Cancer How Worthwhile Is Non Curative Treatment:

Cancer: How Worthwhile is Non-Curative Treatment? Maurice L. Slevin, Teresa Tate, 2012-12-06 Cancer is a major issue in the provision of health care It is estimated that one in four people in developed countries are likely to develop it at some time As longevity steadily increases the incidence of malignant disease is expected to rise further Important advances in the control of cancer have taken place and curative treatment has improved notably in some of the rarer tumours particularly in children Advances in the more common cancers have been less marked although adjunctive systemic treatment and population screening are lowering mortality from the most prevalent cancer carcinoma of the breast Despite this progress complete control of malignant disease is still a long way off However our understanding of the molecular biology of cancer has increased enormously in recent years and the application of this knowledge holds considerable promise for developing new therapeutic strategies As for prevention the cause of most cancers is still poorly understood although it is clear that tobacco avoidance would prevent most lung cancers and several others Cancer is studied at many different levels molecular and cellular biology pathology in patients particularly clinical trials and prevention and populations epidemiology The psychosocial problems caused to patients and their families are being increasingly recognized and subjected to systematic study Workers in the field therefore range from basic scientists to epidemiologists from hospital specialists to community support teams Each needs to have at least some knowledge of the role the others play **Journal of the National Cancer Institute** ,1990 *Oxford Textbook of Oncology* David J. Kerr, Daniel G. Haller, Cornelis J. H. van de Velde, Michael Baumann, 2016-01-28 Written and edited by internationally recognised leaders in the field the new edition of the Oxford Textbook of Oncology has been fully revised and updated taking into consideration the advancements in each of the major therapeutic areas and representing the multidisciplinary management of cancer Structured in six sections the book provides an accessible scientific basis to the key topics of oncology examining how cancer cells grow and function as well as discussing the aetiology of cancer and the general principles governing modern approaches to oncology treatment The book examines the challenges presented by the treatment of cancer on a larger scale within population groups and the importance of recognising and supporting the needs of individual patients both during and after treatment A series of disease oriented case based chapters ranging from acute leukaemia to colon cancer highlight the various approaches available for managing the cancer patient including the translational application of cancer science in order to personalise treatment The advice imparted in these cases has relevance worldwide and reflects a modern approach to cancer care The Oxford Textbook of Oncology provides a comprehensive account of the multiple aspects of best practice in the discipline making it an indispensable resource for oncologists of all grades and subspecialty interests Cancer Immunotherapies: From Efficacy to Resistance Mechanisms Morten Hansen, Janin Chandra, Fernando Guimaraes, Nicolas Jacquelot, Yoshinobu Koguchi, Nathalie Labarriere, Ilaria Marigo, Lazar Vujanovic, 2022-06-29 Dr Koguchi receives funding from Tesaro a GSK company Bristol Myers
