Afterlife and Resurrection Beliefs in the Apocrypha and Apocalyptic Literature

Jan Age Sigvartsen, 2019-09-19 Jan A Sigvartsen seeks to examine the immense interest in life after death and speculation about the fates awaiting both the righteous and the wicked that proliferated in the Second Temple period. In this volume, Sigvartsen explores the Apocrypha and the apocalyptic writings in the Pseudepigrapha. He identifies the numerous afterlife and resurrection beliefs and presents an analysis that enables readers to easily understand and compare the wide-ranging beliefs regarding the afterlife that these texts hold. A careful reading of these resurrection passages, including passages appearing in Sirach, Maccabees, the Sibylline Oracles, and the Ezra texts, reveals that most of the distinct views on life after death, regardless of their complexity, show little evidence of systematic development relational to one another and are often supported by several key passages or shared motifs from texts that later became a part of the TaNaKh. Sigvartsen also highlights the factors that may have influenced the development of so many different resurrection beliefs, including anthropology, the nature of the soul, the scope of the resurrection, the number and function of judgments, and the final destination of the righteous and the wicked. Sigvartsen's study provides a deeper understanding of how the TaNaKh was read by different communities during this important period and the role it played in the development of the resurrection belief, a central article of faith in both Christianity and Rabbinic Judaism.

The Corinthian Dissenters and the Stoics

Albert V. Garcilazo, 2007 This book focuses on the controversy recorded in 1 Corinthians 15 regarding the denial of the resurrection of the dead. Many attempts and proposals have been made to understand the background of Paul's opponents. By focusing on the possible impact of Stoicism, Albert V. Garcilazo argues that the internal evidence of the letter indicates that some of the Corinthians had adopted a realized eschatology as well as an antisomatic view of the resurrection, which in turn prompted them to reject the future resurrection of the dead. Garcilazo suggests that the higher status members of the congregation were influenced by the cosmological, anthropological, and ethical teachings of the Stoa, especially the tenets of the Roman Stoics. He demonstrates this possibility by first considering the similarities between the doctrines of the Corinthian dissenters and the teachings of the Stoic philosophers, particularly the teachings of Seneca. Following a brief overview of Stoicism, the author concentrates on some of the theological issues revealed in the letter and examines how other scholars have interpreted 1 Corinthians 15. Finally, he provides a detailed analysis of 1 Corinthians 15:12-49. In short, Garcilazo argues that the philosophy of the Stoics seemingly contributed to the resurrection controversy recorded in 1 Corinthians 15.

Scripture and Traditions Patrick Gray, Gail R. O'Day, 2008 This volume contains twenty-two essays in honor of Carl R. Holladay, whose work on the interaction between early Christianity and Hellenistic Judaism has had a considerable impact on the study of the New Testament. The essays are grouped into three sections: Hellenistic Judaism, the New Testament in Context, and the History of Interpretation. Among the contributions are essays dealing with conversion in Greek-speaking Judaism and Christianity, 3 Maccabees as a narrative satire, retribution theology in Luke-Acts, church discipline in Matthew

the Exodus and comparative chronology in Jewish and patristic writings corporal punishment in ancient Israel and early Christianity and Die Judenfrage and the construction of ancient Judaism

Formation of the Biblical Canon: Volume 2 Lee Martin McDonald, 2017-01-26 Lee Martin McDonald provides a magisterial overview of the development of the biblical canon the emergence of the list of individual texts that constitutes the Christian bible In these two volumes in sum more than double the length of his previous works McDonald presents his most in depth overview to date McDonald shows students and researchers how the list of texts that constitute the bible was once far more fluid than it is today and guides readers through the minefield of different texts different versions and the different lists of texts considered canonical that abounded in antiquity Questions of the origin and transmission of texts are introduced as well as consideration of innovations in the presentation of texts collections of documents archaeological finds and Church councils In the first volume McDonald reexamines issues of canon formation once considered settled and sets the range of texts that make up the Hebrew Bible or Old Testament in their broader context Each individual text is discussed as are the cultural political and historical situations surrounding them This second volume considers the New Testament and the range of so called apocryphal gospels that were written in early centuries and used by many Christian groups before the canon was closed Also included are comprehensive appendices which show various canon lists for both Old and New Testaments and for the bible as a whole

The Wisdom of the Wise H. Drake Williams, III, 2018-06-19 Paul's Jewish background and his use of Scripture have been enduring interest within New Testament scholarship This study contributes to this discussion by examining the presence and function of Scripture in I Cor 1 18 3 23 The author examines the presence and function of Scripture in the form of six citations two allusions and seven echoes within I Cor 1 19 3 23 From the examination of the

function of these texts this work concludes that Paul's use of Scripture agrees with its original context and stands in line with a majority of early Jewish tradition. Moreover, this study suggests that Paul's use of Scripture also helps to chart a way through a difficult section of his writing.

Contested Issues in Christian Origins and the New Testament Luke T. Johnson, 2013-01-15 In a collection of essays spanning some 35 years, Luke Timothy Johnson takes on some of the most contested issues in the study of Christian Origins and the New Testament: from the historical Jesus and the Jesus of the Gospels through exegetical studies of Luke, Acts, and Paul to questions pertaining to the development of early Christian history, relations with Judaism, the uses of polemic sexuality and law. Johnson's work is characterized by close attention to texts and a concern for methodological rigor. Far from representing scholarly consensus, these essays consistently display independence of judgment, whether concerning the authorship of Paul's disputed letters, the legitimacy of the quest for the historical Jesus, or the toxic character of some early Christian texts.

The Curse of the Law and the Crisis in Galatia Todd A. Wilson, 2018-09-12 Todd Wilson assesses Paul's references to the Law in the so-called ethical section of Galatians in light of a fresh appraisal of the Galatian crisis. He contributes to the continuing debate over the relevance of this section of the letter for the rest of Galatians and for the situation in Galatia.

An Introduction to the Bible J. W. Rogerson, 2014-09-12 A casual reader enters a bookshop looking for a Bible. However, not all the Bibles on display have the same contents. Some have more books than others; some are study editions; some use gender-free language. How did this come about? This Introduction works back through the processes by which the Bible was written, transmitted, copied, and declared to be authoritative by various churches. The following topics are dealt with: What is the Bible? How Biblical Writers Wrote. The Making of the Old Testament. The Making of the Apocrypha. The Making of the New Testament. The Canon of the Bible. The Study of the Bible. The Use of the Bible in Social, Moral, and Political Questions. This updated edition takes account of developments in scholarship since the book was first published in 1999 by Penguin. The original edition has been translated into Spanish and Portuguese.

The Biblical Canon Lee Martin McDonald, 2006-11-01 This is the thoroughly updated and expanded third edition of the successful *The Formation of the Christian Biblical Canon*. It represents a fresh attempt to understand some of the many perplexing questions related to the origins and canonicity of the Bible.

Finding Herem? Hyung Dae Park, 2007-05-03 The concept of Herem is found throughout the Old Testament and presented a problem to the Second Temple Jewish authors. In introducing the concept to their audiences and in applying it to themselves and other nations, they avoided it by reducing or expanding, omitting or changing the concept of Herem. Much evidence in Luke-Acts, however, indicates that Luke deliberately uses the concept of Herem in order to present the life and teaching of Jesus and his disciples. Jesus' death on the cross, resurrection, and ascension can be seen as Herem that redeems God's people. The disciples' thoughts and actions in Acts, as well as all the Christ events, are based on Jesus' teaching, such as Luke 9:24 and 20:25. Ultimately, this study suggests that readers of Luke-Acts should consider the whole Old Testament so as to understand Lukan use of the Old

Testament and its attitude to the Mosaic law Moreover this study shows that the ethics of Luke Acts are not limited to sharing possessions but related to offering or giving what belongs to oneself even life without expecting any reciprocal advantage Furthermore the concept of Herem detected in Luke Acts makes it possible to argue that there is an atonement theology in Lukan writings

The Figure of Hagar in Ancient Judaism and Galatians Ryan Heinsch,2022-10-11 In this study Ryan Heinsch considers Paul's portrayal of Hagar in Gal 4 21-31 and argues that Paul stands in continuity with ancient Judaism in that he portrays Hagar and her descendants as non Jews As a result the author demonstrates that the passage in Galatians is an allegory Paul develops about the experience of gentiles in general and the once pagan Galatian gentiles in particular

The Evolution of Adam Peter Enns,2021-10-19 Can Christianity and evolution coexist Traditional Christian teaching presents Jesus as reversing the effects of the fall of Adam But an evolutionary view of human origins doesn't allow for a literal Adam making evolution seemingly incompatible with what Genesis and the apostle Paul say about him For Christians who both accept evolution and want to take the Bible seriously this can present a faith shaking tension Popular Old Testament scholar Peter Enns offers a way forward by explaining how this tension is caused not by the discoveries of science but by false expectations about the biblical texts In this 10th anniversary edition Enns updates readers on developments in the historical Adam debate helping them reconcile Genesis and Paul with current views on evolution and human origins This edition includes an afterword that explains Enns's own theological evolution since the first edition released

The Undivided Heart Zachary Alan Starr,2025-07-31 The Undivided Heart presents a history of legal and moral thought in Jewish civilization from the earliest times until 200 CE It discusses Israelite wisdom literature biblical law collections the prophets works of the Hellenic Jewish Diaspora the apocrypha apocalypses the Dead Sea Scrolls and the Mishnah and it compares the moral teaching of the Pharisees tannaim the Essenes and Jesus of Nazareth Among the book's important insights is that ancient Israel experienced a fundamental moral change from people esteeming qualities and conduct having competitive value to people esteeming qualities and conduct having cooperative value These newly esteemed qualities and conduct were moreover not originally justified as being commanded by God but as promoting the nation's well being Another important insight concerns Jeremiah's belief that human beings would not be righteous until given a single heart Although Jeremiah is typically understood as envisioning the end of free will this book argues that Jeremiah was actually envisioning the integration of human desires and emotions and that a single heart is better translated an undivided heart The notion of an undivided and a divided heart was used throughout the Second Temple period to explain respectively moral rectitude and moral failure

Did Jesus Teach Salvation by Works? Alan P. Stanley,2006-09-20 This book investigates the role of works in salvation in the Synoptic Gospels Jesus was all too aware of people who claimed to believe in Him and yet proved to be not truly born again e.g. John 2 23-25 8 31-46 A profession of faith made at some point during one's life is no guarantee that heaven awaits that person Such professions or conversion experiences must be followed by changed lives if

faith is to be shown to be genuine saving faith Hence Jesus teaches that regardless of one's profession if one does not demonstrate a changed life produced by God one will not enter into heaven Such a judgment will be made when Jesus returns and judges every person according to his or her works While this may seem contradictory to some more well known passages ruling out the role of works in salvation e g Rom 3 21 4 25 Gal 2 16 21 Eph 2 8 9 there is every good reason to understand that Jesus teachings complement such passages The works that admit one into heaven are not works produced by the flesh before conversion but works produced by God after conversion They will fundamentally be characterized by a life of discipleship love for others and endurance in faith and obedience and will therefore serve to confirm that one indeed did have a relationship with God during one's life Hence Jesus did teach salvation by works However God is the one who produces the works and they occur after conversion Thus salvation is not one's initial conversion but one's final entrance into heaven
