Which Craft? Michael Besack, 2001 The Magic Flute has elicited a wide range of interpretations From simple fairy tale to Masonic allegory every meaning seems to have been explored Yet the mystery remains Mozart himself was less than helpful leaving only inconsequential accounts of the work s conception His untimely death on December 5th 1791 a couple of months after the premiere has fueled additional controversies The composer s personal letters in which The Magic Flute is mentioned contain mostly trivial reports of first impressions They describe the reaction of the Viennese public and deal with comments made by contemporary musicians Antonio Salieri the Viennese Court s Kappelmeister was highly supportive Count Carl von Zinzendorf a shrewd observer of the local operatic scene was less than enthusiastic The music and the decorations are pretty he wrote the rest an unbelievable farce He did however mention that the crowds were huge The Magic Flute has always been popular but does that make it a popular opera The dramatic vehicle assembled by Mozart is hardly a farce The Queen of the Night is a witch and Sarastro a Mason this much is clear even to the uninitiated In The Magic Flute they are at odds over Pamina s abduction by Sarastro a theme thoroughly explored in Greek legends of Persephone Held captive in the realm of the dead to which the masonic Temple figuratively corresponds Persephone stands for the magic powers of

generation and renewal that Hades holds hostage in his subterranean kingdom In the revolutionary climate of 18th century Europe these powers were again needed for a reseeded of the hidden order But the hermetic Temple where the King and Queen reign is not that easily reconstructed Genius is not always enough where magic is the intended practice

Nakanose provides a dramatic demonstration of the contribution of sociological hermeneutics to contemporary Biblical exegesis. This method complements historical critical exegesis by reconstructing the social systems of Biblical communities in their religious as well as their economic and political orders. After introducing the sociological method and a brief consideration of historical and literary critical readings of Josiah's Passover, Nakanose explicates the method of sociological analysis and its facets: economic, social, political, and ideological. Turning to the text itself, he shows clearly how the process of liturgical purification it describes is intimately tied to the centralization of political and commercial interests in ancient Israel. He then goes on to demonstrate, using the experience of Brazilian base communities, what happens when this critical reading is joined with critical reflection on the reader's own social location.

The Craft of Community-Engaged Teaching and Learning Marshall Welch, Star Plaxton-Moore, 2019-09-05 Using a conversational voice, the authors provide a foundation as well as a blueprint and tools to craft a community engaged course. Based on extensive research, the book provides a scope and sequence of information and skills ranging from an introduction to community engagement to designing, implementing, and assessing a course to advancing the craft to prepare for promotion and tenure as well as how to become a citizen scholar and reflective practitioner. An interactive workbook that can be downloaded from Campus Compact accompanies this tool kit with interactive activities that are interspersed throughout the chapters. The book and workbook can be used by individual readers or with a learning community.

Craft Britain David Linley, Helen Chislett, 2023-01-24 Britain is one of a triumvirate of nations, the others being France and Italy, that is revered globally for its fine craftsmanship and heritage skills. However, while France is wedded to the continuation of 17th and 18th century master craftsmanship and Italy is focused on particular materials, notably leather working and stone working, Britain is uniquely able to both look back and move forward where craft is concerned. Nowhere else will you find true excellence and mastery of a craft coupled with such innovation and eye for design. Craftsmanship in Britain is neither dying nor dead but is a continuing and exciting exploration of process, materials, and ideas spanning architecture, interiors, fashion, and art. *Cool, Calm, and Collected* introduces the vast array of British craft from the craftspeople who keep the heritage alive, such as Savile Row tailors and stained glass makers, to crafts on the edge of extinction: clog makers, damask weavers, and urban craft artists, and more. Illustrated throughout with stunning shots of the finished products to behind-the-scenes images in studios and workshops or craftspeople at work, this timely publication celebrates the bespoke craft skills of Britain as a global force and will hopefully inspire a new generation to seriously consider a professional life in craft.

The Theology of Craft and the Craft of Work Jeremy Kidwell, 2016-06-03 An important reconceptualisation is taking place in the way people express creativity, work together, and engage in labour, particularly suggests Kidwell, a surprising resurgence in recent years of manual and craft work. Noting the wide array of outlets that now market hand-made goods and the array of popular books which advocate making as a basis for activism or personal improvement, this book seeks to understand how the micro-politics of craft work might offer insights for a broader theology of

work Why does it matter that we do work which is meaningful excellent and beautiful Through a close reading of Christian scripture *The Theology of Craft and the Craft of Work* examines the theology and ethics of work in light of original biblical exegesis Kidwell presents a detailed exegetical study of temple construction accounts in the Hebrew bible and the New Testament Illuminating a theological account of craft and employing the ancient vision of good work which is preserved in these biblical texts Kidwell critically interrogates modern forms of industrial manufacture This includes a variety of contemporary work problems particularly the instrumentalisation and exploitation of the non human material world and the dehumanisation of workers Primary themes taken up in the book include agency aesthetics sociality skill and the material culture of work culminating with the conclusion that the church or new temple is both the product and the site of moral work Arguing that Christian worship provides a moral context for work this book also examines early Christian practices to suggest a theological reconceptualisation of work
