

The background of the cover features a microscopic view of blood cells. In the upper right, there is a cluster of purple-stained cells, likely platelets or small lymphocytes. The lower half of the cover is dominated by numerous red blood cells, which appear as pinkish-red discs. Some of these cells are in sharp focus, while others are blurred, creating a sense of depth. The overall color palette is a mix of light blue at the top, white in the middle, and various shades of pink and purple at the bottom.
