Cps Selective Enrollment Admissions Study Guide:

Against the New Politics of Identity Ronald A. Lindsay, 2023-11-14 A far reaching cultural transformation is occurring across much of the West that is threatening the very foundations of democracy Individuals are no longer judged by their deeds actions and behavior but rather are defined by their race ethnicity and sexual orientation Driven largely by the political Left this transformation has led to the wholesale division of individuals into oppressed and oppressor classes Where the Left once organized around liberal principles to ensure that all groups had an equal seat at the proverbial table much of the Left today demands not only that those categorized as oppressed receive priority seating but also that those categorized as oppressor are excluded from the table altogether Government bodies corporations universities and the mainstream media regularly submit to these illiberal commands and explicitly favor certain identity groups over others in the name of allyship antiracism or equity As philosopher Ronald A Lindsay argues in *Against the New Politics of Identity* this radical cultural shift by which all policies and practices must be seen through the lens of identity rests on three dogmatic tenets those who are alleged to be oppressed or marginalized have special insight based on their lived experience racism is embedded in all Western laws regulations policies and institutions and equity understood as the elimination of all group disparities in all areas of life must take precedence over all other criteria such as individual merit achievement and need Lindsay demonstrates that these tenets are based on a series of fallacies and warns that the push for identity politics on the Left predictably elicits a parallel reaction from the Right including the Right's own version of identity politics in the form of Christian nationalism As he makes clear the symbiotic relationship that has formed between these two political poles risks producing even deeper threats to Enlightenment values and Western democracy If we are to preserve a liberal democracy in which the rights of individuals are respected he concludes the dogmas of identity politics must be challenged and refuted *Against the New Politics of Identity* offers a principled path for doing so

A Contest without Winners Kate Phillippo,2019-03-19 Seeing the consequences of competitive school choice policy through students eyes While policymakers often justify school choice as a means to alleviate opportunity and achievement gaps an unanticipated effect is increased competition over access to coveted high performing schools In A Contest without Winners Kate Phillippo follows a diverse group of Chicago students through the processes of researching applying to and enrolling in public high school Throughout this journey students prove themselves powerful policy actors who carry out and redefine competitive choice Phillippo s work amplifies the voices of students rather than the parents educators public intellectuals and policymakers who so often inform school choice research and investigates how students interact with and emerge from competitive choice academically developmentally and civically Through students experiences she shows how competitive choice legitimates and exacerbates existing social inequalities collides with students developmental vulnerability to messages about their ability merit and potential and encourages young people s individualistic actions as they come to feel that they must earn their educational rights From urban infrastructure to income inequality to racial segregation Phillippo examines the factors that shape students policy enactment and interpretation as policymakers and educators ask students to compete for access to public resources With competitive choice even the winners the lucky few admitted to their dream schools don t outright win A Contest without Winners challenges meritocratic and market driven notions of opportunity creation for young people and

raises critical questions about the goals we have for public schooling *Education as Enforcement* Kenneth Saltman, David A. Gabbard, 2010-09-13 The first volume to focus on the intersections of militarization corporations and education *Education as Enforcement* exposed the many ways schooling has become the means through which the expansion of global corporate power are enforced Since publication of the first edition these trends have increased to disturbing levels as a result of the extensive militarization of civil society the implosion of the neoconservative movement and the financial meltdown that radically called into question the basic assumptions undergirding neoliberal ideology An understanding of the enforcement of these corporate economic imperatives remains imperative to a critical discussion of related militarized trends in schools whether through accountability and standards school security or other discipline based reforms *Education as Enforcement* elaborates upon the central arguments of the first edition and updates readers on how recent events have reinforced their continued original relevance In addition to substantive updates to several original chapters this second edition includes a new foreword by Henry Giroux a new introduction and four new chapters that reveal the most contemporary expressions of the militarization and corporatization of education New topics covered in this collection include zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the intersection of the militarization and corporatization of schools under the Obama administration **The Chicago High Schools Report Card** Linda Thornton, 2006-04 This savvy guide demystifies the complicated high school admissions process and compiles all of the information into one source so that families can make a well informed decision when choosing their child s school Listing more than 140 schools by category Catholic Independent and Public and providing general information about each one this resource helps parents narrow their search by outlining each school s curriculum and philosophy costs class sizes percentage of college bound graduates and public transportation options The accompanying timeline begins with the sixth grade and outlines important topics of discussion to prepare parents and prospective students along the way **Handbook of Research on Schools, Schooling and Human Development** Judith L. Meece, Jacquelynne S. Eccles, 2010-06-10 Children spend more time in school than in any social institution outside the home And schools probably exert more influence on children s development and life chances than any environment beyond the home and neighbourhood The purpose of this book is to document some important ways schools influence children s development and to describe various models and methods for studying schooling effects Key features include Comprehensive Coverage this is the first book to provide a comprehensive review of what is known about schools as a context for human development Topical coverage ranges from theoretical foundations to investigative methodologies and from classroom level influences such as teacher student relations to broader influences such as school organization and educational policies Cross Disciplinary this volume brings together the divergent perspectives methods and findings of scholars from a variety of disciplines among them educational psychology developmental psychology school psychology social psychology psychiatry sociology and educational policy Chapter

Structure to ensure continuity chapter authors describe 1 how schooling influences are conceptualized 2 identify their theoretical and methodological approaches 3 discuss the strengths and weaknesses of existing research and 4 highlight implications for future research practice and policy Methodologies chapters included in the text feature various methodologies including longitudinal studies hierarchical linear models experimental and quasi experimental designs and mixed methods
