The classics in translation Frank S. Smith, 1968 **Classics in Translation** Herbert Marshall Howe, Paul Lachlan MacKendrick, 1952 *Translations from the Classics Into English from Caxton to Chapman, 1477-1620* Henry Burrowes Lathrop, 1933 **Translation Classics in Context** Paul F. Bandia, James Hadley, Siobhán McElduff, 2024-07-31

Translation Classics in Context carefully considers the relationship between translation and the classics. It presents readers with revelatory and insightful case studies that investigate translations produced as part of nexuses of colonial resistance and liberation across Africa and in Ireland; translations of novels and folklore collections that influence not just other fictions but stage productions and entire historical disciplines; struggles over Ukrainian and Russian literature and how it is shaped and transferred; and the role of the academy and the curriculum in creating notions of classic translations. Along the way it covers oral poetry, saints, scholars, Walter Scott and Jules Verne, not to mention Leo Tolstoy and the Corpse Bride making her way from folklore to Frankenstein and into the world of Disney animation. Contributors are all leading scholars, and the book is accessible and engaging, assuming no specialist knowledge. This Is a Classic Regina Galasso, 2023-01-26. This book illuminates the overlooked networks that contribute to the making of literary classics through the voices of multiple translators without whom writers would have a difficult time reaching a global audience. It presents the work of some of today's most accomplished literary translators who translate classics into English or who work closely with translation in the US context and magnifies translators' knowledge, skills, creativity, and relationships with the literary texts they translate: the authors whose works they translate and the translations they make. The volume presents translators' expertise and insight on how classics get defined according to language pairs and contexts. It advocates for careful attention to the role of translation and translators in reading choices and practices, especially regarding literary classics.

Translation and the Classic Alexandra Lianeri, Vanda Zajko, 2008-08-21. This collection of 18 essays, including one by Nobel Prize-winning author J. M. Coetzee, explores the fascinating and nuanced relationship between translation and the classic text.

Translation and the Classic Paul F. Bandia, James Hadley, Siobhán McElduff, 2024-02-08. Through a range of accessible and innovative chapters dealing with a spectrum of genres, authors, and periods, this volume seeks to examine the complex relationship between translation and the classic and how translation makes and remakes and sometimes invents classic works for new audiences across space and time. *Translation and the Classic* is the first volume in a two-volume series examining how classic works fare in translation, how translation is different when it engages with classic texts, and how classic texts can be shaped, understood in new ways, or even created through the process of translation. Although other collections have covered some of this territory, they have done so in partial ways or with a focus on Greek, Roman, and Arabic texts or translations. This collection alone takes the reader from 1000 BCE up to the digital age in a sequence of chapters that encompass areas including philosophy, children's literature, and pseudotranslation.

It asks us to consider translation not just as a mechanism of distribution but as one of the primary ways that the classic is created and understood by multiple audiences This book is essential reading for those taking Translation Studies courses at the senior undergraduate and postgraduate level as well as courses outside Translation Studies such as Comparative Literature and Literary Studies

twelve new essays intended for students scholars and other readers of Mary Shelley's novel the volume explores classical receptions in some of Frankenstein's most important scenes sources and adaptations Not limited to literature the chapters discuss a wide range of modern materials including recent films like Alex Garland's *Ex Machina* and comics like Matt Fraction's and Christian Ward's *Ody C* in relation to ancient works including Hesiod's *Theogony* Aeschylus's *Prometheus Bound* Ovid's *Metamorphoses* and Apuleius's *The Golden Ass* All together these studies show how Frankenstein a foundational work of science fiction brings ancient thought to bear on some of today's most pressing issues from bioengineering and the creation of artificial intelligence to the struggles of marginalized communities and political revolution This addition to the comparative study of classics and science fiction reveals deep similarities between ancient and modern ways of imagining the world and emphasizes the prescience and ongoing importance of Mary Shelley's immortal novel As Frankenstein turns 200 its complex engagement with classical traditions is more significant than ever
