In Quest of the Dates of the Vedas Premendra Priyadarshi, 2014-09-02 The dates of the four Vedas as well as the homeland of the Indo European speaking people have been two unresolved issues in the Indian history This book uses the robust information recently emerging from archaeo botanical studies particularly palinology as well as that originating from the researches in geology archaeology and genetics The information generated from these scientific studies provides a vivid picture of the last ten thousand years of Europe and Asia This picture has been matched against the information about the plants animals and climate contained in the four Vedic Samhitas as well as that emerging from the philological studies The final picture emerges that the Rig Veda was composed between 8000 BC and 6000 BC Sama Veda between 6000 BC and 5500 BC Yajur Veda between 5500 BC and 2500 BC or perhaps 2000 BC and the Atharva Veda between 1500 BC and 1300 BC The investigation also reveals that the Indo European words for lion kesari

singh camel ustra ostrich opium lotus etc characteristically Indian animals and plants have existed in the Indo European vocabulary although not noticed so far That exercise fixes the location of the Indo European homeland in Northwest India at about 10 000 8 000 BC *Your Ultimate Guide to Outdoor and Urban Survival* J.D. Rockefeller,2015-07-17 There s a lot of misconceptions out there about how urban survival and wilderness survival camping do or do not fit together Arguments range from saying wilderness survival skills and camping can help in urban survival situations to saying all you that s needed for long term urban survival is your survival or camping gear The truth does however lie in between Regardless you level of experience or the amount of skill this guide has some great stuff to share about outdoor and urban survival In both urban and wilderness survival the most crucial and common factor that determine whether you ll succeed or fail lies in your mindset The fundamentals of survival are common to urban and wilderness scenarios shelter food security medical water and fire However there some notable differences In wilderness or outdoor survival scenarios it will normally be you or group of people trying to survive off from the land or from what you ve been able to carry along In other words you can think of a wilderness survival scenario as you vs the world A typical character you can identify such situations with is John Rambo where it s basically him vs the world Quite often wilderness survival scenarios take place because there isn t anyone else around Long term urban survival on the other hand is a totally different situation to this regard There will be people around you After being able to keep yourself under control a crucial factor that will determine your long term urban survival will be how well you can interact with different people Are you able to forge relationships and friends Are you willing to exchange services and or goods with other people Can you achieve this in such a way that you ll be able to get good deals and still maintain good relationships with those other people in the future Have your actions been in such a way that people will look for you when they need help These are some vital attributes and things to consider when looking to survive in an urban setup Let s get started *Backpacker* ,2008-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured *Backpacker* ,2008-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured **Field & Stream** ,1981-01 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice
