**Emotion Through Nonverbal Communication** Elri Nel, 2016 The phenomenon of interconnecting mind and body is extensively referred to as embodiment This suggests that the mind cognition is inherently embodied physicality not solely because the mind is literally situated within the human body but because the mind becomes embodied when it communicates conceptual meaning thought and emotion through the physical performing body of the actor The challenge encountered by actors is however to create and embody a variety of fictional characters which emulate conceptual thought and emotion mind repeatedly throughout the performance and rehearsal process without enduring emotional fatiguing or disengaging from the fictional characterisation and circumstances This study therefore encourages a synthesis of mind and body interconnectivity within actor training programmes which consequently stimulates and harmonises all the actors expressive physical and emotional and cognitive imaginative conceptual and emotional aspects when embodying a fictional character within fictional circumstances The purpose of this study is to identify the benefits of embodying a syncretic combination of behavioural and psychophysical mind and body acting techniques within embodied training and towards the creation and portrayal of emotions within fictional circumstances **Arthur Lessac's Embodied Actor Training** Melissa Hurt, 2014-03-05 Arthur

and celebrity and the impact of technology on the formation of identity      *Stoicism and Performance* Cormac Power, 2019-10-21 Power's *Stoicism and Performance* presents Stoicism as a means of navigating key debates and concepts in contemporary theatre and performance. Stoicism has influenced many of the most cited radical thinkers in the discipline of theatre and performance studies for instance Deleuze, Foucault, Kristeva, Agamben. A central aim of this work is to bring Stoicism more explicitly into the fold of the discipline and to use Stoicism to think differently about performance. With a series of chapters covering themes such as performativity, embodiment, emotion, affect and spectatorship, this book finds points of encounter between Stoicism and contemporary understandings and practices of performance. It presents these encounters as modes of transformative experience in relation to our being in the world.      *Performing Emotions* Peta Tait, 2017-07-05 In *Performing Emotions*, Peta Tait's central argument is that performing emotions in realism is also performing gender identity. Emotions are phenomena that are performable by bodies which have cultural identities. In turn, these create cultural spaces of emotions. This study integrates scholarship on realist drama, theatre and approaches to acting with interdisciplinary theories of emotion, phenomenology and gender theory. With chapters devoted to masculinity and femininity specifically as well as to emotions generally, it investigates social beliefs about emotions through Chekhov's four major plays in translation and English language commentaries on Constantin Stanislavski's direction of the play's first productions and his approaches to acting and Olga Knipper's acting of the central women characters. *Emotions* exists as social relationships; they are imagined and embodied as gendered. Tait demonstrates how theatrical emotions are predicated on social performances and vice versa. In Chekhov's plays, which came to dominate a twentieth-century theatre of emotions, characters interpret their emotions intertextually in relation to other theatrical and fictional narratives of emotions. Tait here interrogates these plays as sustained explorations of the inherent theatricality of characters expressing emotions from their phenomenological awareness. A theatrical language of gendered interiority is produced in the acting of emotions in Stanislavski's early realistic theatre. Alternatively, remapping the performances of emotional bodies can destabilise the culturally constructed boundary separating an inner private self and an outer social self in culturally produced geographies of emotions. As Tait shows, emotions can be performed as indivisible spatialities. *Performing Emotions* integrates theories of theatre, gender identity and emotion to investigate how sexual difference impacts on the representations of emotions. The book develops an accumulative analysis of the meanings of emotions in twentieth-century realist drama, theatre and acting.

*The Routledge Companion to Jacques Lecoq* Mark Evans, Rick Kemp, 2016-09-13 *The Routledge Companion to Jacques Lecoq* presents a thorough overview and analysis of Jacques Lecoq's life work and philosophy of theatre. Through an exemplary collection of specially commissioned chapters from leading writers, specialists and practitioners, it draws together writings and reflections on his pedagogy, his practice and his influence on the wider theatrical environment. It is a comprehensive guide to the work and legacy of one of the major figures of Western theatre in the second half of the

twentieth century In a four part structure over fifty chapters the book examines The historical artistic and social context out of which Lecoq s work and pedagogy arose and its relation to such figures as Jacques Copeau Antonin Artaud Jean Louis Barrault and Dario Fo Core themes of Lecoq s International School of Theatre such as movement play improvisation masks language comedy and tragedy investigated by former teachers and graduates of the School The significance and value of his pedagogical approaches in the context of contemporary theatre practices The diaspora of performance practice from the School from the perspective of many of the most prominent artists themselves This is an important and authoritative guide for anyone interested in Lecoq s work
