Gibraltar Sun The Gibraltar Series :

The Clouds of Saturn Michael McCollum,2020-10-01 When the sun flared out of control and boiled Earth's oceans humanity took refuge in a place that few would have predicted In the greatest migration in history the entire human race took up residence among the towering clouds and deep clear air canyons of Saturn's upper atmosphere Having survived the traitor star they returned to the all too human tradition of internecine strife The new city states of Saturn began to resemble those of ancient Greece with one group of cities taking on the role of militaristic Sparta **Euclid's Wall** Michael McCollum,2020-10-01 A century after civilization fell in a day and a night of tectonic cataclysm scattered communities have regained a fraction of what humanity lost on that Day of Destruction One such is the Duchy of Hampshire on the southern tip of England Hampshire is at war with the Califat de Normandie It is a war that has been profitable for merchant sea captain Ethan Scott of the Sailing Barque Hellespont Despite the money to be made Scott prays for the war to end Each time he puts to sea he risks his ship and the lives of his crew on his ability to evade the Norman raiders in the Channel and the Eirish Sea It is a gamble he will inevitably lose if he keeps at it too long The Duke of Hampshire has problems of his own War is expensive If he doesn't find additional resources soon he will be defeated The Duke plans to send an expedition to North America to discover whether the fabled wealth of old still exists there For that he needs a ship Scott's chance meeting with a beautiful woman presents both men with the solution to their respective problems Soon Hellespont sets sail for America and the mysterious Wall that scholars believe precipitated the fall of civilization and which may yet destroy the world

Thunderstrike! Michael McCollum,2020-10-01 The new comet found near Jupiter was an incredible treasure trove of water ice and rock Immediately the water starved Luna Republic and Sierra Corporation a leader in asteroid mining were squabbling over rights to the new resource But all thoughts of profit and fame were abandoned when a scientific expedition discovered that the comet's trajectory placed it on a collision course with Earth As scientists struggled to find a way to alter the comet's course world leaders tried desperately to restrain mass panic and two lovers quarreled over the direction the comet was to take all Earth waited to see if humanity had any future at all **The Sails of Tau Ceti** Michael McCollum,2020-10-01 Starhopper was humanity's first interstellar probe It was designed to search for intelligent life beyond the solar system Before it could be launched however intelligent life found Earth The discovery of an alien light sail inbound at the edge of the solar system generated considerable excitement in scientific circles With the interstellar probe nearing completion it gave scientists the opportunity to launch an expedition to meet the aliens while they were still in space The second surprise came when Starhopper's crew boarded the alien craft They found beings who despite their alien physiques were surprisingly compatible with humans That two species so similar could have evolved a mere twelve light years from one another seemed too coincidental to be true One human being soon discovered that coincidence had nothing to do with it

Antares Victory Michael McCollum,2019-05-01 After a century of warfare humanity finally discovered the Achilles heel of

the Ryall their xenophobic reptilian foe Spica Alpha Virginis is the key star system in enemy space It is the hub through which all Ryall starships must pass and if Alta and their allies can just capture and hold it they will strangle the Ryall war machine and end its threat to humankind forever It all seemed so simple in the computer simulations Advance by stealth attack without warning strike swiftly with overwhelming power Unfortunately the logistics prove to be the easy part With the key to victory in hand Richard and Bethany Drake must temper the volatile role of human nature if they are to bring down the alien foe

Antares Passage Michael McCollum,2019-05-01 After more than a century of isolation the paths between stars are again open and the people of Alta in contact with their sister colony on Sandar And yet the opening of the foldlines has not been the pure blessing the Altans had supposed The reestablishment of interstellar travel has brought with it news of the encroaching Ryall an alien race whose goal is the extermination of humanity If they are to avoid defeat at the hands of the alien forces Alta must seek out the military might of Earth The only suitable path however requires a journey into the heart of a supernova

Lost Earth Michael McCollum,2020-11-16 A Galaxy Reborn It is the 43rd century and humanity occupies a substantial chunk of the Orion Spur the small galactic arm in which Sol is located Homo sapiens Terra has become Homo sapiens Galactica Following the invention of faster than light travel in 2530 the Great Hegira went from a trickle to a flood as human occupied space expanded at an exponential clip Over the centuries rivalries grew as did star system navies When widespread war finally came it raged across entire sectors Mass bombardments of enemy planets took their toll Much that had been built during the preceding thousand years was smashed in flashes of nuclear fusion A dark age descended Eventually a new Pax Galactica took hold The return of stability brought with it a renaissance Much knowledge that had been lost was regained Much but not all On worlds across human space parents told their children stories of a place where once dwelt knights and princesses magicians and dragons where bold warriors sallied forth to victory or defeat What the children did not learn was where this magical place could be found The years of chaos had robbed them of that information The stellar coordinates of Sol were lost And with them the location of Planet Earth

Reports on Observations of the Total Solar Eclipse of December 22, 1870 United States Naval Observatory,Benjamin Franklin Sands,1871

Antares Dawn Michael McCollum,2019-05-01 When the supergiant star Antares exploded in 2512 the human colony on Alta found their pathway to the stars gone isolating them from the rest of human space for more than a century When a powerful warship materializes in the system without warning the commanders of the Altan Space Navy are alarmed They dispatch one of Alta s most powerful ships to investigate only to discover the unknown behemoth is battered and helmed by a dead crew This is disturbing news for the Altans as the defeated battleship would have easily defeated the whole of the Altan navy on it s own And if that ship was able to stumble into the Altan system so too could the force responsible for its destruction Something must be done

Procyon's Promise Michael McCollum,2020-02-04 For millennia the Makers Life Probes explored the farthest reaches of space in search of the secret behind faster than light speed In the 22nd century the people of Earth made

a pact with this far flung civilization all of the Makers intelligence in exchange for help in their mission Three hundred years later descendants of the original Procyon expedition have returned to Earth in a starship They find a world that has forgotten the generations old contract No matter The returning colonists have overcome far greater obstacles in their single minded drive to redeem a promise made before any of them were born *Life Probe* Michael McCollum,2020-02-04 The Makers are an advanced intelligent alien species For hundreds of millennia they have been on the hunt for the secret to faster than light travel Their chosen instruments were the far reaching Life Probes in hopes of encountering other advanced civilizations out among the stars After a 10 000 year long journey one of these machines stumbles upon 22nd century Earth Upon arrival the probe isn't quite sure that this planet contains anything that could be considered advanced or intelligent But the Makers need help from humankind the probe is damaged and must be repaired if their search for knowledge is to continue
