**Cannibal Dreams** Hadena James,2015-02-13 Some family trees need trimming When pairs of feet start turning up in Columbia Missouri it becomes apparent that a serial killer is prowling the streets However the feet are not giving away many secrets and without bodies it is impossible to identify the victims The investigation stalls and the killer is free to slaughter as many victims as he can find When Aislinn Cain and the SCTU shows up Aislinn realizes that this isn't a new serial killer He's terrorized her hometown before Her father worked the case the first time with only an exotic bite mark as a clue Now Aislinn will start the manhunt of her life as she becomes determined to catch the monster that eluded her father As she sinks further into the hunt she'll uncover a horrifying past that proves skeletons should stay locked in closets **Battered Dreams**

Hadena James,2015-06-01 San Marcos Texas A picture perfect American landscape Communities dominated by Friday Night Football modest homes and happy families Until the serenity of small town life is broken by one family's discovery of bodies in an abandoned well Local police try to keep the discovery quiet they seldom deal with murder and aren't prepared when one of the bodies turns out to be a local high school boy The multiple murders drive home the sinister reality that they are no longer innocent of the crimes that plague large cities Based on the skill involved the Serial Crimes Tracking Unit realizes that this is not the killer's first time As the SCTU digs deep to discover the killer they uncover more victims Anger and fear begin to cause panic in what was once a quiet community Aislinn Cain and the members of her team need to find the killer before the town implodes with terror and the citizens begin doling out their own brand of justice *Summoned Dreams*

Hadena James,2015-02-15 The most violent city in the United States doesn't normally garner much attention from the SCTU Victims are easy to find on the destitute streets and dark alleys They are even easier to prey upon as they desperately cling to hope Their bodies are easy to hide in the abandoned houses and buildings that litter Detroit In a city turning into a ghost town serial killers stalk the trapped residents with hellish delight One killer gains national attention even among the most vile and violent Detroit has to offer He isn't just killing his victims he's burning their bodies and the buildings they are in with impunity He does not hunt in the shadows but takes his victims during the cold light of day He's methodical calculating and leaves no clues for the police to follow Leads are so few and the kills so brazen that Aislinn Cain and the SCTU pack their bags and head for the grim streets of Detroit It is in this desolate waste of a city that they will face their most depraved and deceptive serial killer yet **Cannibal Jack**

Trevor Bentley,2010-05-03 In a frontier society full of colourful characters in early nineteenth century New Zealand Jacky Marmon more commonly known as Cannibal Jack was more colourful than most Jumping ship off the New Zealand coast he first lived among Ng puhi at the Bay of Islands where he acquired five wives and served his chief as a trader and white priest Joining Hongi Hika's great Musket Wars campaigns against the Tamaki and Kaipara tribes he claimed to have served as Hika's personal war tohunga He survived to settle in the Hokianga from 1823 and was involved in Hone Heke's Flagstaff War of 1845 In this biography of a wonderfully curious character the author of the

bestselling Pakeha Maori traces Marmon's life and times drawing on his own knowledge and research as well as on Marmon's own not always reliable personal accounts

**Dreams** Derrick Jensen, 2011-01-04 Jensen's furthest reaching book yet Dreams challenges the destructive nihilism of writers like Richard Dawkins and Sam Harris who believe that there is no reality outside what can be measured using the tools of science He introduces the mythologies of ancient cultures and modern indigenous peoples as evidence of alternative ways of understanding reality informed by thinkers such as American Indian writer Jack Forbes theologian and American Indian rights activist Vine Deloria Shaman Martin Prechtel Dakota activist and scholar Waziyatawin and Okanagan Indian writer Jeannette Armstrong He draws on the wisdom of Dr Paul Stamets author of Mycelium Running How Mushrooms Can Help Save the World sociologist Stanley Aronowitz who discusses science's lack of accountability to the earth and many more As in his other books Jensen draws heavily from his own life experience living alongside the frogs redwoods snails birds and bears of the upper northwest about which he writes with exquisite tenderness Having taken on the daunting task of understanding one's dreams as a source of knowledge Jensen achieves the near impossible in this breathtakingly brave and ambitious new work

Child's Play Laurence R. Goldman, 2020-05-28 This innovative book finally takes seriously the need for anthropologists to produce in depth ethnographies of children's play In examining the subject from a cross cultural perspective the author argues that our understanding of the way children transform their environment to create make believe is enhanced by viewing their creations as oral poetry The result is a richly detailed thick description of how pretence is socially mediated and linguistically constructed how children make sense of their own play how play relates to other imaginative genres in Huli life and the relationship between play and cosmology Informed by theoretical approaches in the anthropology of play developmental and child psychology philosophy and phenomenology and drawing on ethnographic data from Melanesia the book analyzes the sources for imitation the kinds of identities and roles emulated and the structure of collaborative make believe talk to reveal the complex way in which children invoke their experiences of the world and re-invent them as types of virtual reality Particular importance is placed on how the figures of the ogre and trickster are articulated The author demonstrates that while the concept of imagination has been the cornerstone of Western intellectual traditions from Plato to Postmodernism models of child fantasy play have always intruded into such theorizing because of children's unique capacity to throw into relief our understanding of the relationship between representation and reality

**Conversations With Seth: Book Two** Susan M. Watkins, 2006-05-01 In 1963 Jane Roberts met a spiritual entity named Seth He spoke through her and the lessons he taught proved timeless and crucial Roberts went on to write much about her channeling experiences with Seth and her books have sold 2.5 million copies Her Seth material is consistently one of the top two most visited collections at the Yale University Archives From 1968 to 1975 Roberts held an ESP class in her home during which she channeled Seth Sue Watkins was a member of that class The knowledge she gained from the Seth sessions changed Watkins's life In fact it changed the

lives of all the class participants In Volume II of the Seth series Watkins shares the insights she discovered while participating in Roberts s groundbreaking classes The personal social and political issues addressed in Conversations with Seth are as relevant today as ever and include health sexual identity wealth and poverty the military draft relationships dreams ESP reincarnation and more Seth expands on many of the topics raised in book 1 and also explores provocative new material the correlation between our beliefs dreams and daily experience the concept of probabilities counterparts and individual identity the very real difficulties of applying the you create your own reality concept to daily life Also included is a fascinating discussion of Christ And as in the first book Seth addresses the personal ongoing issues that class members experienced over the years troubled marriages illness financial hardships and more *Horror and Science Fiction Films II (1972-1981)* Donald C. Willis,1982 Unlike most other horror and SF surveys which only venture as far afield as England and Europe Willis truly reaches around the world including many little known or rarely documented movies from China Japan Thailand and the Philippines **Claiming the Stones, Naming the Bones** Elazar Barkan,Ronald Bush,2003-01-09 These fourteen essays address controversies over a variety of cultural properties exploring them from perspectives of law archeology physical anthropology ethnobiology ethnomusicology history and cultural and literary study The book divides cultural property into three types Tangible unique property like the Parthenon marbles intangible property such as folktales music and folk remedies and communal representations which have lead groups to censor both outsiders and insiders as cultural traitors Cannibal Fictions Jeff Berglund,2006 Objects of fear and fascination cannibals have long signified an elemental otherness an existence outside the bounds of normalcy In the American imagination the figure of the cannibal has evolved tellingly over time as Jeff Berglund shows in this study encompassing a strikingly eclectic collection of cultural literary and cinematic texts Cannibal Fictions brings together two discrete periods in U S history the years between the Civil War and World War I the high water mark in America s imperial presence and the post Vietnam era when the nation was beginning to seriously question its own global agenda Berglund shows how P T Barnum in a traveling exhibit featuring so called Fiji cannibals served up an alien other for popular consumption while Edgar Rice Burroughs in his Tarzan of the Apes series tapped into similar anxieties about the eruption of foreign elements into a homogeneous culture Turning to the last decades of the twentieth century Berglund considers how treatments of cannibalism variously perpetuated or subverted racist sexist and homophobic ideologies rooted in earlier times Fannie Flagg s novel Fried Green Tomatoes invokes cannibalism to new effect offering an explicit critique of racial gender and sexual politics an element to a large extent suppressed in the movie adaptation Recurring motifs in contemporary Native American writing suggest how Western expansion has cannibalistically laid the seeds of its own destruction And James Dobson s recent efforts to link the pro life agenda to allegations of cannibalism in China testify still further to the currency and pervasiveness of this powerful trope By highlighting practices that preclude the many from becoming one these representations of cannibalism Berglund argues call
