Jacobs, Philip Smith**

Clifford Geertz Culture Custom And Ethics:

Clifford Geertz Fred Inglis, 2000-07-26 This is the first full scale study of the work of Clifford Geertz who is one of the best known anthropologists in the world today In a lively and accessible introduction to his work Fred Inglis situates Geertz's thought in the context of his life and times reviewing its forty year range The book begins with a chapter long biography and places Geertz in the anthropological tradition from which he broke so decisively This break was inspired by the work of Wittgenstein and Kenneth Burke who provided Geertz with the lead to construct his theory of symbolic action This theory was vigorously at odds with the dominant idiom of scientific inquiry in the human sciences and since then Geertz has led the practice of these sciences in quite a different direction Geertz's progress is charted in detail by his field work in Java Bali and Morocco as well as his work in the Institute for Advanced Study in Princeton His two remarkable collections of essays the *Interpretation of Cultures* and *Local Knowledge* are enthusiastically summarized and criticized The celebrated and controversial essay on the Balinese cock fight is defended against its critics and in an extended conclusion his account of the Balinese Theatre State is as Geertz suggests proposed as a more adequate method for the combined study of culture and politics than the professionals routine application of heavy handed concepts such as power and status This book provides a comprehensive overview of one of the most gripping lucid and entertaining of contemporary thinkers and in so doing makes anthropology once again the popular science It will be of great interest to anthropologists and to students and scholars of cultural studies

Clifford Geertz Fred Inglis, 2000 Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume *Theory in Social and Cultural Anthropology An Encyclopedia* Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at

the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

Culture. A Philosophical Perspective Martine Lejeune ,2016-12-12 This book attempts to grant a clear insight into the problem of culture Thinking about culture we are faced with the inevitable and apparently insuperable problem of how to study culture in the absence of a consensual definition of this notion For several reasons the anthropologists Claude L vi Strauss and Clifford Geertz provide an ideal starting point for tackling this issue Firstly both graduated in philosophy before turning to anthropology Secondly the linguistic model based approach they initiated is founded on the general belief that language is a feature which all men have in common And thirdly when taken together the conclusions reached by L vi Strauss and Geertz which contradict one another yield a clear view on the conceptual complexity of culture

Algorithmic Culture Before the Internet Ted Striphas,2023-06-06 Today algorithms exercise outsized influence on cultural decision making shaping and even reshaping the concept of culture How were automated computational processes empowered to perform this work What forces prompted the emergence of algorithmic culture Algorithmic Culture Before the Internet is a history of how culture and computation came to be entangled From Cambridge England to Cambridge Massachusetts by way of medieval Baghdad this book pinpoints the critical junctures at which algorithmic culture began to coalesce in language long before it materialized in the technological wizardry of Silicon Valley Revising and extending the methodology of keywords Ted Striphas examines changing concepts and definitions of culture including the development of the field of cultural studies and stresses the importance of language in the history of technology Offering historical and interdisciplinary perspective on the relationship of culture and computation this book provides urgently needed context for the algorithmic injustices that beset the world today

Beyond Writing Culture Olaf Zenker,Karsten Kumoll,2010-05-01 Two decades after the publication of Clifford and Marcus volume Writing Culture this collection provides a fresh and diverse reassessment of the debates that this pioneering volume unleashed At the same time Beyond Writing Culture moves the debate on by embracing the more fundamental challenge as to how to conceptualise the intricate relationship between epistemology and representational practices rather than maintaining the original narrow focus on textual analysis It thus offers a thought provoking tapestry of new ideas relevant for scholars not only concerned with the ethnographic Other but with representation in general

The Beauty of Convention Marija Knežević,Aleksandra Nikcevic-Batricevic,2014-06-02 This volume addresses the beauty of convention not in an attempt to recapitulate established values as luckily in literature and culture there are not absolute beauties that serve everyone and always but as an aesthetic appreciation of form as a keeper of meaning and as an ethical post cynical metadiscourse on human dependence on symbolic interaction and generic conventions Looking into the artificial invented side of this concept the book addresses such questions as What is beauty by virtue of convention How does convention generate beauty How does it happen that a convention acquires a normative force What is the nature and the logic of situation that leads to the arbitrary conventions

How are alternative conventions made What is inertia and what real joy or belief ensures the stability of convention Is there a natural correctness that enables the stability of convention How does convention determine linguistic meanings Can interpretation avoid convention Without imposing one definition onto the reader this volume presents an understanding of the stability of convention and how it generates beauty by employing numerous contemporary reading strategies and diverse cultural ethnic gender psychological and textual perspectives Primary focus is given to various literary texts ranging from early classics to modernism and contemporary writing though there are also discussions on other forms of human expressions such as music dance and sculpture This book will contribute to the on going discussion about the ambiguities inherent in the concept of convention and thus stimulate intellectual confrontation and circulation of ideas within the fields of literature and culture

The Oxford Handbook of Cultural Sociology Jeffrey C. Alexander, Ronald Jacobs, Philip Smith, 2010-01-01 Since sociologists returned to the study of culture in the past several decades a pursuit all but anathema for a generation cultural sociology has emerged as a vibrant field Edited by three leading cultural sociologists The Oxford Handbook of Cultural Sociology presents the full theoretical and methodological vitality of this critically significant new area The Handbook gathers together works by authors confronting the crucial choices all cultural sociologists face today about analytic priorities methods topics epistemologies ideologies and even modes of writing It is a vital collection of preeminent thinkers studying the ways in which culture society politics and economy interact in the world Organized by empirical areas of study rather than particular theories or competing intellectual strands the Handbook addresses power politics and states economics and organization mass media social movements religion aesthetics knowledge and health Allowing the reader to observe tensions as well as convergences the collection displays the value of cultural sociology not as a niche discipline but as a way to view and understand the many facets of contemporary society The first of its kind The Oxford Handbook of Cultural Sociology offers comprehensive and immediate access to the real developments and disagreements taking place in the field and deftly exemplifies how cultural sociology provides a new way of seeing and modeling social facts This groundbreaking readable handbook is the first single volume to attempt to unify its diverse contemporary applications in a wide range of traditional genres of sociology Valuable for college universities and libraries supporting undergraduate and graduate degree programs in sociology and history CHOICE

[A Dictionary of Critical Theory](#) Ian Buchanan, 2018-02-09 Containing over 750 in depth entries this is the most wide ranging and up to date dictionary of critical theory available This authoritative guide covers the whole range of critical theory including the Frankfurt school cultural materialism cultural studies gender studies film studies literary theory hermeneutics historical materialism and socio political critical theory Entries clearly explain complex theoretical discourses such as Marxism psychoanalysis structuralism deconstruction and postmodernism There are biographies of hundreds of important figures in the field with feature entries for those who have heavily influenced areas of the discipline such as Derrida and Deleuze This new edition of the dictionary has been updated to

extend coverage of diaspora race and postcolonial theory including key authors such as C L R James and Paul Gilroy and of queer and sexuality studies including notable figures such as Eve Kosofsky Sedgwick Fully revised to keep up to date with this diverse field this new edition expands the coverage to include entries such as hyperobject and transgender Entries are fully cross referenced and many contain further reading suggestions Covering all aspects of critical theory from globalization and race studies to queer theory and feminism this multidisciplinary A Z is essential for students in the humanities and social sciences

Cultural Theory: The Key Thinkers Andrew Edgar, Peter Sedgwick, 2005-07-28 Featuring over eighty essays Cultural Theory The Key Thinkers is a seminal guide to the literary critics sociologists historians artists philosophers and writers who have shaped culture and society and the way in which we view them Ranging from Arnold to Le Corbusier from Eco to Marx the entries offer a lucid analysis of the work of influential figures in the study of cultural theory making this the perfect introduction for the student and general reader alike

Perceptions of Self, Power, & Gender Among Muslim Women Sarwar Alam, 2018-02-15 This book analyzes perceptions of self power agency and gender of Muslim women in a rural community of Bangladesh Rural women s limited power and agency has been subsumed within the male dominated Islamic discourses on gender However many Muslim women have their own alternative discourses surrounding power and agency Sarwar Alam intertwines an exploration of these power dynamics with reading of the Qur an and Hadith and analyzes how Muslim women s perception of power and gender are linked to their relationship with religion

Media and Cultural Theory James Curran, David Morley, 2007-05-07 Containing new thinking and original surveys from leading international scholars this ideal course reader uses contemporary media film texts and case studies to address key issues and debates within media and cultural studies the world over

Company Towns Neil White, 2012-01-01 Neil White challenges the common interpretation of company towns as powerless dependant communities by exploring how these settlements were altered at the local level through human agency missteps and chance

Culture and Politics Jan-Erik Lane, Uwe Wagschal, 2013-06-17 This concise accessible text presents an overview of the relevance of culture for politics Culture figures prominently in the theories of the great classics such as Marx Durkheim and Weber Recently the cultural approach to politics has developed quickly and the concept of political culture has played a role in these developments particularly given the emergence of large scale survey research into political value orientations Seeking to outline this rapid development the book is divided into three sections Section I of the book discusses the relevance of cultural perspectives to political analysis including discussion of the most significant concepts and methods Section II looks at the core elements of political culture tradition ethnicity and religion Section III examines emerging research avenues and opportunities including social capital value orientations in the postmodern world newer formulations of political culture such as gender and sexuality and the influence of the environment Drawing on a wealth of examples and a comprehensive analysis of comparative data this textbook is essential reading for all students of political culture research methods political sociology and comparative politics

The State as Cultural Practice Mark Bevir, R. A. W. Rhodes, 2010-04-08 The State as Cultural Practice offers an original theory of the state In place of the institutional state Bevir and Rhodes argue for the stateless state or for a focus on the contingent beliefs and practices of individuals In short they put the people back into the study of the state *Public and Private Spaces of the City* Ali Madanipour, 2003-09-02 This book sets out to find out how and why social space is subdivided in this way and to explore the nature of each realm as defined by spatial and symbolic boundaries *Working with Diversity in Youth and Community Work* Sangeeta Soni, 2011-09-09 This book focuses on the nature of cross cultural practice an inevitable aspect of working as a youth and community worker in multicultural Britain today It enables students to understand how cross cultural dynamics can set the tone of their relationships with their clients and helps them to understand how individual action and some processes in society can contribute to the marginalisation of others This book looks at the processes involved in the everyday relationships forged through practice and how these can inadvertently influence the dynamics of oppression through lack of self awareness or lack of awareness of others in society **Redefining Reason** Bradley W. Patterson, 2018-11-16 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional nonliterate societies The issue was a question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species Redefining Reason offers the first in depth critical history of that debate and its repercussions in modern Western thought and society Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality a chapter itself in or in an aspect of a much larger story the story of what may be appropriately referred to as the hyperrationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers *Frege* Harold W. Noonan, 2013-07-08 This new book offers a comprehensive and accessible introduction to Frege s remarkable philosophical work examining the main areas of his writings and demonstrating the connections between them Frege s main contribution to philosophy spans philosophical logic the theory of meaning mathematical logic and the philosophy of mathematics The book clearly explains and assesses Frege s work in these areas systematically examining his major concepts and revealing the links between them The emphasis is on Frege s highly influential work in philosophical logic and the theory of meaning including the features of his logic his conceptions of object concept and function and his seminal distinction between sense and reference Frege will be invaluable for students of the philosophy of language philosophical logic and analytic philosophy *Fanon* Nigel C. Gibson, 2017-04-26 Frantz Fanon was a French psychiatrist turned Algerian revolutionary of Martinican origin and one of the most important and controversial thinkers of the postwar period A veritable intellect on fire Fanon was a radical thinker with original theories on

race revolution violence identity and agency This book is an excellent introduction to the ideas and legacy of Fanon Gibson explores him as a truly complex character in the context of his time and beyond He argues that for Fanon theory has a practical task to help change the world Thus Fanon s untidy dialectic Gibson contends is a philosophy of liberation that includes cultural and historical issues and visions of a future society In a profoundly political sense Gibson asks us to reevaluate Fanon s contribution as a critic of modernity and reassess in a new light notions of consciousness humanism and social change This is a fascinating study that will interest undergraduates and above in postcolonial studies literary theory cultural studies sociology politics and social and political theory as well as general readers

Right here, we have countless books **Clifford Geertz Culture Custom And Ethics** and collections to check out. We additionally pay for variant types and along with type of the books to browse.
