by Doing** Lorlene Hoyt,2017-07-01 In what ways can universities around the world mobilize their resources to create more just and prosperous communities while at the same time educating civic leaders This collaboration from university professors community partners and students looking to inspire higher education reform seeks to answer that question Regional Perspectives on Learning by Doing offers a diverse array of innovative teaching and research strategies from engaged universities from Australia Egypt Malaysia Mexico Scotland South Africa and the United States that demonstrates how learning by doing elevates students consciousness and develops their civic capabilities While dealing creatively with pressing societal challenges university students and others are learning together how to operate effectively in high conflict situations fashion bold approaches to combating poverty promoting sustainability and elevating public health organize coalitions for change that bridge social and economic divides and strengthen democratic decision making in local

communities and higher levels of governance Students and teachers alike will gain valuable insight into building thriving communities as well as the tools to do so

**Diversity in Environmental Education Research** ,2009-01-01 Research in environmental education EE is a growing field of inquiry and should be seen as respondent to a variety of program developments around the world These diverse programs are the context for this body of educational research Diversity in EE research is also compounded when one considers the various cultures epistemologies and research traditions that may inform the field This complexity accounts for the range of forms for environmental learning in formal informal or non formal contexts There is a good deal of evidence that in order to be more responsive to the needs of diverse populations program developments around the world are now beginning to reflect the variation in our society However the same cannot always be said in terms of research methodologies within mainstream environmental education research Outside of a few examples there seems to have been very little in the way of development of research genres aimed at understanding characterizing and supporting cultural diversity within much of mainstream environmental education Diversity of method may also be important for the overall quality or health of environmental education research To locate many of the new ideas and approaches in this area one needs to look outside environmental education towards general educational research or to other fields such as environmental justice indigenous education science education and health education to name only a few examples This volume of original research reports from around the globe begins to richly describe aspects of diversity in environmental education research It does so in two ways first it mirrors the diversity of voices and cultures that are conducting research in this ever broadening and increasingly global and international field of inquiry second it illuminates a potential diversity of research methods by highlighting a range of methodologies salient in other fields which have emerging promise for the practice of research in environmental education

Expanding Professionalism in Music and Higher Music Education Heidi Westerlund,Helena Gaunt,2021-06-07 This book addresses the need to rethink the concept and enactment of professionalism in music and how such concepts underpin professional higher music education There is an urgent imperative to enable the potential of professional musicians in our contemporary societies to be more fully realised recognising both intense challenges that are currently threatening some traditional music practices and significant scope for new practices to be imagined in response to deep veins of societal need Professionalism encompasses the conduct aims values responsibilities and ongoing development of a practising professional in the field Professional higher music education engages both with providing future professionals with relevant education in particular craft skills and with nurturing their visions for their work as artists in future societies The major focus of the book is on performance traditions that have dominated professional higher education notably western classical music

**International Journal of Education Through Art** ,2007 The Education Index ,1972 *Current Index to Journals in Education* ,1991 **What Teachers Want to Know About Teaching Climate Change** Bertha Vazquez,Kimi Waite,Lauren Madden,2025-02-17 Inspire the next generation to create a

sustainable and hopeful future Climate change is one of the greatest threats humanity has ever faced The most recent 10 years have been the hottest on record and the results have been increasingly extreme storms flooding and fires around the world Understanding the causes of climate change and potential solutions is essential learning for students and is aligned with NGSS standards A recent report by the North American Association for Environmental Education Research indicates that 74 percent of U S teachers and 80 percent of administrators agree that climate change will have an overwhelming impact on students futures But according to the same survey of more than 1000 teachers only 42% say they even mention climate change in the classroom In an effort to support teachers Corwin conducted a market survey sent to more than 135 000 educators and school leaders in North America asking about their concerns regarding teaching climate change The top three issues reported were concern that the content was not related to their subject 65% a worry that children were too young or vulnerable for such an upsetting topic 20% and lack of confidence in their ability to understand and teach the science behind climate change 17% In response to these concerns authors Bertha Vazquez Kimi Waite and Lauren Madden wrote *What Teachers Want to Know About Teaching Climate Change* to provide research based and classroom tested guidance for K 12 educators to teach climate change accurately effectively and confidently The book gives busy teachers the tools they need to incorporate climate change education across disciplines and align the content with existing standards without adding a new topic for overworked teachers to tackle Offering a practical roadmap for teachers to integrate climate change lessons into their existing curriculum this book Includes crowd sourced tips for reducing our carbon footprint and inspiring success stories from teachers who have effectively taught climate change in their classrooms Focuses on overcoming additional obstacles to teaching climate change such as lack of data literacy and potential partisan pushback Debunks the 10 most common misconceptions about climate change and encourages critical thinking skills to help students identify misinformation Fosters hope in students by acknowledging their personal agency and encouraging collective and meaningful action that builds community Provides bibliographies of free curriculum lessons and other content for teaching climate change across various age groups and disciplines This book is an essential resource for educators and leaders inside and outside of the science classroom who want to help their students build a better tomorrow

**Religious Books and Serials in Print**, 1982 *Arts & Humanities Citation Index*, 1992 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals

**A People's Curriculum for the Earth** Bill Bigelow, Tim Swinehart, 2014-11-14 A People s Curriculum for the Earth is a collection of articles role plays simulations stories poems and graphics to help breathe life into teaching about the environmental crisis The book features some of the best articles from *Rethinking Schools* magazine alongside classroom friendly readings on climate change energy water food and pollution as well as on people who are working to make things better A People s Curriculum for the Earth has the

breadth and depth of Rethinking Globalization Teaching for Justice in an Unjust World one of the most popular books we've published At a time when it's becoming increasingly obvious that life on Earth is at risk here is a resource that helps students see what's wrong and imagine solutions Praise for A People's Curriculum for the Earth To really confront the climate crisis we need to think differently build differently and teach differently A People's Curriculum for the Earth is an educator's toolkit for our times Naomi Klein author of The Shock Doctrine and This Changes Everything Capitalism vs the Climate This volume is a marvelous example of justice in ALL facets of our lives civil social educational economic and yes environmental Bravo to the Rethinking Schools team for pulling this collection together and making us think more holistically about what we mean when we talk about justice Gloria Ladson Billings Kellner Family Chair in Urban Education University of Wisconsin Madison Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth This book can engender the shift in perspective so needed at this point on the clock of the universe Gregory Smith Professor of Education Lewis Clark College co author with David Sobel of Place and Community based Education in Schools

Teaching Climate Change in Primary Schools Anne M. Dolan, 2021-07-26 This important and timely book provides an overview of climate change and highlights the importance of including climate change education in primary schools It emphasises the importance of cross curricular pedagogical approaches with a focus on climate justice providing in depth assistance for teaching children aged 3-13 years Informed by up to date research the book helps teachers to remain faithful to climate change science whilst not overwhelming children Accompanied by online resources this book includes practical and easy to follow ideas and lesson plans that will help teachers to include climate change education in their classrooms in a holistic cross curricular manner Specific chapters address the following topics Inter disciplinary approaches to climate change Early childhood education Pedagogies of hope The importance of reflective practice Ideas for including climate change education in curricular areas such as literacy geography science history and the arts Designed to promote climate change education in primary schools this resource will help primary teachers student teachers geography specialists and all those interested in climate change education develop their own conceptual knowledge and that of the children in their class

*Climate Change Education Across Disciplines K-12* Lauren Madden, 2025-02-15 Climate change is one of the greatest challenges humanity has ever faced One of the most effective ways to combat climate change is education In New Jersey standards to support teaching and learning about climate change were introduced for children of all ages beginning in 2022 In this edited volume experts from across the state offer strategies suggestions advice and vignettes to support educators as they begin to implement climate change instruction in their classrooms With a foreword by our state's First Lady Tammy S Murphy it also includes a scientific perspective on the effects of climate change in New Jersey the history of climate change education in the US and perspectives from colleagues in other states who are also beginning to adopt instructional practices to address this important topic

Climate Change Education Luo Cassie Xu, Radhika Iyengar, 2023-11-14 Climate change

affects every person and society every community and industry Education at all levels in all disciplines and both inside and outside official institutions must now address climate change and its many effects on social and environmental systems This book provides a framework for putting climate change at the forefront of educational agendas and pedagogical tools for teaching climate science across local and global settings Cassie Xu and Radhika Iyengar present evidence based teaching practices and strategies that are grounded in a broad conception of education and emphasize a systems approach They share examples of effective approaches in diverse learning environments not just in classrooms and other formal settings but also informal contexts with communities and families This book makes the case that students and other learners need to understand climate science and the physical and social impacts of climate change not only to be good citizens but also to be well prepared for different career paths Xu and Iyengar highlight systemic barriers and inequalities reflecting on how to bring marginalized voices and perspectives into educational spaces Providing a foundation for interdisciplinary environmental education this book underscores that how we teach future generations about climate change will shape our future
