Inmunología clínica del perro Dr. Fernando Fariñas Guerrero, 2019-07-03 La inmunología es una ciencia bien desarrollada conociéndose mucho sobre la anatomía y la fisiología del sistema inmunitario tanto de humanos como aunque en menor grado de muchas especies animales entre las que se encuentran perros y gatos El ritmo al que avanza esta ciencia y su aplicación a la práctica clínica diaria está revolucionando el diagnóstico y el tratamiento de las enfermedades que afectan a este complejo sistema Si reflexionamos detenidamente comprobaremos que la inmensa mayoría sino todos los casos con los que nos enfrentamos diariamente tienen un componente inmunológico fundamental infecciones alergias autoinmunidades cuadros inflamatorios agudos y crónicos vacunaciones y reacciones a estas cirugías tumores etc constituyen el caballo de batalla cotidiano de los veterinarios de pequeños animales Actualmente no existe una obra especializada en inmunología clínica canina que trate los temas ni con la profundidad ni con la orientación eminentemente clínica y práctica que se merecen Por lo tanto el criterio para la realización de este manuscrito sobre

Inmunología clínica del perro ha sido proporcionar al profesional veterinario conocimientos actualizados y aplicados a su práctica clínica diaria. En la confección de este libro han participado especialistas clínicos de reconocido prestigio en sus respectivos campos de especialización por lo que la calidad y practicidad del conocimiento vertido en esta obra están plenamente garantizados. El índice temático consta de 13 módulos que incluyen 38 capítulos dedicados a las distintas enfermedades y síndromes inmunológicos con los que nos enfrentamos más frecuentemente en la clínica del día a día. Enfermedades autoinmunes que afectan a distintos órganos y sistemas, inmunodeficiencias céntricas del sistema inmunitario y los nuevos tratamientos de vanguardia de dichas enfermedades. Terapia celular constituyen el grueso de este libro que como decimos ha sido desarrollado desde un punto de vista eminentemente práctico elaborado por clínicos y para los clínicos. Si al final del texto el lector sigue experimentando hambre de inmunología habremos conseguido el propósito perseguido. Esperamos que este libro convenga a los clínicos de que la aplicación de la inmunología en su quehacer diario les proporcionar una herramienta fundamental para entender y manejar mejor a los pacientes afectados por alguna enfermedad de base inmunológica. Personalmente llevo años predicando el conocimiento de esta disciplina en conferencias, cursos, seminarios y congresos y mi objetivo ha sido y será siempre situar a la inmunología clínica en el lugar que se merece dentro de la medicina veterinaria, lugar que ya fue conquistado hace muchos años en medicina humana. Deseamos que este libro no solo sea una guía clínica que aporte valor añadido sino también una oportunidad para reconciliarse con esta disciplina tan necesaria.

Allergens and Allergen Immunotherapy, Second Edition Richard F. Lockey, 1998-09-30. Researchers and clinicians relate their experience with immunotherapy using antigens which has remained important throughout the enormous advances in immunology over the past 30 years. Among the topics are a historical perspective, outdoor and indoor allergens, venoms, the preparation and administration of extracts and reactions and other adverse effects. Housing and Asthma Stirling Howieson, 2005-02-16. Asthma is on the rise in a number of countries in this volume. Howieson asks what role the built environment has to play and what the construction industry can do to either slow the increase or reverse the trend. Based on the findings of a six-year research project, this book considers all aspects of housing to develop new strategies for dealing with the asthma pandemic in Britain and beyond. With the focus on the design and use pattern of our dwellings, the book looks at tackling the problems inherent in existing housing as well as forging guiding principles for the design of new dwellings together with a financial assessment of the proposals.
