## **Climate Change The Indoor Environment And Health:**

*Climate Change, the Indoor Environment, and Health* Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Effect of Climate Change on Indoor Air Quality and Public Health, 2011-10-01 The indoor environment affects occupants health and comfort Poor environmental conditions and indoor contaminants are estimated to cost the U S economy tens of billions of dollars a year in exacerbation of illnesses like asthma allergic symptoms and subsequent lost productivity Climate change has the potential to affect the indoor environment because conditions inside buildings are influenced by conditions outside them Climate Change the Indoor Environment and Health addresses the impacts that climate change may have on the indoor environment and the resulting health effects It finds that steps taken to mitigate climate change may cause or exacerbate harmful indoor environmental conditions The book discusses the role the Environmental Protection Agency EPA should take in informing the public health professionals and those in the building industry about potential risks and what can be done to address them The study also recommends that building codes account for climate change projections that federal agencies join to develop or refine protocols and testing standards for evaluating emissions from materials furnishings and appliances used in buildings and that building weatherization efforts include consideration of health effects Climate Change the Indoor Environment and Health is written primarily for the EPA and other federal agencies organizations and researchers with interests in public health the environment building design construction and operation and climate issues

*The Indoor Environment Handbook* Philomena M. Bluyssen, 2009-12 Ensuring that buildings are healthy and comfortable for their occupants is a primary concern of all architects and building engineers This highly practical handbook will help make that process more efficient and effective
