Cput Admissions:

Shaping the Future of South Africa's Youth Helene Perold, Nico Cloete, Joy Papier, 2012 Why solving ongoing problems with the NQF National Qualifications Framework matters The challenges unemployment imposes on youth The challenge of youth to work transitions an international perspective A statistical overview of further education and training colleges Strengthening the capacity of FET Colleges to meet the needs of young people Higher education and an expanded post school educational system Trends in training in South Africa Key issues in the assessment of South Africa's national skills development strategy Opening the doors of learning Viewing the post school education and training landscape from a youth perspective *Faculty Perspectives on Vocational Training in South Africa* Eunice Ivala, Chaunda Scott, 2019-03-06 The

Cape Peninsula University of Technology CPUT is one of four Universities of Technology established by the South African government in 2005 with a focus on vocational training This book presents faculty experiences of CPUT's innovative work integrated learning and teaching model as well as findings from practice based research being done in the institution The purpose of this volume is to be a resource for other institutions in South Africa that wish to try similar strategies as well as a to trigger a community of practice with vocationally oriented institutions outside of South Africa **Commonwealth**

Universities Yearbook, 2007 **ICEL 2018 13th International Conference on e-Learning** Professor Eunice

Ivala, 2018-07-05 Success in Higher Education Leigh N. Wood, Yvonne A. Breyer, 2016-10-26 This book explores successful transition strategies to within and from university for students from around the globe with Macquarie University a large Australian university studied in depth It addresses the meaning of success taking a variety of perspectives including student staff and employer views The chapters present a series of initiatives that have proven to be successful in assisting students in developing their academic potential throughout university and beyond The authors of the chapters use a variety of methodologies and approaches reflecting the diverse local contexts and requirements These international perspectives demonstrate a triumph of practice that has led to the empowerment of individuals and groups The approaches from twelve universities located in eight different countries stem directly from the coalface and provide many valuable lessons and tools that colleagues in the sector will be able to consider and adapt in their own contexts Small interventions matter from a mentor of a nervous student who goes on to achieve greatness to the use of a curriculum design model that hooks a whole group of students into learning and achievement This book covers both the small individual victories and the larger scale strategies that support success Contributions emanate from Australia Bangladesh India China New Zealand United Kingdom Canada USA Uruguay and South Africa **Covid-19 Management and Responses** René Pellissier, 2023-04-06 When the Cape Higher Education Consortium CHEC South Africa decided to develop a book on Covid 19 management and responses higher education was in the midst of its endeavours to manage how we respond to this threat to ensure academic continuity and integrity Universities mostly followed their own strategies and initiatives reactively having little time to be proactive At

this point most higher education institutions have steadied their approaches to teaching and learning and to managing their university services in response to the threat There is clear evidence that the world as we knew it and in which our practices had been developed has changed and will continue to do so with increasing threats and demands on our higher education systems This book provides the collaborative approaches from a range of academic practitioners and managers to develop some mental model of the practices we adopted and possible lessons learnt in the process

Reflections of South African University Leaders: 1981 to 2014 Council on Higher Education, 2016-03-17 Much has been written about the ever growing demands on university leadership worldwide in the face of increasingly complex changes and challenges from within the academy and beyond However as we are reminded by Johan Muller in the Introduction to this book there are particular features of time and place that also throw up unique problems It is precisely time and place that make this set of reflections by university leaders quite remarkable and distinguishes it from the many biographies to be found in the literature on higher education leadership In the main this collection spans two decades the 1990s and 2000s of unprecedented levels of change in South African higher education Leaders in universities as well as those responsible for higher education policy in the government and associated statutory bodies had no neat script to work off nor manuals or prescripts of good leadership or practice Instead there was palpable excitement about collectively imagining and nurturing a new post apartheid higher education system which would contribute to the social and economic development needs of the country the deepening of democracy and which would also be globally relevant Most reflections touch on the coalface of leadership which is the face to face interactional dimension dealing with staff with students with council chairs What comes through clearly is the importance of what are sometimes called people skills In these accounts this is not simply presented as a human relations aptitude for a number of reasons first of which is the special nature of universities and their occupants More than one points out the special challenge of managing the talented people that are academics and their inbuilt distaste for bureaucracy their reluctance to be managed or told what to do The message here is consistently one of needing to be completely open with academics the importance of maintaining the distinction between collegial and executive management avoiding managerialism and the critical importance of winning and holding their trust The inspiration for this collection arose in late 2013 in the Council on Higher Education's CHE Monitoring and Evaluation Directorate the directorate responsible for conducting research on the higher education landscape and monitoring the state of the sector They noted that conditions besetting universities had grown increasingly complex both globally but more especially locally and the question arose how had this altered the challenges to university leadership over the period between the new political dispensation and the second decade of the new millennium More particularly how had leaders with a proven track record of visionary and strong leadership during this period faced these challenges How did they see the main changes that needed dealing with What challenges did these changes pose and how were they successfully overcome What did they think looking back were the main

constituents of successful leadership and management What wisdom could be distilled for posterity The Directorate decided to invite a range of vice chancellors and senior academic leaders who had completed their terms of office to contribute to a project that set out to gather such reflections and compile them into a publication Glocal Theological Education Bård Norheim,Shantelle Weber,2024-06-14 This book presents a vision for Glocal Theological Education an invitation to rethink and reshape theological training in times of crisis The aim is to train theological judicium the ability to exercise sound judgment and practice discernment in the face of the different crises in the world of today like the climate crisis the changed role of the church and the challenge of youth citizenship It explores what has been learned from developing shared global learning within the framework of local learning communities in Norway South Africa and beyond The book also discusses key practices such as the combination of coteaching online and learning in local contexts and best practice research on other educational activities Contributors also reflect more theoretically on where how and what we can learn from crisis and how these theoretical insights can help us shape theological leaders for the future who can read the times Admission Matters Sally P.  interview High School is a vibrant open all night laboratory in which to begin creating yourself Find the thing that fascinates
 you and you will become fascinating **College Admissions** ,1993-01-26 With changes in the economy and in demography
 college admissions officers need to target new populations and familiarize themselves with new developments that impact
 the enrollment pool This important reference assembles nearly 1 000 citations for literature related to all aspects of
 undergraduate college admissions in the United States including admissions to community colleges four year colleges and
 universities Citations are provided for books book chapters journal articles dissertations and ERIC microfiche No time limit
 was placed on the materials and older works are included for those interested in historical research Popular handbooks on
 how to get into college are omitted The work begins with a preface that discusses its scope and organization and an
 introduction that briefly summarizes the history of college admissions in the United States The bibliographic entries that
 follow are arranged in topical chapters devoted to general admissions marketing and recruitment admissions offices and
 officers and foreign admissions Nearly every citation is accompanied by a short descriptive annotation Detailed author and
 subject indexes conclude the work *The Qualified Student* Harold S. Wechsler,2017-09-29 In *The Qualified Student* Harold
 S Wechsler focuses on methods of student selection used by institutions of higher education in the United States More
 specifically he discusses the way that college and university reformers employed those methods to introduce higher
 education into a broader cross section of America by extending access to an increased number of students from
 nontraditional backgrounds Implicit in much of this book is an underlying social and ethical question How legitimate was and
 is higher education s regulation of social mobility Public concern over colleges and universities practices became inevitable
 once they became regulators between social classes The challenging of colleges admissions policies in the courts augments
 similar concerns that have been present in legislatures for decades The volume is divided into three main sections
 Prerequisites Columbia and the Selective Function and Implications It focuses mainly on four universities The University of
 Michigan Columbia University the University of Chicago and the City University of New York Wechsler maintains that unlike
 other universities these institutions were pacesetters they did not adopt a new policy simply because some other college had
 already adopted it A new introduction brings the book originally published in 1977 up to date and demonstrates its
 continuing importance in today s academic world of selective admissions *Admissions Confidential* Rachel
 Toor,2002-08-17 A former Duke admissions officer presents the truth behind the admissions process revealing why admission

to a top school depends on your application and that elite colleges recruit students they will never admit College Admission Robin Mamlet, Christine VanDeVelde, 2011-08-16 College Admission is the ultimate user's manual and go to guide for any student or family approaching the college application process Featuring the wise counsel of more than 50 deans of admission no other guide has such thorough expert compassionate and professional advice Let's be honest applying to college can be stressful for students and parents But here's the good news you can get in Robin Mamlet has been dean of admission at three of America's most selective colleges and journalist and parent Christine VanDeVelde has been through the process first hand With this book you will feel like you have both a dean of admission and a parent who has been there at your side Inside this book you'll find clear comprehensive and expert answers to all your questions along the way to an acceptance letter The role of extracurricular activities What it means to find a college that's the right fit What's more important high grades or tough courses What role does testing play The best candidates for early admission When help from parents is too much help Advice for athletes artists international students and those with learning differences How wait lists work Applying for financial aid This will be your definitive resource during the sophomore junior and senior years of high school **adMISSION POSSIBLE** Marjorie Hansen Shaevitz, 2012-04 Admission Possible doesn't just describe college admissions it shows exactly what to say and do every step along the way from freshman through senior year of high school using fully illustrated examples and checklists The College Admissions Officer's Guide Barbara Lauren, 2008
