Imagine printing photos right from your desktop. The BJC-8200 Color Bubble Jet Photo Printer delivers spectacular 1200 x 1200 dpi results with ease and finesse. In fact, this incredible desktop printer is one of the most advanced in the world, featuring numerous technological breakthroughs that enable you to output photos that are simply amazing.

The ultimate way to bring your photos to life.

The BJC-8200 photo printer features 1536 nozzles per printhead, making ink application faster, more precise and detailed. This MicroFine Droplet Technology actually applies ink drops just 4 picoliters in size. So whites are whiter, details and highlights are more brilliant, and complex, multilevel gradations are now a reality. The built-in Image Optimizer smooths jagged edges, sharpens lines and borders and enhances overall clarity and quality. And the Photo Optimizer automatically cleans up highlights, details, contrast and shadowing without altering your original photo. So photos become bolder and more distinct—just how you intended.

So advanced, yet so easy to use.

The BJC-8200 photo printer was designed with many advanced features that make printing easier than ever. It features the Canon Think Tank System™—an intelligent ink-management system that automatically eliminates ink waste and saves you money. It uses individual ink tanks for each color, so you replace only the color that runs out. And its unique optical low-ink sensor alerts you when ink is low, so you can pop in another tank just at the right time. You can also swap the ink tank with Canon's optional IS-52 Color Image Scanner Cartridge and instantly turn your printer into a 600 dpi color sheetfed scanner. The BJC-8200 photo printer is also outfitted with a convenient USB port for easy connection to any USB-compatible Mac® or PC.
