Ackerman, Ian Ayres, 2008-10-01

In this provocative book two leading law professors challenge the existing campaign reform agenda and present a new initiative that avoids the mistakes of the past. Bruce Ackerman and Ian Ayres build on the example of the secret ballot and propose a system of secret donation booths for campaign contributions. They unveil a plan in which the government provides each voter with a special credit card account containing fifty Patriot dollars for presidential elections. To use this money citizens go to their local ATM machine and anonymously send their Patriot dollars to their favorite candidates or political organizations. Americans are free to make additional contributions but they must also give these gifts anonymously. Because candidates cannot identify who provided the funds it will be much harder for big contributors to buy political influence. And the need for politicians to compete for the Patriot dollars will give much more power to the people. Ackerman and Ayres work out the operating details of their plan, anticipate problems, design safeguards, suggest overseers, and show how their proposals satisfy the most stringent constitutional requirements. They conclude with a model statute that could serve as the basis of a serious congressional effort to restore Americans' faith in democratic politics.

From My Lips to Your Ears Modupe Edeoga, 2012-06-20

You are preparing to come to the United States. You have never been to the United States before. You have no idea what to expect. All you know is what you have heard from people who might or might not have been to the States, what you have heard in the media, or what you have seen in movies. You are excited, anxious, and/or overwhelmed. America is the land of opportunities; you are certain about that. But you do not know how you will transition into the country and understand the culture. You recently moved to the United States and are still not sure what you need to do to settle into the community. You are beginning to see that there are things you would like to understand or learn that will ease your transition. You have a family member or friend that is coming to the United States for the first time. They are excited. They have great expectations. You would love to help them understand the different aspects of the culture and what to expect. You are staff in the international students office of a university. You want to help your new students settle in. There are some things you know how to do to help them. There are other things you have no idea how to relate to and cannot help with. You are an educationUSA advisor. You help students that are going to study in the United States. After helping them prepare for their tests and gaining admissions, they are ready to travel. They have lots of questions. You want a resource that will help them prepare for their trip and their life in the United States. My name is Modupe Edeoga. I reside in Chicago with my husband Ndubuisi and three children. Twelve years ago I came to the United States from Nigeria and was in the same boat as many of you reading this book. I was excited at the opportunity to go to the United States. I didn't know much about the United States other than anecdotes I had heard. I earned my Masters in Public Administration here and will be graduating with my doctorate degree in Organizational Psychology in September. I have worked in the United States in the educational sector, public sector, and the non-profit sector. I have mentored a number of international students. Based on my experience, I have written this book to help make navigating your life in the United States easier.

Karger,2005-09-01 An eye opening read in the school of Barbara Ehrenreich s Nickel Dimed shines a bright light on the economy s darker side Publishers Weekly starred review Drive through a low income neighborhood and you re likely to see streets lined with pawnshops check cashers rent to own stores payday and tax refund lenders auto title pawns and buy here pay here used car lots We re awash in alternative financial services directed at the poor and those with credit problems Howard Karger describes this world as an economic Wild West where just about any financial scheme that s not patently illegal is tolerated Taking a hard look at this fringe economy Karger shows that what seem to be small independent storefront operations are actually part of a fully formed parallel economy dominated by a handful of well financed corporations subject to little or no oversight with increasingly strong ties to mainstream financial institutions It is a hidden world Karger writes

where a customer's economic fate is sealed with a handshake, a smile, and a stack of fine print documents that would befuddle many attorneys. Filled with heartbreaking stories of real people trapped in perpetual debt, *Shortchanged* exposes the deceptive practices that allow these businesses to prey on people when they are most vulnerable. Karger reveals the many ways this industry has run amok, ruining countless people's lives, and shows that it's not just the poor but more and more maxed-out middle class consumers who fall prey to these devious schemes. Balancing compassion with a realistic awareness of the risks any business faces in working with an economically distressed clientele, Karger details hard-headed, practical recommendations for reforming this predatory industry.
