Crime, Bodies and Space Miriam Tedeschi,2019-12-12 With cities increasingly following rigid rules for designing out crime and producing spaces under surveillance this book asks how information shapes bodies space and ultimately policymaking In recent years public spaces have changed in Western countries with the urban realm becoming an ever more monitored privatised homogeneous and aseptic space that has lost its character uniqueness and diversity in the name of security This underpins precise moral and political choices in terms of what a space should be how it can be used and by whom These choices generate material consequences concerning urban inequality and freedom or otherwise of movement Based on ethnographic and autoethnographic explorations in London s criminal spaces this book illustrates how rules policies and moral values far from being abstract concepts are in fact material

Outlining the basis of a new urban information ethics the book both exposes and challenges how moral values and predefined categories are applied to and materially shape the movement of bodies in urban space with regard to crime and security policies Drawing on Gilbert Simondon s information theory and a wide range of work in urban studies geography and planning as well as in surveillance studies object oriented ontology and contemporary theoretical work on both materiality and affect the book provides a radically new perspective on urban space in general and crime and security in particular This book uses a balanced mix of theoretical concepts and empirical study to bring theory and practice together in an intertwining of ethnography and autoethnography This book will be of interest to students and scholars in the fields of urban studies urban geography sociology surveillance studies legal theory socio legal studies planning law environmental law and land law

Inside War Fabio Armao,2016-02-22 The post Cold War era was characterised by both the recurrence of state wars and the spread of forms of organised violence other than wars Asymmetric warfare between alliances led by the USA and groups of insurgents such as those witnessed in Afghanistan and Iraq coexist alongside domestic conflicts such as that of former Yugoslavia and more recently Libya and Syria and still other conflicts involving gangs mafias or narco traffickers The massive military industrial complexes conceived in the context of the threat of nuclear Armageddon are still there of course but they now coexist with irregular armies of insurgents carrying out massacres through the use of light weapons and improvised explosives devices This book oppose the idea that this situation prefigures the return to an anarchical pre political condition by assuming that new wars are rather the product of the blurring of the public private divide induced by the end of the Cold War together with globalisation As a consequence also the internal and external factors are blurred and ever more permeable and elusive is becoming even the border between war and crime Inside War goes beyond a state centered analysis and adopts an interdisciplinary and multilayered approach and is intended to foster the dialogue among researchers from different fields It places war at the core of analysis assuming that the reality of war is what we make of it and that the only insurmountable limit to our comprehension of war is our way of knowing and representing it Fabio Armao teaches courses in Politics and Globalisation Processes and Criminal Systems He has been Visiting Professor at Cornell University and co convenor of the Standing Group on Organized Crime European Consortium for Political Research Founding member of T wai Torino World Affair Institute he is also member of the Editorial Board of Global Crime His research interests and publications focus on international wars and geopolitics on violent non state actors and transnational organised crime and on urban security

Healthy, Resilient, and Sustainable Communities After Disasters Institute of Medicine,Board on Health Sciences Policy,Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges Healthy Resilient and Sustainable Communities After Disasters identifies and recommends recovery

practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in *Healthy Resilient and Sustainable Communities After Disasters* lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery *Healthy Resilient and Sustainable Communities After Disasters* calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities

Envisioning Sustainabilities Pierre McDonagh,Fiona Murphy,2016-09-23

This volume is a collection of essays considering the relationship between the social sciences and sustainability studies Contributions are drawn from a range of disciplines such as sociology anthropology both scholarly and applied political science and media studies It has been carefully edited to provide the reader with a range of commentaries to interrogate the evolution of sustainability imaginaries in contexts as varied as urban planning community gardens bread making sustainable food movements in Italy applied projects such as water projects in Bangladesh and disaster studies As such this is a book which ultimately argues for the value of the social sciences in considering one of the more urgent and complex topics of our time that of sustainability

Securing an Urban Renaissance Rowland Atkinson,Gesa Helms,2007-07-11 This collection adds weight to an emerging argument that policies to make cities better are inextricably linked to an attempt to pacify and regulate crime and disorder It provides discussions from a range of scholars examining policy connections that can be traced between social urban and crime policy and the wider processes of regeneration

Torkildsen's Sport and Leisure Management George Torkildsen,2005-05-06 For this new edition the book has been completely revised bringing the subject up to date in line with recent developments Key changes address issues surrounding government policy and public sector leisure provision the National Lottery global conditions such as the world economic climate and the European Union and communication and travel advances New content also covers play recreation leisure and the needs of people leisure trends planning and government the legacy of CCT and the introduction of Best Value management training and operational aspect of Leisure Recreation management Leisure and Recreation Management deals with the theory of leisure studies as well as the day to day practicalities of managing sport leisure and recreation facilities ensuring this book s continued success as a student textbook and a guide for the practitioner

Measuring Quality in Planning Matthew Carmona,Louie Sieh,2004-09-09 This book deals with one of the current major debates in planning how to measure the quality and

effectiveness of the output of the planning process It deals with issues of defining quality public sector management the use of indicators and the planning process Although case study material is drawn from UK practice this topic is universal and the authors include discussions of international practice and experience **Sustainable Communities and Urban Housing** Montserrat Pareja-Eastaway, Nessa Winston, 2016-12-08 Since the start of the twenty first century urban communities have faced increasing challenges in housing affordability with environmental issues causing additional concern It is clear that changes to urban housing are needed to enhance the resilience of cities and improve the economic social and physical well being of residents This book provides a comparative cross national perspective on urban housing and sustainability in Europe exploring the key barriers and drivers associated with sustainable urban development and community regeneration Country specific chapters allow for easy comparison with each summarizing how sustainable housing operates in the country in question before going on to discuss the key barriers and drivers at play This book brings a sustainability perspective to the comparative housing literature which frequently fails to integrate the social economic and environmental pillars of sustainability The book outlines many of the changes that professionals and residents will need to make to their practices and cultures in order to enhance housing resilience Students researchers and professionals with an interest in sustainable housing creation and regeneration will find this book an invaluable reference **Sustainability Policy, Planning and Gentrification in Cities** Susannah Bunce, 2017-12-04 Sustainability Policy Planning and Gentrification in Cities explores the growing convergences between urban sustainability policy planning practices and gentrification in cities Via a study of governmental policy and planning initiatives and informal community based forms of sustainability planning the book examines the assemblages of actors and interests that are involved in the production of sustainability policy and planning and their connection with neighbourhood level and wider processes of environmental gentrification Drawing from international urban examples policy and planning strategies that guide both the implementation of urban intensification and the planning of new sustainable communities are considered Such strategies include the production of urban green spaces and other environmental amenities through public and private sector and civil society involvement The resulting production of exclusionary spaces and displacement in cities is problematic and underlines the paradoxical associations between sustainability and gentrified urban development Contemporary examples of sustainability policy and planning initiatives are identified as ways by which environmental practices increasingly factor into both official and informal rationales and enactments of social exclusion eviction and displacement The book further considers the capacity for progressive sustainability policy and planning practices via community based efforts to dismantle exclusion and displacement and encourage social and environmental equity and justice in urban sustainability approaches This is a timely book for researchers and students in urban studies environmental studies and geography with a particular interest in the growing presence of environmental gentrification in cities **Leisure and Recreation Management** George Torkildsen, 2005

Leisure and Recreation Management is essential reading for anyone interested in exploring both the theory and the practicalities of managing leisure and recreational facilities

Community Planning Phil Heywood, 2011-05-06 This key planning textbook on designing healthy and sustainable communities informs planners about community life and the processes of planning and equips them with the essential knowledge and skills they need to organise change and improve the quality of urban living The author examines the impacts of social and economic change on community life and organization and explores ways in which these changes can be planned and managed Community planning is presented as a means to balance and integrate beneficial change with the maintenance of valued cultural traditions and life styles This involves bringing together fields of study and practice including urban and regional planning design communication housing community organization employment transport and governance Links drawn between personal values human activities physical spaces and societal governance assist this process of synthesis Establishing a common vocabulary to discuss planning for urban and regional planners including health planners and open space planners enables both students and practitioners to work with each other and with those for whom they provide services to create stronger healthier and more sustainable communities The aims and roles of community planning are explored and the key planning operations are explained including the phases and applications of community planning method the planning and location of community facilities the roles of design in shaping responsive community spaces and the capacity of different types of community governance to improve the relations between citizens and societies The book is organized into two main parts after the first three chapters have established the interests and scope of community planning the next six each moves from an account of issues and theoretical concerns through a review of case studies to summaries of leading practice This positive approach is intended to encourage readers to develop their own capacities for effective participation and action The concluding chapter draws together the contributions of preceding ones to demonstrate the integrity of the community planning process

Anglin, 2017-09-25 Growing local economies empowering communities revitalizing downtowns developing entrepreneurship building leadership and enhancing nonprofits you can achieve all these benefits and more with a comprehensive and strategic revitalization plan Chronicling the struggle of local revitalization as organizers move from trial and error to effective revitalization strategies Promoting Sustainable Local and Community Economic Development documents the current transformation in community revitalization from market based incentives to mixed strategies of public sector learning partnerships and community capacity Knowledge about the field and what works is growing but not always publicized and readily accessible This reference surveys the breadth of innovative place and people development practices presenting lessons and examples at a general and textured level putting information about innovative ways to change influence and improve the economic development process within easy reach Roland Anglin brings his unique vantage point to

the topic his experience as a practitioner and applied academic allowed him to see how community economic development practices grow over time in size scale and impact He highlights the difference between what is now termed community economic development CED and traditional local economic development practice specifically the priority placed on community involvement in economic development partnerships between the private sector and government The book includes case studies that demonstrate what has and has not worked in revitalization efforts as well as how active public and private sector partnerships have been the most effective in revitalization efforts A Resource Guide is included at the end of the book for readers who may want a more expansive understanding of community economic development

Building Vibrant Communities Chicago Policy Research Team,2016-05-19 This report explores the meaning of vibrancy in the context of the Chicago Housing Authority's neighborhood transformation efforts Over the course of five months the Chicago Policy Research Team at the University of Chicago has examined vibrancy through five different lenses the built environment civic society services and amenities the economy and housing policy From these perspectives we have asked questions such as how important is access to technology for educational success what role do religious spaces play in creating social networks and how can the design of a park foster a greater sense of community Our findings are aimed at informing the agency and its partners on how to cultivate vibrancy in Chicago's diverse neighborhoods not just by achieving specific metrics but also by affording Chicago residents a voice and sense of belonging

The Contributions of Specialized Institutes and Non-Governmental Organizations to the United Nations Criminal Justice Program M. Cherif Bassiouni,2023-08-28 The increase of crime at the national transnational and international levels has heightened concern in the international community and generated greater interest in international criminal justice policy Since the 1950s the United Nations has been developing the Crime Prevention and Criminal Justice Programme which was designed to respond to these concerns But United Nations resources and support for the programme have been limited notwithstanding the services and contributions of the Crime Prevention and Criminal Justice Branch As the United Nations celebrates its Fiftieth Anniversary it is fitting to have a book that describes the United Nations Crime Prevention and Criminal Justice Programme The information it contains highlights the significant contributions of a number of organizations whose work may not be sufficiently known outside the circles of scholars experts and professionals in the field of international criminal justice The book is thus also a deserving tribute to these organizations giving greater publicity to what they have contributed over the years with scant United Nations recognition Without these organizations and the active NGOs the United Nations would hardly have leave to claim part of what is now an important though still insufficient contribution to international criminal justice

Terrorism, Risk and the Global City Jon Coaffee,2016-03-16 First published in 2003 this account of the anti terrorist measures of London's financial district and the changes in urban security after 9 11 has been revised to take into account developments in counter terrorist security and management particularly after the terrorist attack in London on July 7th 2005 It makes a valuable addition to

the current debate on terrorism and the new security challenges facing Western nations Drawing on the post 9 11 academic and policy literature on how terrorism is reshaping the contemporary city this book explores the changing nature of the terrorist threat against global cities in terms of tactics and targeting and the challenge of developing city wide managerial measures and strategies Also addressed is the way in which London is leading the way in developing best practice in counter terrorist design and management and how such practice is being internationalized
