**Park City** Margery Weber Bensey, 2012-11-20 Park City's tree shaded streets frame a neighborhood with an identity all its own. The distinctive homes designed by famed architect George Barber lend Park City its unique visual appeal and local flavor. Yet behind the well preserved innovative architectural designs is a history that stretches back to Knoxville's earliest beginnings. Knox County's first sheriff Robert Houston was a Park City resident establishing the county's first court in the late 1700s. Since then Park City residents have helped shape Knoxville's history by shaping their community. Longtime Park City resident and local historian Margery W. Bensey tracks the history of its development from village to vibrant residential neighborhood. From stories of the first settlers and community events to the dramatic tale of a neighborhood duel, this is the complete Park City chronicle.

*The 1950s American Home* Diane Boucher, 2013-06-10 Modern living began with the homes of the 1950s. Casting aside the privations of the Second World War, American architects embraced the must-have mod cons they wrapped fitted kitchens around fridges, washing machines, dishwashers, and electric ovens gave televisions pride of place in the living room, and built integrated garages for enormous space-age cars. So why was this change so radical? In what ways did life change for people moving into these swanky new homes, and why has the legacy of the 1950s home endured for so long? Diane Boucher answers these questions and more in this colorful introduction to the homes that embody the golden age of modern design.

**American Zoo** David Grazian, 2017-12-05 A close-up look at the contradictions and wonders of the modern zoo. Orangutans swing from Kevlar-lined fire hoses. Giraffes feast on celebratory birthday cakes topped with carrots instead of candles. Hi-tech dinosaur robots growl among steel trees while owls watch animated cartoons on old television sets. In *American Zoo*, sociologist David Grazian takes us on a safari through the contemporary zoo, alive with its many contradictions and strange wonders. Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots, Grazian introduces us to zookeepers and animal rights activists, parents and toddlers, and the other human primates that make up the zoo's social world. He shows that in a major shift away from their unfortunate pasts, American zoos today emphasize naturalistic exhibits teeming with lush and immersive landscapes, breeding programs for endangered animals, and enrichment activities for their captive creatures. In doing so, zoos blur the imaginary boundaries we regularly use to separate culture from nature, humans from animals, and civilization from the wild. At the same time, zoos manage a wilderness of competing priorities: animal care, education, scientific research, and recreation, all while attempting to serve as centers for conservation in the wake of the current environmental and climate change crisis. The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom and invest nature with meaning and sentiment. A revealing portrayal of comic animals, delighted children, and feisty zookeepers, *American Zoo* is a remarkable close-up exploration of a classic cultural attraction.
