Studebaker, 2019-11-07 Over the past forty years Canada has become an increasingly secular multicultural and religiously plural society Indeed the church in Canada

and Pentecostals in particular face a challenging context for responding to the call to bear witness to Christ in the power of the Holy Spirit. Like the disciples on the day of Pentecost, however, we need the Holy Spirit to come upon us and liberate us from our post-Christian pessimism. We need the Holy Spirit to enable us to proclaim the gospel to the nations, people that are no longer at the ends of the earth but making their home in Canada. This book engages this new context and considers and proposes ways that Pentecostal Christians and churches can respond to the challenges of the increasingly post-Christian multicultural, secular and religiously plural context of Canadian society. *Accountancy (2014-15)* SBPD Editorial Board, 2016-10-14. Are there existing alternatives to corporate globalization? What are the prospects for and commonalities between communities and movements such as Occupy the World, Social Forum and alternative economies? Globalization, Development and Social Justice advances the proposition that another globalization is not only possible but already exists. It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization. El Khoury develops a theory of infraglobalization that emphasizes creative constitution, not just contestation of global and local processes. The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North. These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning. This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies. It will be of interest to students and scholars of international relations, globalization, social movement studies, political and economic geography, sociology, anthropology and development studies. *As Resident Aliens*. Kathleen Kern, 2010-01-01. As the crucifixes drenched with Jewish blood drop from our hands, we stand impotent and wordless before this tragedy of Israel and Palestine. In the name of the crucified Messiah, we must struggle against the conditions which make history a trail of crucifixions. Only then, in solidarity with Jews and Palestinians, can we dream of Messianic times of a shalom without victims. With these words, theologian Rosemary Radford Ruether laid out the pitfalls for Christians entering the arena of the

Palestinian Israeli conflict Nevertheless in 1995 a small cohort of pacifist Christians decided to paddle against the currents of history against the crusades pogroms and colonial enterprises of their co religionists toward that goal of a shalom without victims Setting up a project in the West Bank city of Hebron over the next ten years Christian Peacemaker Teams forged relationships with Palestinians Israelis and internationals who were resisting the Israeli military occupation of Palestine As resident aliens See Exodus 23 9 they have sojourned in the Holy Land to support Palestinians and Israelis who reject violence as a means of solving the conflict who think that one nation has no right to subjugate and exploit another and who believe all the residents of the region are entitled to the same exactly the same human rights This book charts the growth of CPT in Palestine how it adapted to changing political conditions spread to locations outside of Hebron and developed networks with activists throughout Palestine and Israel

God, Suffering, and Pentecostals Marius Nel, 2022-02-04 Pentecostals emphasize that God is still the Healer of all illnesses implying that God answers all prayers What about those who are not healed How do we explain suffering Why does a good God allow suffering Is God not powerful enough to prevent it In this publication the author reconsiders these questions from a Pentecostal hermeneutical perspective to develop a novel way to think about God s involvement with suffering among people His experimental theology speculates how a Pentecostal ethos accommodates a theodicy that acknowledges suffering and God s involvement in people s lives Although the book is a theologically constituted attempt anyone can follow and understand its arguments It concludes with alternative views of suffering evil God s loving attention to people the doctrine of original sin and Satan The author also suggests some ways to respond to suffering
