Chalmers, Suzanne Maloney, Albie Brooks, Judy Oliver, David Bond, 2020-01-21 The seventh edition of Birt's Accounting textbook is designed for the core accounting unit in a business or commerce degree. Many students who plan to major in soft side disciplines such as marketing or human resource management need a clear and accessible text that emphasises the relevance of accounting to business. The Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Ernst Young, animated work problems and questions with immediate feedback. Birt's unique resource can also form the basis of a blended learning solution for lecturers.

Pension Planning Everett T. Allen, 2003 PENSION PLANNING Pension Profit Sharing and Other Deferred Compensation Plans describes the process of pension planning. It provides the reader with pension plan features, costs, investment opportunities and regulatory issues and assists in the evaluation of various types of plans. It is the most up to date book on pension planning and it is adopted by the main association that focuses on this topic, the International Foundation of Employee Benefit Plans for the Certified Employee Benefit Specialist program.

Fundamentals of Financial Management Eugene F. Brigham, Joel F. Houston, 1998 When the book was first published more than 20 years ago, our intent was to write an introductory finance text that students could understand. Today the book has become the leading undergraduate finance text. The book is intended for use in the introductory finance course. The key chapters can be covered in a one-term course or supplemented with cases and some outside readings used in a two-term course.

Pref

Investments Herbert B. Mayo, 1997 Covering the same topics found in more advanced level texts, Investments incorporates minimal math and is much more student friendly, resulting in an increased excitement for and understanding of the basic investment course material. It is the text of choice for the College of Financial Planning. It includes a strong focus on the individual financial planner and features a Financial Advisor's Investment Case at the end of each chapter. These short cases illustrate how text material applies to real investment decisions. Financial calculators are introduced and utilized throughout the text with explanations employing both interest tables and the calculator. It is also ideal for non-majors courses.

Money and Capital Markets Peter S. Rose, 2003 This text analyzes the entire financial system and its component parts with an expanded discussion of the trend toward globalization of financial markets and institutions. It also discusses all major types of financial instruments and provides a grounding in interest price determination.

PC fingame LeRoy D. Brooks, 1995 Multi-period finance case which helps the student to develop and enhance skills in financial management, financial accounting, statement analysis and general decision making by controlling the major financial decision areas of a company.

Real Estate Finance & Investments William B. Brueggeman, Jeffrey D. Fisher, 2008 The 13th edition continues to provide students with the tools they need to understand and analyse real estate markets and the investment alternatives available to both debt and equity investors.
