

Point man or single person moving around a corner

Reverse the application for turning a left corner

Two squads assaulting rooms on both sides of Hallway

A 9 room nightmare.

9 Rooms are numbered in order of assault by 2 teams of 4. Red always goes right, Blue always goes left, Green follows red to right center and yellow follows blue to left center. It seems a bit confusing but the red lines emanating from the player is direction of travel and line of fire. The thin black lines are the line of sight that each team member uses for their companion team to "spot" threats in adjacent rooms. In a situation where a few rooms adjoin but others not, NETITHER one side will complete their side first. This must be coordinated between Left red and right red leaders to keep the two teams together as much as possible. WORK TOGETHER AS TEAMS....NOT as individual groups.

The PSI Handbook of Virtual Environments for Training and Education Joseph V. Cohn, Dylan Schmorrow, Denise Nicholson, 2008-11-30 The increasingly complex environment of the 21st century demands unprecedented knowledge skills and abilities for people from all walks of life One powerful solution that blends the science of learning with the technological advances of computing is Virtual Environments In the United States alone the Department of Defense has invested billions of dollars over the past decade to make this field and its developments as effective as possible This 3 volume work provides for the first time comprehensive coverage of the many different domains that must be integrated for Virtual Environments to fully provide effective training and education The first volume is dedicated to a thorough understanding of learning theory requirements definition and performance measurement providing insight into the human centric specifications the VE must satisfy to succeed Volume II provides the latest information on VE component technologies and Volume III offers discussion of an extensive collection of integrated systems presented as VE use cases and results of effectiveness evaluation studies The text includes emerging directions of this evolving technology from cognitive rehabilitation to the next generation of museum exhibitions Finally the handbook offers a glimpse into the future with this fascinating technology This groundbreaking set will interest students scholars and researchers in the fields of military science technology computer science business law enforcement cognitive psychology education and health Topics addressed include guidance and interventions using VE as a teaching tool what to look for in terms of human centered systems and components and current training uses in the Navy Army Air Force and Marines Game based and long distance training are explained as are particular challenges such as the emergence of VE sickness Chapters also highlight the combination of VE and cybernetics robotics and artificial intelligence

**Single-Person Close Quarters Battle** Special Tactics, 2016-12-21 Military units and SWAT teams that specialize in Close Quarters Battle CQB typically bring a large force to the fight and often have numerous supporting assets such as snipers helicopters and tactical vehicles Thus the scenario of a single Soldier or SWAT officer having to operate alone is also relatively unlikely and often receives less attention However for ordinary citizens in a home defense scenario or for police officers responding to an emergency call the chances of having to operate alone are quite likely In these types of situations backup is frequently unavailable or will not arrive in time The citizens and officers who are forced to operate on their own face potentially the greatest risk yet there are almost no tactical references books videos or classes that provide useful information on the subject of single person tactics This manual and the associated training courses were developed by a team of experts with extensive special operations and law enforcement experience to help fill the dangerous capability and knowledge gap in the area of single person tactics This manual can provide citizens and officers with critical life saving

tactical knowledge that will give them a marked advantage in an emergency situation The manual is designed to be short easy to read and focused on the most important information for surviving a real life emergency The manual also uses many pictures and illustrations to accelerate learning and help students absorb knowledge faster It covers a wide range of tactical subjects including Clearing without entry Shallow entry limited penetration Deep entry Hallways Intersections Stairwells Multiple rooms The manual also provides specific suggestions on how to prepare for and deal with likely tactical scenarios including home invasion deadly attackers active shooter sniper attacks armed robbery and hostage situations **Applied**

**Spatial Cognition** Gary L. Allen, 2020-07-24 Applied Spatial Cognition illustrates the vital link between research and application in spatial cognition With an impressive vista ranging from applied research to applications of cognitive technology this volume presents the work of individuals from a wide range of disciplines and research areas including psychologists geographers information scientists computer scientists cognitive scientists engineers and architects Chapters throughout the book are a testimony to the importance of basic and applied research regarding human spatial cognition and behavior in the many facets of daily life The contents are arranged into three sections the first of which deals with a variety of spatial problems in real world settings The second section focuses on spatial cognition in specific populations The final part is concerned principally with applications of spatial cognitive research and the development of cognitive technology Relevant to a number of remarkably diverse groups Applied Spatial Cognition will be of considerable interest to researchers and professionals in industrial organizational psychology human factors research and cognitive science **Black Belt**
