Hi there It s nice to present you once again with another hot issue of easyuni On 11 June this year we launched the unifrens social platform an extension to easyuni s existing vision of providing comprehensive and accurate information to students about colleges and universities This is another milestone in the history of easyuni as one of Asia s most popular education portals committed to helping students with their higher education plans unifrens is a social platform which allows students searching for universities and colleges with similar interests to connect with each other to help them make unbiased and community driven decisions about their higher education It also allows them to connect with students who are currently enrolled at universities who can tell them about their experiences about a particular city country university or a course unifrens is something we had been planning for a while to complement our current family of tools for students We always

knew that our users would love it as they want more community driven information instead of promotional content from universities and study abroad consultants I believe this feature will democratise the way information about specific courses countries or institutions is presented and this can only mean good news for students and their parents visitors as it helps them make more informed decisions about which course institution or country to pick Students can also pose questions to their groups which will be answered by experts and the community The feature is still in its beta stage but has gained massive traction with over 100 000 users already registered and assigned to groups Exciting isn't it The issue you're holding now has so much to offer as well So read every page and fill yourself with all the knowledge needed to make informed decisions about your higher education

Integrating Assessment into Early Language Learning and Teaching

Danijela Prošić-Santovac, Shelagh Rixon, 2019-08-07 The volume unites research and practice on integrating language learning teaching and assessment at preschool and early school age It includes chapters written by experts in the field who have studied some of the very youngest pre primary children through to those up to the age of 12 in a variety of private and state contexts across Europe The collection makes a much needed contribution to the subject of appropriate assessment for children with the focus of many chapters being classroom based assessment particularly formative assessment or the case for developing assessment skills in relation to even the youngest children As a whole the book provides useful case study insights for policymakers teacher educators researchers and postgraduate students with interest in or responsibility for how children are assessed in their language learning It also provides practical ideas for practitioners who wish to implement greater integration of assessment and learning in their own contexts
