Bibliography of Agriculture, 1976 *Crisis-scapes* Jaya Brekke ,Dimitris Dalakoglou,Christos Filippidis,Antonis Vradis,2014-05-08 Four years and four days The exact amount of time that is that has lapsed since the day the greek state would sign its memorandum of agreement with its lenders the IMF the EU and the ECB on May 5 2010 officially making its own way into the era of global austerity and crisis An entering that would come with a bang and very much stay so from that moment on the social tension playing out at the greek territory would feature constantly it seems in discussions analyses and reports the world over But what is life like in a city that finds itself in the eye of the crisisstorm how does the everyday reality here compare to Athens global media portrait What kind of lessons might our city be able to learn from the outbreaks of capitalism s crises elsewhere and what lessons might the Athenian example be able to offer in return The volume that you hold in your hands acts as an accompaniment to a conference that tried to answer some of these questions *Crisis scapes Athens and beyond* took place in the city of Athens on May 9 a crisis first of all concerning the structures meanings and processes weaving together what we could broadly label as the greek everyday reality Yet we also believe these particularities ought to be understood within the global financial crisis framework hence this centrifugal beyond Athens may now be in a position to offer explanations about phenomena taking place much beyond the city s strict geographical limits What renders the city a field of experimentation are trials and productions of new means of governance And they acquire a new meaning when seen as wider tendencies in crisis management Yet these Athenian testing grounds must at the same time be studied as traces and as future projections of structural readjustments taking place in seemingly

disparate locations but often times ever so close in their causes and consequences alike The interventions put together in the present volume try to take another composite look at Athens and its crisis They try to comprehend the city through crossings and transitions in space and in time
