Catalogue Maggs Bros, *An Empire Transformed* Kate Luce Mulry, 2021-01-12 Examines the efforts to bring political order to the English empire through projects of environmental improvement When Charles II ascended the English throne in 1660 after two decades of civil war he was confronted with domestic disarray and a

sprawling empire in chaos His government sought to assert control and affirm the King s sovereignty by touting his stewardship of both England s land and the improvement of his subjects health By initiating ambitious projects of environmental engineering including fen and marshland drainage forest rehabilitation urban reconstruction and garden transplantation schemes agents of the English Restoration government aimed to transform both places and people in service of establishing order Merchants colonial officials and members of the Royal Society encouraged royal intervention in places deemed unhealthy unproductive or poorly managed Their multiple schemes reflected an enduring belief in the complex relationships between the health of individual bodies personal and communal character and the landscapes they inhabited In this deeply researched work Kate Mulry highlights a period of innovation during which officials reassessed the purpose of colonies weighed their benefits and drawbacks and engineered and instituted a range of activities in relation to subjects bodies and material environments These wide ranging actions offer insights about how restoration officials envisioned authority within a changing English empire

An Empire Transformed is an interdisciplinary work addressing a series of interlocking issues concerning ideas about the environment governance and public health in the early modern English Atlantic empire

Transformations of Love Frances Harris,2003-01-30

The most controversial episode in the life of the seventeenth century virtuoso and diarist John Evelyn has always been his passionate complex friendship with the Restoration maid of honour Margaret Blagge afterwards Mrs Godolphin His Life of Mrs Godolphin written after her early death in childbirth exalted the friendship and represented her as effectively a saint They saw their intense friendship as platonic spiritual mentoring Yet it is sometimes argued that what took place between them was actually a kind of seduction on Evelyn s part that far from trying to overcome her religious scruples about marriage to a young man she deeply loved as he afterwards claimed he secretly encouraged them in order to keep her in his power and even falsified some documents to conceal this from her husband whose patronage he sought Was Evelyn in his way as much a sexual predator as the Restoration rakes he professed to despise or does the episode provide a window on an unexplored aspect of early modern spirituality Undoubtedly there was more to the friendship than Evelyn publicly admitted but it remains a puzzle still to be interpreted This new study is based on Evelyn s papers now fully accessible for the first time and on important and hitherto unknown correspondence between Margaret Blagge and her future husband It situates the episode fully within the pre and post Reformation debates concerning marriage and friendship the latter seen by some as more a sacrament than marriage and the long traditions of platonic love and intense friendships between men and women in

religious contexts Its diverse and vividly realized settings include the glamorous disreputable public household of the Restoration court and the great gardens of the day at once little worlds in microcosm and recreations of paradise on earth
