Neoliberalism and the Novel Emily Johansen,Alissa Karl,2017-12-22 The novel form has long been connected to modern capitalism and is arguably the literary genre most prominently enmeshed in contemporary global markets Yet as many critics have suggested about capital something has changed in the last forty years With the rise of neoliberalism as the dominant global economic rationality and mode of governance the experience of capital has produced new ways of seeing and relating to the world leading as David Harvey observes to the financialization of everything The novel indexed to capital in myriad ways then must similarly have been transformed Neoliberalism and the Novel investigates both those changes wrought to the novel form by changing arrangements of capital and the novel s broader engagement with neoliberalism itself The chapters in this book consider these questions from a variety of angles attending to the way in which the neoliberal novel deploys familiar generic patterns as a site from which to offer critique examining the changing operation of labour and time under neoliberalism and its effect on novel form and offering a broader call for new reading and interpretative practices to respond to changing socio economic realities This book was originally published as a special issue of Textual Practice

On the Road: The Original Scroll Jack Kerouac, 2007-08-16 The legendary 1951 scroll draft of *On the Road* published word for word as Kerouac originally composed it Though Jack Kerouac began thinking about the novel that was to become *On the Road* as early as 1947 it was not until three weeks in April 1951 in an apartment on West Twentieth Street in Manhattan that he wrote the first full draft that was satisfactory to him Typed out as one long single spaced paragraph on eight long sheets of tracing paper that he later taped together to form a 120 foot scroll this document is among the most significant celebrated and provocative artifacts in contemporary American literary history It represents the first full expression of

Kerouac's revolutionary aesthetic the identifiable point at which his thematic vision and narrative voice came together in a sustained burst of creative energy. It was also part of a wider vital experimentation in the American literary, musical, and visual arts in the post-World War II period. It was not until more than six years later and several new drafts that Viking published in 1957 the novel known to us today. On the occasion of the fiftieth anniversary of *On the Road*, Viking will publish the 1951 scroll in a standard book format. The differences between the two versions are principally ones of significant detail and altered emphasis. The scroll is slightly longer and has a heightened linguistic virtuosity and a more sexually frenetic tone. It also uses the real names of Kerouac's friends instead of the fictional names he later invented for them. The transcription of the scroll was done by Howard Cunnell, who along with Joshua Kupetz, George Mouratidis, and Penny Vlagopoulos, provides a critical introduction that explains the fascinating compositional and publication history of *On the Road* and anchors the text in its historical, political, and social context.
