The Encyclopedia of Police Science Jack R. Greene,2007 First published in 1996 this work covers all the major sectors of policing in the United States Political

events such as the terrorist attacks of September 11 2001 have created new policing needs while affecting public opinion about law enforcement This third edition of the Encyclopedia examines the theoretical and practical aspects of law enforcement discussing past and present practices

The Rich Get Richer and the Poor Get Prison Jeffrey Reiman, Paul Leighton, 2016-11-10 For nearly 40 years this classic text has taken the issue of economic inequality seriously and asked Why are our prisons filled with the poor Why aren't the tools of the criminal justice system being used to protect Americans from predatory business practices and to punish well off people who cause widespread harm The Rich Get Richer shows readers that much that goes on in the criminal justice system violates citizens sense of basic fairness It presents extensive evidence from mainstream data that the criminal justice system does not function in the way it says it does nor in the way that readers believe it should The authors develop a theoretical perspective from which readers might understand these failures and evaluate them morally and they do it in a short and relatively inexpensive text written in plain language New to this edition Presents recent data comparing the harms due to criminal activity with the harms of dangerous but not criminal corporate actions Presents new data on recent crime rate declines which are paired with data on how public safety is not prioritized by the U S government Updates statistics on crime victimization wealth and discrimination plus coverage of the increasing role of criminal justice fines and fees in generating revenue for government Updates on the costs to society of white collar crime Updates and deepened analysis of why fundamental reforms are not undertaken Streamlined and condensed prose for greater clarity

Fundamentals of Criminology Kelly Frailing, Dee Wood Harper, 2013-07-19 Fundamentals of Criminology New Dimensions delivers a comprehensive and comprehensible introduction to the discipline of criminology As the title implies it covers the fundamentals of criminology including the major theories of crime causation classic and current empirical tests of those theories the strengths and weaknesses and the policy implications of each It also describes the types of crime and provides current rates trends over time and theoretical explanations for each as well as a discussion of characteristics of offenders and victims What sets this book apart from the many other fine criminology textbooks out there is its inclusion of some new dimensions of criminology The new dimensions in this book include but are not limited to research designs in criminology new theories of crime causation crime in different contexts connections between criminology and criminal justice policy and a number of lingering issues for both disciplines In combination with the fundamentals these new dimensions are designed to provide readers with the richest most complete understanding of what crime is how much of it there is what causes it and what to do about it as well as the ability and desire to pose important questions for the future of both criminology and criminal justice The authors have produced a comprehensive readable and thoroughly interesting text covering the topic of sociological criminology Yes there are a plethora of texts in this area but Harper and Frailing's addition to the field has a number of features moving it ahead of the competition There is in depth coverage of emerging areas in crime including cybercrime and human trafficking as well as an excellent section on how disasters augment the opportunities

for crime by hindering capable guardianship The authors arguments for evidence based crime prevention strategies and public policies are compelling Fundamentals of Criminology is worthy of the closest consideration by instructors teaching undergraduate criminology courses Jay Corzine professor of sociology University of Central Florida

Federal Probation,2001

21st Century Criminology: A Reference Handbook J. Mitchell Miller, 2009-08-06 Criminology has experienced tremendous growth over the last few decades evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U S and internationally Evolutionary paradigmatic shift has accompanied this surge in definitional disciplinary and pragmatic terms Though long identified as a leading sociological specialty area criminology has emerged as a stand alone discipline in its own right one that continues to grow and is clearly here to stay Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes effects and responses to crime 21st Century Criminology A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths The individual chapters have been designed to serve as a first look reference source for most criminological inquires Both connected to the sociological origins of criminology i e theory and research methods and the justice systems response to crime and related social problems as well as coverage of major crime types this two volume set offers a comprehensive overview of the current state of criminology From student term papers and masters theses to researchers commencing literature reviews 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology This two volume set in the SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon detail or density as a journal article or research handbook chapter 100 entries or mini chapters highlight the most important topics issues questions and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century Curricular driven chapters provide students with initial footholds on topics of interest in researching term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Comprehensive in coverage major sections include The Discipline of Criminology Correlates of Crime Theories of Crime Justice Measurement Research Types of Crime and Crime the Justice System The contributor group is comprised of well known figures and emerging young scholars

who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers students and general readers alike with fundamental and detailed information for each topic Uniform chapter structure makes it easy for students to locate key information with most chapters following a format of Introduction Theory Methods Applications Comparison Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access wherever they may be **Regulating**

Undercover Law Enforcement: The Australian Experience Brendon Murphy, 2021-03-05 This book examines the way in which undercover police investigation has come to be regulated in Australia Drawing on documentary and doctrinal legal analysis this book investigates how in the space of a single decade Australian law makers set out to regulate one of the most difficult aspects of police undercover investigation In so doing the Australian experience represents a paradigm model And yet despite its success it is a system of law and practice that has a dark side a model of investigation to relies heavily on activities that are unlawful in the absence of authorisation It is a model that is as much concerned with the surveillance and control of police as it is with suspected criminal conduct The book aims to locate the Australian experience in comparative perspective with other major common law jurisdictions the United Kingdom Canada and New Zealand with a view to contrast strengths similarities and weaknesses of these models It is argued that the Australian model at the pragmatic level offers a highly successful model for regulatory structure and practice providing a significant model for successful regulation At the same time the model that has been introduced raises important questions about how and why the Australian experience evolved in the way that it did and the implications this has for the relationship between citizen and state the judiciary and the executive and broader questions about the protections offered by rights discourse and jurisprudence This book aims to document the law policy and practices that shape undercover investigations In so doing it aims to not only articulate the way in which the law regulates these activities but also to move on to consider some of the fundamental questions linked to undercover investigations how did regulation happen By what means of regulation What are the driving policy issues that give this field of law its particular complexion What are the implications Who gains and who loses by which means of power The book offers unique insights into a largely unknown aspect of modern covert policing identifying a range of practices the legal framework controversies and powers By locating these practices in a rich theoretical context informed by risk and governmentality scholarship this book offers a legal and theoretical explanation of one of the most controversial forms of policing *Criminology* Gregg Barak, 2009-09-16 *Criminology An Integrated Approach* is the first criminology textbook to provide an integrated perspective on the developing global and historical relations that unite the studies of criminology criminologists criminal justice justicians and crime crime control in the 21st century In order to achieve this integration the book is divided into three parts Part I a unifying analysis of crime and crime control does three things First the studies of criminology and criminal justice are reunited in the context of globalization Second the official and unofficial forms of crime

and criminal behavior are examined domestically and globally Third unlike most criminology texts theories are also used to explain the administration of criminal justice the behavior of law enforcement and crime control as well as the policies of sentencing and punishment Part II explaining criminal behavior and crime outlines the changing historical conditions of criminological inquiry and provides detailed overviews of the various contributions made from economics and law biology psychology and sociology These criminological theories are also subject to a critique based on the partialities of most of these explanations and on the need for developing integrated explanations Part III integrating criminological strands is divided between presenting elaborations of contemporary criminological integrations that transcend disciplinary boundaries and elaborating on both domestic and international policies of crime reduction and justice enhancement in an age of globalization

Mental Health, Neurodiversity, and Criminal Justice Melanie Clark Mogavero, 2025-06-25 This book is a critical and thorough examination of the relationship between the criminal justice and mental health systems The chapters cover a wide range of populations focusing on those with neurodevelopmental disabilities specifically autism and intellectual disability mental illnesses such as post traumatic stress disorder and schizophrenia substance use disorders and juveniles This book covers the entire criminal justice process from initial contact police questioning the court system community and custodial correctional systems and the forensic mental health system Specific topics addressed include community interactions and crisis intervention comprehension of Miranda warnings competency to stand trial eyewitness identification procedures admissibility of expert testimony defenses of legal responsibility community corrections and ethical concerns with incarceration and eligibility for capital punishment This book also covers the history and development of the criminal justice juvenile justice and mental health systems to contextualize modern day policies and practices With student friendly features current terminology inclusive language and key findings for criminal justice practitioners this book serves as both a textbook and extensive reference for courses and for those seeking to learn more about these diverse populations and to have a positive impact The content has international implications

Enhancing Urban Safety and Security

Un-Habitat, 2012-08-21 Enhancing Urban Safety and Security addresses three major threats to the safety and security of cities crime and violence insecurity of tenure and forced evictions and natural and human made disasters It analyses worldwide trends with respect to each of these threats paying particular attention to their underlying causes and impacts as well as to the good policies and best practices that have been adopted at the city national and international levels in order to address these threats The report adopts a human security perspective concerned with the safety and security of people rather than of states and highlights issues that can be addressed through appropriate urban policy planning design and governance
