The Oxford Handbook of the History of Clinical Neuropsychology William B. Barr, Linas A. Bieliauskas, 2024 While its origins date back to the 19th Century the field of clinical neuropsychology has existed as a distinct discipline for less than 60 years The Oxford Handbook of the History of Neuropsychology tells this story of how neuropsychology has evolved to its present state and where it is going This comprehensive volume begins with chapters reviewing the history of neuropsychology s approaches to disorders of attention language memory and other conditions Other chapters focus on the origins of neuropsychology s methods including neuropsychological testing brain imaging and studies of laterality including the Wada test While this volume has a number of chapters covering regional developments in clinical neuropsychology as a profession in the United States it is one of the first volumes to provide additional chapters on development of neuropsychology across different countries This Handbook gathers the work of experts in the field to provide extensive coverage of the origins of neuropsychology s methods and its approach to various clinical conditions across the globe *The Oxford Handbook of Criminal Process* Darryl K. Brown, Jenia Iontcheva Turner, Bettina Weissner, 2019-02-22 The Oxford Handbook of Criminal Process surveys the topics and issues in the field of criminal process including the laws institutions and practices of the criminal justice administration The process begins with arrests or with crime investigation such as searches for evidence It continues through trial or some alternative form of adjudication such as plea bargaining that may lead to conviction and punishment and it includes post conviction events such as appeals and various procedures for addressing miscarriages of justice Across more than 40 chapters this Handbook provides a descriptive overview of the subject sufficient to serve as a durable reference source and more importantly to offer contemporary critical or analytical perspectives on those subjects by leading scholars in the field Topics covered include history procedure investigation prosecution evidence adjudication and appeal *Monthly Catalogue, United States Public Documents*, 1985

Methodological guide to reduce carbon and water footprints in banana plantations Food and Agriculture Organization of the United Nations, Deutsche Gesellschaft für Internationale Zusammenarbeit, 2018-10-30 The World Banana Forum WBF publication developed a methodological guide to reduce water and carbon footprints in banana plantations worldwide Members of the Working Group WG on Sustainable Production Systems and Environmental Impact acknowledged the contribution of banana production in the total global GHG emissions and the consumption of freshwater in the economic activity both stressed in the 2015 Paris Climate Conference COP21 having the agricultural sector a high mitigation potential Therefore the WG wishes to contribute to the global fight against climate change and promote the sustainable use of natural resources developing practical tools to strengthen the efforts of the global banana industry to reduce its carbon and water footprint CWF Since banana farmers are struggling to adapt to climate change the project aims to mainstream and support the adoption of best climate smart practices and efficient water management in the banana value chain as part of the

environmental strategy of organizations Efforts to promote CWF reduction programs in the banana industry are still incipient and carried out mostly by multinationals due in part to the implementation costs the complexity of the topic for farmers the lack of user friendly tools to measure them efficiently and that is still a B2B driven strategy not yet recognized by consumers Even though the need for supporting carbon and water footprint analysis CWF in the banana industry remains strong there is still an apparent lack of sufficient financial incentives by both the governments and the global market **Monthly Catalog**
