Climate Change Capitalism Corporations Self Destruction:

Climate Change, Capitalism, and Corporations Christopher Wright, Daniel Nyberg, 2015-10 Written for researchers and graduate students this book explores the different processes through which corporations engage with climate change

Climate Change, Capitalism, and Corporations Christopher Wright, Daniel Nyberg, 2015-09-23 Climate change is one of the greatest threats facing humanity a definitive manifestation of the well worn links between progress and devastation This book explores the complex relationship that the corporate world has with climate change and examines the central role of corporations in shaping political and social responses to the climate crisis The principal message of the book is that despite the need for dramatic economic and political change corporate capitalism continues to rely on the maintenance of business as usual The authors explore the different processes through which corporations engage with climate change Key discussion points include climate change as business risk corporate climate politics the role of justification and compromise and managerial identity and emotional reactions to climate change Written for researchers and graduate students this book moves beyond descriptive and normative approaches to provide a sociologically and critically informed theory of corporate responses to climate change

Global Capitalism and Climate Change Hans A. Baer, 2021-10-01 Now in its second edition Global Capitalism and Climate Change The Need for an Alternative World System examines anthropogenic climate change in the context of global capitalism a political economy that emphasizes profit making is committed to on going economic growth results in massive social inequality fosters a treadmill of production and consumption and is heavily reliant on fossil fuels Looking ahead Hans A Baer explores the systemic changes necessary to create a more socially just democratic and environmentally sustainable world system capable of moving humanity toward a safer climate This book is recommended for readers interested in anti systemic efforts including eco anarchism eco feminism the de growth perspective Indigenous voices and the climate justice movement

The Oxford Handbook of Global Policy and Transnational Administration Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and

global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state

Navigating Normative Orders Matthias Kettmann, 2020-07-22 Ob bei Kant oder unter Konservativen im Internet in Umweltdiskursen oder in Sansibar Dieses Buch untersucht wie sich Menschen Normen geben diese hinterfragen und legitimieren Die Beitr ge machen deutlich dass Normen nach wie vor in allen Lebensbereichen eine zentrale Rolle einnehmen Zusammen mit Werten und Narrativen bilden sie normative Ordnungen mit denen politische Autorit t und die Verteilung von Rechten und G tern legitimiert wird im Strafrecht bei der Kindererziehung im Territorialstaat in Fortschrittsdiskursen im Anthropoz n

Governing the Firm in the Social Interest Catherine Casey, 2024-02-20 The corporate business enterprise is a core institution of capitalism It holds immense political economic and cultural power in society It mobilizes social and planetary resources to its utility in pursuit of private profit maximization and with little regard for social concerns Its influence over so much of societal life and effects on the natural environment raise critical questions about the firm and its governance in democratic society Various voices seek reforms of regulation and corporate governance practices to those shaped by the neoliberal policies persisting in the current decades But prospects for amelioration within our current horizons of thinking appear elusive This book contributes a distinctly social theoretical approach to the social problem of governing the firm Its discussions complement debates in economics politics and law Its critical social theorizations challenge conventional understandings of the firm and neoliberal legitimacies of its governance and posit alternatives The book explores the social relations and moral fabric of the firm and the creativity of human action at work It proposes a reimagined corporate governance premised on just recognition of that social vitality It invites unprecedented collaboration for a robust participatory democracy for governing the firm and market action oriented to ecological and social sustainability

Companion to Environmental Studies Noel Castree, Mike Hulme, James D. Proctor, 2018-05-01 Companion to Environmental Studies presents a comprehensive and interdisciplinary overview of the key issues debates concepts approaches and questions that together define environmental studies today The intellectually wide ranging volume covers approaches in environmental science all the way through to humanistic and post natural perspectives on the biophysical world Though many academic disciplines have incorporated studying the environment as part of their curriculum only in recent years has it become central to the social sciences and humanities rather than mainly the geosciences The environment is now a keyword in everything from fisheries science to international relations to philosophical ethics to cultural studies The Companion brings these subject areas and their distinctive perspectives and contributions together in one accessible volume Over 150 short chapters written by leading international experts provide concise authoritative and easy to use summaries of all the major and emerging topics dominating the field while the seven part introductions situate and provide context for

section entries A gateway to deeper understanding is provided via further reading and links to online resources Companion to Environmental Studies offers an essential one stop reference to university students academics policy makers and others keenly interested in the environmental question the answer to which will define the coming century How We Sold Our Future Jens Beckert, 2024-11-25 For decades we have known about the dangers of global warming Nevertheless greenhouse gas emissions continue to increase How can we explain our failure to take the necessary measures to stop climate change Why are societies despite the mounting threat to ourselves and our children so reluctant to take action In this important new book Jens Beckert provides an answer to these questions Our apparent inability to implement basic measures to combat climate change is due to the nature of power and incentive structures affecting companies politicians voters and consumers Drawing on social science research he argues that climate change is an inevitable product of the structures of capitalist modernity which have been developing for the past 500 years Our institutional and cultural arrangements are operating at the cost of destroying the natural environment and attempts to address global warming are almost inevitably bound to fail Temperatures will continue to rise and social and political conflicts will intensify The tragic truth is we are selling our future for the next quarterly figures the upcoming election results and today's pleasure Any realistic climate policy needs to focus on preparing societies for the consequences of escalating climate change and aim at strengthening social resilience to cope with the increasingly unstable natural world Civil society is the only source of pressure that could build the necessary strength and support for climate protection How We Sold Our Future is a crucial intervention into the most pressing issue of our time *Shocks, States, and Sustainability* Thomas K. Rudel, 2019 For the past two decades scientists have urged us to abandon fossil fuels as rapidly as possible and pursue a range of other environmental reforms to avert the many crises climate change will bring The reforms have not occurred at the expected rate and their absence raises questions about when they might occur In *Shocks States and Sustainability* Thomas K Rudel addresses this question He outlines a theory of environmental revolutions and when they will likely occur through a comparison of radical environmental reforms throughout the 20th century By looking at farmers in the American Dust Bowl land use planners in post war England small farmers in post Soviet Cuba and lobster fishers along the coast of Maine Rudel emphasizes how sudden focusing events can spur radical reforms by providing a fresh realization about the scarcity of natural resources *Shocks States and Sustainability* explains how earth shaking events like droughts depressions and wars can provide the foundations necessary for the pursuit of global sustainability *Stories and Organization in the Anthropocene* Sideeq Mohammed, 2021-08-30 This book is about the stories being told in the Anthropocene Stories of irreparable damage being done to the global ecosystem of sustainable growth of dystopian collapse of continued interspecies flourishing of Gaia and of accelerating capitalism's dynamics in order to discover its outside Stories of change Stories of hope Against them all this book seeks to braid together a particular thread of storying in order to speak to the emergence of the mall at the end of the world a space where a new politics of spectral capitalism is

played out In doing so we reflect that there never was any outside to Capital that it can live forever its performances and spectacles being preserved despite global ecological collapse This book seeks to understand the nascence of the mall at the end of the world and the new people thoughts and dreams that come with it *Edith Penrose's Legacy* Jonathan Michie, Christine Oughton, 2025-01-31 Edith Penrose is best known for *The Theory of the Growth of the Firm* originally published in 1959 but she made major contributions in other fields including patents the oil industry and development economics This book explores her work and legacy not just on economics she was the founding Head of Department of Economics at SOAS University of London but also on the related fields of management and political economy where her contribution has had significant impact Penrose challenged the conventional wisdom of economics by opening up the black box view of the firm to explore what goes on inside in particular how resources are managed and renewed to influence growth and innovation Her analysis was cognisant of the wider political economy context in which firms operate recognising the different impact of large international firms on developing and developed countries Penrose's work has shaped modern theories of strategic management including the resource based view of the firm and the dynamic capabilities approach The chapters in this volume from leading economists and management scholars cover a range of topics including innovation collaboration between firms and universities and the practice and consequences of share buy backs highlighting the value of a Penrosian perspective and the extent of her legacy This book will be relevant to students and scholars of economics management and political economy This book was originally published as a special issue of *International Review of Applied Economics*

Ghost Criminology Michael Fiddler, Theo Kindynis, Travis Linnemann, 2022-01-18 Bringing together prominent early contributions from this emergent perspective the volume traces the origins theory and methodology of a nascent ghost criminology From the powers of exorcism and erasure marshaled by state agents street level struggles over memorialization and memory to the lingering violence of crime scenes and the ghostly traces of outlaw artists *Ghost Criminology* is a book attuned to that which is well theorized in other disciplines the spectral hauntological apparitional Each of the writers assembled here shares as Mark Fisher 2017 put it a fascination for the outside that which lies beyond standard perception cognition and experience As such this collection uses cutting edge social and cultural theory to tangle with some of criminology's most stubborn revenants the politics of criminalization the commodification of crime and violence the haunting power of the image as well as the unheard and disregarded cries of the dead *Corporate Governance* Thomas Clarke, 2021-02-11 The recognition of the profound impact of corporations on the economies and societies of all countries of the world has focused attention on the growing importance of corporate governance There is an ongoing diversity of corporate governance systems based on historical cultural and institutional differences that involve different approaches to the values and objectives of business activity Sound corporate governance is universally recognised as essential to market integrity and efficiency providing a vital underpinning for financial stability and economic growth As the adequacy of the

existing dominant paradigms of corporate governance are increasingly challenged the search for coherent new paradigms is a vital task for corporate governance in the future

The Oxford Handbook of Management Ideas Andrew Sturdy, Stefan Heusinkveld, Trish Reay, David Strang, 2019-03-28 Management ideas and their associated applications have become a prevalent feature of our working lives While their focus is familiar such as efficiency motivation and improvement they range from specific notions such as activity based costing to broad movements like corporate social responsibility This Handbook brings together some of the latest research from leading international scholars on how management ideas are produced promoted and adapted and their effects on business and working practices and society at large Rather than focusing on specific management ideas this volume explores their key socio political contexts and channels of dissemination and is organized around four core overlapping themes The first section sets out the research field in general in terms of both an overall system and of different perspectives and research methods The second section explores the role of different actors and channels of diffusion including the consumers and producers of management ideas and new media as well as traditional players in the management ideas field such as consultancies and business schools The third section focuses on specific features or dynamics of the management ideas system such as their adoption evolution institutionalisation and resurgence while in the final section critical and new perspectives on management ideas are examined highlighting specific socio political contexts and the possibility of alternative ideas and forms of critique With a broad range of perspectives represented this Handbook provides a comprehensive authoritative and enduring resource for those studying management innovation and organizational change as well as for those working in the management ideas industry

Earth Emotions Glenn A. Albrecht, 2019-05-15 As climate change and development pressures overwhelm the environment our emotional relationships with Earth are also in crisis Pessimism and distress are overwhelming people the world over In this maelstrom of emotion solastalgia the homesickness you have when you are still at home has become writes Glenn A Albrecht one of the defining emotions of the twenty first century Earth Emotions examines our positive and negative Earth emotions It explains the author's concept of solastalgia and other well known eco emotions such as biophilia and topophilia Albrecht introduces us to the many new words needed to describe the full range of our emotional responses to the emergent state of the world We need this creation of a hopeful vocabulary of positive emotions argues Albrecht so that we can extract ourselves out of environmental desolation and reignite our millennia old biophilia love of life for our home planet To do so he proposes a dramatic change from the current human dominated Anthropocene era to one that will be founded materially ethically politically and spiritually on the revolution in thinking being delivered by contemporary symbiotic science Albrecht names this period the Symbiocene With the current and coming generations Generation Symbiocene Albrecht sees reason for optimism The battle between the forces of destruction and the forces of creation will be won by Generation Symbiocene and Earth Emotions presents an ethical and emotional odyssey for that victory

Rastegar, Freya Higgins-Desbiolles, Lisa Ruhanen, 2024-09-27 This book gathers theoretical and empirical studies exploring the link between global crises sustainable tourism and the justice challenges being faced by vulnerable groups individuals and society While any crisis may exacerbate existing inequalities the crises of the 21st century are compounding and complicating the ways the impacts unfold and engulf individuals communities and indeed the global community Recent crises revealed how dependent our economies and societies are on the tourism and hospitality industries While studies of crises in tourism have proliferated with concerns for risk management recovery and resilience COVID 19 has exposed the need to think more profoundly on this topic In such circumstances therefore tourism actors must respond to the sustainability and justice challenges resulting from current and future crises by rethinking redefining and reorienting tourism The chapters in this edited volume present a discussion of pertinent themes that consider just transformations issues of climate justice diverse worldviews and knowledges possibilities for solidarity through tourism and concerns with power and decolonisation This book will be of great interest to upper level students researchers and academic of tourism development studies and sustainability as well as professionals in the field of tourism management The chapters in this book were originally published in the Journal of Sustainable Tourism

International Judicial Practice on the Environment Christina Voigt, 2019-04-18 More and more environmental cases are being heard and decided by international courts and tribunals which lack special environmental competence This situation raises fundamental questions of legitimacy of the environmental practice of international courts This book addresses inter alia questions of who has legal standing to bring an environmental claim before an international court on which legal norms is the case decided and whether judges have the necessary expertise to adjudicate environmental cases of often complex nature It analyses which challenges international courts face which possibilities they have and which advances international judicial practice has been able to make in protecting the environment Through the prism of legitimacy important insights emerge as to whether international courts and tribunals are fit for addressing some of the most pressing global challenges of our time

Consumer Society and Ecological Crisis
Leslie M. Meier, 2022-12-15 Consumer Society and Ecological Crisis advances a critique of consumer capitalism and its role in driving environmental degradation and climate crisis placing a spotlight on how marketing and distribution activities help maintain unsustainable levels of consumption Rather than focusing on the most visible sites of promotional communication Meier examines less conspicuous facets of marketing and logistics in distinct chapters on plastic packaging e commerce and sustainability pledges in the fossil fuel sector These three main chapters each explore links between ecological crisis and consumer capitalism drawing on critical theory and Marxist thought The topics of consumer convenience speed and economic growth and the role of fossil fuels as guarantor of these logics of consumer society unite the critical analysis Situated in the field of media and communication studies and adopting an interdisciplinary approach this book will be of interest to academics researchers and students in the areas of media and communication studies cultural studies sociology

geography philosophy political science and advertising *Corporate Regulation for Climate Change Mitigation in Africa*
Kikelomo O. Kila, 2022-09-08 This book critically analyses the prospects of overhauling the legal framework of climate change regulation of corporations in African state It adopts the dilute interventionism regulatory framework to tackle the culture of regulatory resistance by corporations in Africa Over the course of this volume Kikelomo O Kila critiques the climate change legal framework in all 53 African states and conducts an in depth case study of the two largest economies in Africa Nigeria and South Africa to highlight the commonality of the problems in Africa and the potential for the dilute interventionism paradigm to significantly address these problems The book establishes why African states should directly intervene through legislative mechanisms to compel corporations to incorporate climate change mitigation in their business activities It proposes that this direct intervention should comprise a blend of prescriptive and facilitative mechanisms structured in a dilute interventionism regulatory model Overall this volume argues that implementing this model requires the institution of a strong and independent regulator with a veto firewall protection system that guarantees its de facto independence from government and external influences *Corporate Regulation for Climate Change Mitigation in Africa* will be of great interest to climate change stakeholders at the international regional and domestic levels policymakers regulatory practitioners and legal experts on corporate regulation It will also be an insightful resource for students and scholars of climate change and environmental law policy and governance **Strategy** Stewart R Clegg, Jochen Schweitzer, Andrea Whittle, Christos Pitelis, 2019-11-30 Providing a fresh perspective on strategy from an organizational perspective through a discursive approach featuring key theoretic tenets this text is also pragmatic and emphasizes the practices of strategy to encourage the reader to be open to a wider set of ideas with a little more relevance and with a cooler attitude towards the affordances of the digital world and the possibilities for strategy s futures The key areas of Strategy take a critical stance in the new edition and also include areas less evident in conventional strategy texts such as not for profit organizations process theories globalization organizational politics and decision making as well as the futures of strategy
