International Trade Policies and Climate Change Governance P.K. Rao, 2012-01-05 This work

offers a synthesis of the current approaches toward an integration of international trade and climate change with a view to fostering potential improvements in policies and institutions affecting these A number of pragmatic measures are proposed with reference to the WTO and the United Nations Framework Convention on Climate Change UNFCCC regimes which are expected to contribute toward enhanced climate change governance as well as promoting international trade

International Trade Regulation and the Mitigation of Climate Change Thomas Cottier, Olga Nartova, Sadeq Z. Bigdeli, 2009-09-24 Drawing on the expertise of leading voices this book takes stock of key challenges in addressing climate change mitigation serving as a reference tool for understanding the interface between international trade and climate and shedding light on key issues including global commons border tax adjustment subsidies and biofuels **Climate Change Policy and Global Trade** Christoph B Hringer, Andreas L Schel, 2011-03-11 International Trade and Climate Change World Bank, 2007-10-15 Climate change remains a global challenge requiring international collaborative action Another area where countries have successfully committed to a long term multilateral resolution is the liberalization of international trade Integration into the world economy has proven a powerful means for countries to promote economic growth development and poverty reduction The broad objectives of the betterment of current and future human welfare are shared by both global trade and climate regimes Yet both climate and trade agendas have evolved largely independently through the years despite their mutually supporting objectives Since global emission goals and global trade objectives are shared policy objectives of most countries and nearly all of the World Bank's clients it makes sense to consider the two sets of objectives together This book is one of the first comprehensive attempts to look at the synergies between climate change and trade objectives from economic legal and institutional perspectives It addresses an important policy question how changes in trade policies and international cooperation on trade policies can help address global environmental spillovers especially GHG emissions and what the potential effects of national environmental policies that are aimed at global environmental problems might be for trade and investment It explores opportunities for aligning development and energy policies in such a way that they could stimulate production trade and investment in cleaner technology options **International Trade Policies and Climate Change Governance** P.K. Rao, 2012-01-05 This work offers a synthesis of the current approaches toward an integration of international trade and climate change with a view to fostering potential improvements in policies and institutions affecting these A number of pragmatic measures are proposed with reference to the WTO and the United Nations Framework Convention on Climate Change UNFCCC regimes which are expected to contribute toward enhanced climate change governance as well as promoting international trade International Trade and Climate Change Policies Duncan Brack, Michael Grubb, Craig Windram, 2014-05-14 This text considers whether the liberalization of trade is compatible with the efforts of industrialized countries to reduce greenhouse emissions It examines the strains and conflicts between these two international goals and focuses on the effects of the UN convention on climate change and the Kyoto Protocol specifically

their implications for levels of trade potential restrictions on trade and implications for the World Trade Organization regime of emissions trading The author also looks at the implications of energy efficiency standards and energy taxes for international trade

Climate Change Policy and Global Trade Christoph Böhringer, 2004-05-18 This book synthesises several studies on the potential global impacts of two fundamental international policy initiatives i multilateral agreements on climate protection strategies and ii trade agreements towards global trade liberalisation Although these initiatives are not directly linked they interrelate in subtle yet important ways Based on theoretical analyses and numerical simulations the book provides guidelines on efficient strategies for climate change mitigation implementing the framework of the Kyoto Protocol and the provided flexibility instruments hereby accounting for interrelationships with existing and possible trade agreements on various levels The analyses incorporate important real world features such as imperfect market structures trade liberalisation settings risk or transaction costs that may substantially influence the magnitude and even the sign of policy impacts

Climate Change Policy and Global Trade Christoph Böhringer, Andreas Löschel, 2012-12-06 This book synthesises several studies on the potential global impacts of two fundamental international policy initiatives i multilateral agreements on climate protection strategies and ii trade agreements towards global trade liberalisation Although these initiatives are not directly linked they interrelate in subtle yet important ways Based on theoretical analyses and numerical simulations the book provides guidelines on efficient strategies for climate change mitigation implementing the framework of the Kyoto Protocol and the provided flexibility instruments hereby accounting for interrelationships with existing and possible trade agreements on various levels The analyses incorporate important real world features such as imperfect market structures trade liberalisation settings risk or transaction costs that may substantially influence the magnitude and even the sign of policy impacts

Trade and Climate Change Ludivine Tamiotti, United Nations Environment Programme, 2009 This report aims to improve understanding about the linkages between trade and climate change It shows that trade intersects with climate change in a multitude of ways For example governments may introduce a variety of policies such as regulatory measures and economic incentives to address climate change This complex web of measures may have an impact on international trade and the multilateral trading system

Climate Clubs for a Sustainable Future Rafael Leal-Arcas, 2021-08-23 Energy and Environmental Law and Policy Series 41 We know the science of climate change we know the economics of climate change we also know the law of climate change However we do not know how countries may come together to cooperate on climate change mitigation In this connection the role of international trade in climate change although universally acknowledged is not well understood This groundbreaking book by one of the world's foremost authorities on international economic law not only investigates this role in great depth but also explains how free trade agreements can be used as a powerful tool to help mitigate climate change Focusing on the

idea of climate clubs namely the coalition of the willing among governments companies and or international institutions the book offers insightful analysis on aspects of the trade climate linkage such as formation of climate clubs legitimacy and accountability technological cooperation green patents how competition law hinders effective cooperation between companies seeking to produce sustainable goods domestic policy preferences recognizing States that should legitimately be allowed to be free riders and sanctions for noncompliance Three detailed case studies are included a comparison of the U S and European Union EU Generalized System of Preferences GSP programs energy security in the Arab world and EU Russia energy trade relations With the author s conviction that global access to energy mitigating climate change and benefit from international trade and investment all can be achieved this book offers a fresh understanding of the international trading system as a way to reach a prosperous modern and sustainable society that will help decarbonize the economy effectively It will be welcomed by all professionals and policymakers concerned with climate change mitigation and particularly by those active at its nexus with international trade

The Trade and Climate Change Nexus Paul Brenton,Vicky Chemutai,2021-10-22 While trade exacerbates climate change it is also a central part of the solution because it has the potential to enhance mitigation and adaptation This timely report explores the different ways in which trade and climate change intersect Trade contributes to the emissions that cause global warming and is itself also affected by climate change through changing comparative advantages The report also confronts several myths concerning trade and climate change The Trade and Climate Change Nexus The Urgency and Opportunities for Developing Countries focuses on the impacts of and adjustments to climate change in developing countries and on how future trade opportunities will be affected by both the changing climate and the policy responses to address it The report discusses how trade can provide the goods and services that drive mitigation and adaptation It also addresses how climate change creates immense challenges for developing countries but also new opportunities to promote trade diversification in the transition to a low carbon world Suitable trade and environmental policies can offer effective economic incentives to attain both sustainable growth and poverty reduction

Legal Issues on Climate Change and International Trade Law Deok-Young Park,2016-04-29 This book provides an excellent overview of the legal issues surrounding climate change mitigation and international trade law It surveys key observed and potential challenges posed by responses to climate change in terms of international trade law By examining the controversial issues seen in legal cases in which domestic climate change or renewable energy measures conflicted with international trade regimes this volume promotes and broadens the understanding and debate of the issues Beyond the recognized challenges this book uncovers potential areas of conflict between climate change responses and international trade promotion by exploring previous cases and current efforts to prevent climate change Furthermore this volume sheds light on the future direction of international trade law and climate change responses pointing out that the development of climate change or renewable energy laws and policies must also consider international trade regimes in order to ensure the

smooth implementation of said laws and policies and guarantee that international trade laws do not restrict environmental policy space

Reconciling Trade and Climate Tracey Epps, Andrew James Green, 2010-01-01 This book provides a comprehensive examination of the legal and policy interactions between international trade and measures to forestall climate change Epps and Green cover all major aspects of the current debate and are especially attentive to the connection to economic development and poverty alleviation The last chapter provides a creative and thoughtful menu of policy initiatives that could be undertaken in the World Trade Organization or in the UN Climate Change regime
