*Fur Trade Canoe Routes of Canada* Eric W. Morse, 1971      *Fur Trade Canoe Routes of Canada - Then and Now. (revised Edition).* Eric W. Morse, Parks Canada, 1979      *Fur Trade Canoe Routes of Canada* Eric W. Morse, 1969      *Canada's Changing North* William C. Wonders, 2003 When *Canada's Changing North* was first published in 1971 it quickly became a popular and reliable overview of the geography and culture of the Canadian North In the three decades since it first appeared great changes have occurred in this huge region that makes up two thirds of Canada's total area This revised and expanded edition provides a new generation with a comprehensive and up to date introduction to the Canadian North and outlines how this region has become increasingly integrated into both the Canadian national fabric and the world Among the many recent developments explored in *Canada's Changing North* is the legal recognition of aboriginal rights by the Canadian state which has led directly to significant increases in their political and economic power It also examines how economic development which has long focused on non renewable natural resources particularly minerals has grown to an enormous scale Development of arctic oil and gas which hinges on world supplies and national and international politics has meant major changes across the North Some of the new national parks in the Canadian North are already under threat from mineral development Northern tourism has made it possible for a wide variety of affluent visitors to visit hitherto remote areas affecting the ecology The final selection on northern challenges discusses critical issues such as the impact of climatic change the social needs e.g. housing education of a rapidly increasing aboriginal population environmental protection of unique regions and defence of Arctic sovereignty Of the sixty two readings in this edition forty one are new      **Fur Trade Canoe Routes of Canada** Eric W. Morse, 1968      *The Industrial Transformation of Subarctic Canada* Liza Piper, 2010-01-01 Between 1821 and 1960 industrial economies took root in the North transgressing political geographies and superseding the historically dominant fur trade Imported southern scientists and sojourning labourers worked the Northwest and its industrial history bears these newcomers imprint This book reveals the history of human impact upon the North It provides a baseline grounded in historical and scientific evidence for measuring subarctic environmental change Liza Piper examines the sustainability of industrial economies the value of resource exploitation in volatile ecosystems and the human consequences of northern environmental change She also addresses northern communities historical resistance to external resource development and their fight for survival in the face of intensifying environmental and economic pressures

**Powering Up Canada** R.W. Sandwell, 2016-11-01 With growing concerns about the security cost and ecological consequences of energy use people around the world are becoming more conscious of the systems that meet their daily needs for food heat cooling light transportation communication waste disposal medicine and goods *Powering Up Canada* is the first book to examine in detail how various sources of power fuel and energy have sustained Canadians over time and played a pivotal role in their history *Powering Up Canada* investigates the ways that the production processing transportation

use and waste issues of various forms of energy changed over time transforming almost every aspect of society in the process Chapters in the book's first part explore the energies of the organic regime food animal muscle water wind and firewood while those in the second part focus on the coal oil gas hydroelectricity and nuclear power that define the mineral regime Contributors identify both continuities and disparities in Canada's changing energy landscape in this first full overview of the country's distinctive energy history Reaching across disciplinary boundaries these essays not only demonstrate why and how energy serves as a lens through which to better understand the country's history but also provide ways of thinking about some of its most pressing contemporary concerns Engaging Canadians in an urgent international discussion on the social and environmental history of energy production and use and its profound impact on human society Powering Up Canada details the nature and significance of energy in the past present and future Contributors include Jenny Clayton University of Victoria George Colpitts University of Calgary Colin Duncan Queen's University J I Little Emeritus Simon Fraser University Joanna Dean Carleton University Matthew Evenden University of British Columbia Laurel Sefton MacDowell Emerita University of Toronto Mississauga Joshua MacFadyen Arizona State University Eric Sager University of Victoria Jonathan Peyton University of Manitoba Steve Penfold University of Toronto Philip van Huizen McMaster University Andrew Watson University of Saskatchewan and Lucas Wilson independent scholar

National Oceanic and Atmospheric Administration, 1997 Vol 2 includes copies of legislation pertinent to the proposal of the Thunder Bay Underwater Preserve and other regional sites as a National Marine Sanctuary It also provides significant details about the history of shipwrecks transportation and shipping on the Great Lakes     The Canoe and White Water C.E.S. Franks, 1977-12-15 The exhilaration of challenging and surviving rapids in a fragile canoe has made white water canoeing one of the fastest growing sports in Canada Much of this book is concerned with analyzing white water with the techniques for handling it rather than trying to conquer it by brute force with canoeing safety and with the planning and organizing of safe but adventurous trips But *The Canoe and White Water* goes far beyond primers in canoeing skills It sets the sport in the contexts of history technology geology and physics The author describes how canoes have been made over the centuries the factors governing their design and the features to look for in choosing one today In tracing the history of the canoe he rediscovers part of the Canadian heritage His own experience has led him to pursue the sciences which help the canoeist understand the sport he discusses the physics of river turbulence the geological formation of rivers and environmental questions His interests range from the personal rights of modern canoeists to the eating habits of the voyageurs of old The book reflects his enthusiasm and his research The text is illustrated with modern photographs instructive drawings of paddle strokes and river situations It is a clear concise and interesting account which will delight the enthusiast and intrigue the curious     British Atlantic, American Frontier Stephen John Hornsby, 2005 A pioneering work in Atlantic studies that emphasizes a transnational approach to the past     *Pox Americana* Elizabeth A. Fenn, 2002-10-02 The astonishing hitherto unknown truths about a disease that transformed the United States at its birth A horrifying epidemic of smallpox was sweeping across the Americas when the American Revolution began and yet we know almost nothing about it Elizabeth A Fenn is the first historian to reveal how deeply variola affected the outcome of the war in every colony and the lives of everyone in North America By 1776 when military action and political ferment increased the movement of people and microbes the epidemic worsened Fenn s remarkable research shows us how smallpox devastated the American troops at Qu

bec and kept them at bay during the British occupation of Boston Soon the disease affected the war in Virginia where it ravaged slaves who had escaped to join the British forces During the terrible winter at Valley Forge General Washington had to decide if and when to attempt the risky inoculation of his troops In 1779 while Creeks and Cherokees were dying in Georgia smallpox broke out in Mexico City whence it followed travelers going north striking Santa Fe and outlying pueblos in January 1781 Simultaneously it moved up the Pacific coast and east across the plains as far as Hudson s Bay The destructive desolating power of smallpox made for a cascade of public health crises and heartbreaking human drama Fenn s innovative work shows how this mega tragedy was met and what its consequences were for America **Pierre-Esprit Radisson** Pierre Esprit Radisson,2012 VOLUME 2 will contain The Port Nelson Relations Miscellaneous Writings and Related Documents

**Inventing Canada** Suzanne Zeller,2009-05-01 The Carleton Library Series makes available once again Inventing Canada Suzanne Zeller s classic history of science land and nation in Victorian Canada Zeller argues that the middle decades of the nineteenth century that saw the British North American colonies attempting to establish a transcontinental nation also witnessed the rise of an analytical tradition in science that challenged older conceptions of humanity s relationship with nature and the land Zeller taps a wide range of archival and published sources to document the prominent place of Victorian science in British North American thought and society Her focus on the creative functions of Victorian geological geophysical and botanical sciences highlights the formation of a Canadian community of scientists politicians educators journalists businessmen and others who promoted public support of scientific activities and institutions By moving beyond the eighteenth century mechanical ideals that had forged the United States they reassessed the land and its possibilities to redefine the transcontinental future of a northern variant of the British nation Inventing Canada is a must read for anyone interested in the scientific background of Canada s history including its environmental history **Muskegowuck**

**Athinuwick** Victor P. Lytwyn,2002-03-06 The original people of the Hudson Bay lowlands often known as the Lowland Cree and known to themselves as Muskegowuck Athinuwick were among the first Aboriginal peoples in northwestern North America to come into contact with Europeans Muskegowuck Athinuwick challenges long held misconceptions about the Lowland Cree and illustrates how historians have often misunderstood the role and resourcefulness of Aboriginal peoples during the fur trade era Although their own oral histories tell that the Lowland Cree have lived in the region for thousands of years many historians have portrayed the Lowland Cree as relative newcomers who were dependent on the Hudson s Bay Company fur traders by the 1700s In Muskegowuck Athinuwick historical geographer Victor Lytwyn shows instead that the Lowland Cree had a well established traditional society that far from being dependent on Europeans was instrumental in the survival of traders throughout the network of HBC forts during the 18th and 19th centuries
