The Way Home - And How to Get There Jonathan W. Koontz, 2008 This is a book of essays They are about the journey we all take through life All of us are heading toward a real goal home We will each know our own home when we get there When these essays started coming out of my computer I did not know they were going to be essays I was totally astonished when *His Eye Is On The Sparrow* showed up fully formed needing only slight tweaking to assume its final shape I looked it over This was an essay It could not be anything else Carrying on with my writing I saw essay after essay appear on the screen of my computer Some came out of my brain and heart almost as fully formed as the first Some required much work I believe the work was worthwhile I believe the book is worthwhile I stand proudly behind every idea in this book I do not stand behind every word Every major idea here is transformational and liberating I do not know how many major liberating transformational ideas there are in the world but as I write this I can think of maybe 20 or 30 no more On the other hand there are more than a half a million words in the three books You may find words with which you disagree I hope you do But it would be a step in the wrong direction for you to disagree with the ideas If you are completely satisfied with your current ideas about life if you know all you want to know about leading a joy filled life full of spirituality but devoid of empty religiosity if you are happy with your relationships with all the people who mean something to you if you have not thought about these things in many years and really don't care to think about them now If all this is true

for you please close this book and stop reading immediately The Way Home is really three books in one cover Each of the three is a complete unit but each book gains strength from the other two There are forty one essays in The Way Home and each essay is complete in itself but is also part of a unified whole Book One provides an overview for the special person who will want to read a serious book of essays about how to lead life Book Two is for those who might want to know more about the author and how he became the person he is Book Three is for those who understand the first two These fortunate few will already be conscious citizens of the new world already emerging from the ashes of the complete failure of western civilization They know where they are going and how to get there They will have gained a sense of direction for everything they do and they will know how to regain balanced movement if they are ever threatened Most of them will be able to do this because of a new religion they have adopted It may be called by the same name as the religion they have always had but it will be a new and intensely personal view of that religion This personal religion will use some of the language of the religion into which the person was born that is Christians may use mostly the words of Jesus Jews will not use Jesus words at all the different sects of the Moslem world will find different sections of the Koran to emphasize and Indians will quote the Upanishads Remarkably there will be no disagreement although each religion will be unique to one person alone **You Can Get There From Here**

We Get There Shauna Seliy, 2008-12-01 Over the course of one winter in 1974 in the coal-mining town of Banning, Pennsylvania, the youngest member of a large and boisterous Eastern European family gives himself a tall order: to find his mother, who recently disappeared without explanation. Lucas, an only child whose father died several years earlier in a coal-mine blast, lives with the legacy of loss. Despite his heavy inheritance, Lucas is still just a thirteen-year-old boy puzzling out the world around him. He shuttles between the homes of his family elders, whose old-world ways he can't quite understand. When Zoli, his mother's embittered admirer, takes it upon himself to find his lost love, violence and retribution escalate until no one, especially Lucas, is safe. As he struggles to find his place in this unsettling landscape, Lucas's extended family and close-knit ethnic community circle around him. Set against the collapse of the industry that has sustained the family and the town for generations, *When We Get There* is a startling tale of one family's long winter and the spring that eventually comes hard on winter's heels. *Dying to Get There* Comrie Palmer, 2011-09-20 At six years of age, Comrie Palmer was pronounced dead at the Hotel Dieu Hospital when her heart failed after surgery. Thirty-six years later, she died again for twenty-three minutes, also from heart failure. This is Comrie's account of the latter, amazing death journey. You will discover a different perspective on how to live your life after reading her detailed experience. Her description is so vivid that you can sense it. The experience transformed her as her intellect level skyrocketed. In this incredible recollection of her experience, Comrie Palmer delves deep into the Ceremony of Dying while sharing with us a Formula for Living. This is a thought-provoking testimony that will have you pondering your own life's actions. And you will discover that when love manifests, you receive the benefits. *Getting There by Design* Kenneth Allinson, 1997 In *Getting There by Design*, Allinson equips designers with an understanding of project management. Africa Should Get There Too Alfani Sumaili Yoyo,2012-10 After having been stunned by untold evils making the order of each day in Africa and particularly in his country Alfani was compelled to address this in the form of a book The ideas he suggests to alleviate the situation is what he regards as alternative strategies to develop a crumbling continent Alfani believes that development should be given priority He laments that most of the continent s resources are misused by a handful of citizens and dumped in the most worthless personal luxuries and expenditures such as civil and religious wars About HIV AIDS in Africa he simply but firmly says that no matter how complicated the disease can be the chance is that it can be reversed if there ll be a systematic paradigm shift in people s minds From the experience of land reform in Zimbabwe as well as severe hunger caused by extremely low rate of food production in many African states he scoffs the continent s inability to invest in the land He also blames contemporary African leaders for their reluctance to embrace the breeze of development and accuses politicians of treating ordinary citizens cheaply In this book he offers a simple definition of the word development when he equates it to a walk from where people have been getting delayed to where they would like to be For Africa this means joining other continents or even taking an extra mile On the other hand he warns his readers not to take his book as a compilation of some absolute do s but to consider it as a guide or help The implementation of his suggestions is absolutely a personal issue Alfani s book is not only engaging but also informative All You Have To Do Is Get There Robert Heffner,2019-09-11 Calvin Lee Brown was a lanky raw boned youth on the edge of manhood Never having given much thought to his future he was suddenly obliged to consider his direction in life when his family was uprooted from their home in Missouri Having lost everything they owned in the wake of the Civil War they had fled west to Kansas In their exodus however the Brown family had sought not only refuge but also promise For the frontier as the handbills all proclaimed was a land of manifest destiny a land of opportunity a land where railroads were being built boom towns were springing up and gold was still being discovered It was a land of wide open spaces where people could get a fresh start and homesteads were being offered practically for free It was a land just waiting to be taken All you had to do was get there The Future of Truth (and How to Get There) Lindley Gooden,2025-04-04 Lindley s groundbreaking book tells the true story of mis and dis information why we ve fallen so hard for them both and how every one of us can fight back We re living in a time when nothing feels very true Where our timelines give us endless opinions and fiction disguised as fact So how can we build a clear picture of the world around us when false information and fake news is spread by our friends colleagues and classmates right up to world leaders The second edition of The Future of Truth and How to Get There unmasks the tell tale signs that
